Reading with Meaning

Debbie Miller, 2023-10-10 Ten years since her first edition author Debbie Miller returns with Reading with Meaning Second Edition Teaching Comprehension in the Primary Grades to share her new thinking about reading comprehension strategy instruction the gradual release of responsibility instructional model and planning for student engagement and independence Reading with Meaning Second Edition delves into strategy and how intentional teaching and guided practice can provide each child a full year of growth during their classroom year New in this edition are lesson planning documents for each chapter that include guiding questions learning targets and summative assessments as well as new book title recommendations and updated FAQs from the first edition Also

included are strategic lessons for inferring determining the importance in each text and synthesizing information Teachers can help students make their thinking visible through oral written artistic and dramatic responses and provide examples on how to connect what they read to their own lives In this book Miller reflects on her professional experiences and judgement along with current research in the field She provides a guide for any teacher hoping to build student relationships and develop lifelong independent learners

Now You See It Cathy N. Davidson, 2011-08-18 A digital innovator shows how we can thrive in the new technological age When Cathy Davidson and Duke University gave free iPods to the freshman class in 2003 critics said they were wasting their money Yet when students in practically every discipline invented academic uses for their music players suddenly the idea could be seen in a new light as an innovative way to turn learning on its head This radical experiment is at the heart of Davidson's inspiring new book Using cutting edge research on the brain she shows how attention blindness has produced one of our society's greatest challenges while we've all acknowledged the great changes of the digital age most of us still toil in schools and workplaces designed for the last century Davidson introduces us to visionaries whose groundbreaking ideas from schools with curriculums built around video games to companies that train workers using virtual environments will open the doors to new ways of working and learning A lively hybrid of Thomas Friedman and Norman Doidge Now You See It is a refreshingly optimistic argument for a bold embrace of our connected collaborative future
