## **Reading Deconstruction Deconstructive Reading:**

**Reading Deconstruction/Deconstructive Reading** George Douglas Atkins, 2021-05-11 Deconstruction a mode of close reading associated with the contemporary philosopher Jacques Derrida and other members of the Yale School is the current critical rage and is likely to remain so for some time Reading Deconstruction Deconstructive Reading offers a unique informed and badly needed introduction to this important movement written by one of its most sensitive and lucid practitioners More than an introduction this book makes a significant addition to the current debate in critical theory G Douglas Atkins first analyzes and explains deconstruction theory and practice Focusing on such major critics and theorists as Derrida J Hillis Miller and Geoffrey Hartman he brings to the fore issues previously scanted in accounts of deconstruction especially its religious implications Then through close readings of such texts as *Religio Laici* *A Tale of a Tub* and *An Epistle to Dr Arbuthnot* he proceeds to demonstrate and exemplify a mode of deconstruction indebted to both Derrida and Paul de Man This skillfully organized book designed to reflect the both and nature of deconstruction thus makes its own contribution to deconstructive practice The important readings provided of Dryden Swift and Pope are among the first to treat major Augustan texts from a deconstructive point of view and make the book a valuable addition to the study of that period Well versed in deconstruction the variety of texts he treats and major issues of current concern in literary study Atkins offers in this book a balanced and judicious defense of deconstruction that avoids being polemical dogmatic or narrowly ideological Whereas much previous work on and in deconstruction has been notable for its thick prose jargon and general obfuscation this book will be appreciated for its clarity and grace as well as for its command of an impressively wide range of texts and issues Without taming it as an instrument of analysis and potential change Atkins makes deconstruction comprehensible to the general reader His efforts will interest all those concerned with literary theory and criticism Augustan literature and the relation of literature and religion

**Deconstruction: A Critique** A. Rajnath, 1989-06-18 This collection of essays examines a wide range of topics relating to deconstruction which emerged in France as a reaction to structuralism but has found its greatest response in America where literary critics have built on its basic assumptions to create a new critical movement

**Deconstruction and Critical Theory** Peter V. Zima, 2002-06-01 This book surveys the main schools and theorists of deconstruction establishing their philosophical roots and tracing their intellectual development It analyses their contribution to the understanding of literature and ideology comparing their critical value and exploring the critical reaction to deconstruction and its limitations The text is designed for students who wish to understand how and why deconstruction has become the dominant tool of the humanities Deconstruction and Critical Theory marks a new stage in the reception history of Derrida's work and in the wider philosophical debate around deconstruction Zima's study makes a strikingly original contribution to our better understanding of deconstruction and its various philosophic sources

Christopher Norris University of Wales at Cardiff Deconstruction And

Critical Theory surveys the main schools and theorists of deconstruction establishes their philosophical roots traces their intellectual development analyses their contribution to the understanding of literature and ideology compares their critical value explores the critical reaction to deconstruction and its limitations This is the ideal text for students who wish to understand how and why deconstruction has become the dominant tool of the Humanities      **Beyond the Impasse** Ronald L. Farmer,1997 Contemporary biblical scholarship has reached an impasse The various programs for bridging the gap between the ancient texts and their contemporary theological and ethical appropriation are often unsatisfactory at best and at worst even suspect in their results We need an effective way to cross the bridge or a new bridge Ronald Farmer suggests that a process hermeneutic holds promise of moving biblical interpretation beyond the current impasse This is the first comprehensive introduction to a process hermeneutic It is not however merely theoretical discussion but moves from the side of biblical scholarship to develop a solid methodology for bridging the gap between text and life Farmer applies his process hermeneutic to a difficult text Revelation 4 5 and demonstrates this promising method in a piece of solid responsible and instructive interpretation      **The Cambridge Introduction to Narrative** H. Porter Abbott,2002-02-11 Publisher Description      Allah Transcendent Ian Richard Netton,2013-01-11 Examines the role of God in medieval Islamic philosophy and theology in a new and exciting way Renouncing the traditional chronological method of considering Islamic philosophy Netton uses modern literary modes of criticism derived from structuralism post structuralism and semiotics      The Prayers and Tears of Jacques Derrida John D. Caputo,1997-09-22 The Prayer and Tears of Jacques Derrida takes its point of departure from Derrida s more recent sometimes autobiographical writings and closely examines the religious motifs that have emerged in his later works John D Caputo s provocative interpretation of Derrida s thinking also makes an original contribution to the question of the relevance of deconstruction for religion Caputo s Derrida is a man of faith who bridges Jewish and Christian traditions The deep messianic apocalyptic and prophetic tones in Derrida s writings Caputo argues bespeak his broken covenant with Judaism Through its startling exploration of Derrida s impossible religion the book sheds light on the implications of deconstruction for an understanding of religion and faith today from back cover      *Geoffrey Hartman* G. Douglas Atkins,2006-06-01 The critic explicitly acknowledges his dependence on prior words that make his word a kind of answer He calls to other texts that they might answer him Geoffrey Hartman is the first book devoted to an exploration of the intellectual poetry of the critic who whether or not he represents the future of the profession is a unique and major voice in twentieth century criticism Professor Atkins explains clearly Hartman s key ideas and places his work in the contexts of Romanticism and Judaism on which he has written extensively In Geoffrey Hartman he provides a valuable introduction to a major critical voice who has called into question our assumptions about the distinction between commentary and imaginative literature      Reason and the Nature of Texts James L. Battersby,2016-11-11 Many of today s most prominent critics and teachers of literature insist on the endless deferral of textual meaning and on the social

construction of meaning and thought Against these markers of current critical theory James L Battersby argues for the authorial construction of determinate textual meaning insisting that to think about anything at all we must be able to refer to it and that such references are necessarily the semantic consequences of an author's deliberate intentional acts Propelling Battersby's argument is his use of principles and arguments drawn from current philosophical literature on language and mind Battersby reveals the philosophical shortcomings and argumentative weaknesses of some of the most prominent and influential doctrines in critical theory today especially and principally those that inform and define postmodernism in both its linguistic and historicist materialist modes As he argues for a fresh conception of our understanding of language mind and meaning Battersby probes the critical positions of among others Stanley Fish Mikhail Bakhtin Paul de Man and Jacques Derrida Making room for an alternative and Battersby asserts more intellectually appealing framework requires a skeptical dissection of the linguistic and historicist tenets that form the foundation of poststructuralism The striking outcome of his effort is a book as lively erudite theoretically informed and provocative as his earlier *Paradigms Regained*

**Literature and Spirit** David Patterson, **Aleksander Wat** Tomas Venclova, 1996-01-01 Aleksander Wat was in many ways the archetypal Central European intellectual of the mid twentieth century a man who experienced and influenced all the tumultuous political and artistic movements of his time Yet little has been published about him even in his native Poland This book is the first account of Wat's turbulent life accompanied by a thorough analysis of his extraordinary poems and prose works in their diverse periods and genres Tomas Venclova himself a poet of international renown has uncovered numerous new biographical details made the surprising discovery of an unfinished novel Wat began fifty years ago and woven together the themes of Wat's life and work At different times a futurist surrealist and Communist fellow traveler Wat turned away from communism after his imprisonment by the Soviet secret police and became a vociferous spokesman for democracy Venclova tells Wat's story from his Polish Jewish upbringing in the early 1900s his participation in the literary avant garde in the 1920s and his work as editor of an influential Communist journal before World War II through his emigration to the West in 1959 and his death in 1967 Venclova argues convincingly that Wat's literary achievement promoted the rejuvenation of Polish and East European letters after the Stalinist era His broad intellectual influence on many including Czeslaw Milosz helped to consolidate the moral and political opposition to totalitarian ideology that has profoundly changed political realities in the late twentieth century

Murphy, 1989-06-15 Although postmodernism has had clear impact on literary criticism the social and political implications of this philosophy have not been systematically investigated Murphy's study is the first to bring a broad interdisciplinary perspective to the subject and to present postmodernism as a coherent social theory Responding with compelling arguments to critics of postmodernism Murphy develops a model that offers a viable alternative to traditional approaches to conceptualizing and studying social life In an introductory chapter Murphy looks at the differences between modernism and postmodernism and discusses the metanarratives that characterize the former He goes on to clarify key assumptions and concepts especially the postmodern opposition to the traditional Western separation of subject and object In subsequent chapters he describes the research methodology used by postmodernists their views of social ontology and the relationship between order and structure and the creation of socially responsible institutions The postmodernists reconceptualization of key aspects of cultural reality including time space reason and social relations is examined in detail Murphy concludes by exploring the political ramifications of the postmodernist model and its potential as a vehicle for building a genuinely democratic society This study will be of particular interest to philosophers economists and sociologists concerned with contemporary developments in European social philosophy It is relevant to courses or study in social theory and philosophy communication theory cultural criticism and related fields      *Ethics Integrity Aptitude in Governance : For UPSC Civil Services Examination, 2/e* Ranvijay Upadhyay, Ethics Integrity Aptitude in Governance will serve as a worthy companion challenging the readers to push the envelope of intellectual understanding and translate the catholic understanding into pragmatic and holistic public Corporate interest's The concepts presented in the book will continue to help aspirants for General Studies papers of the main examinations The theoretical depth and expanse of topics in the book will help aspirants to hone their skills to adeptly tackle philosophical essays in the essay paper apart from being helpful in the Personality Test The text is supported by illustrations highlights of recent research and studies and examples created out of the participant observant experiences of the authors as public servants In order to supplement the explanations and discussions the book closely follows a Consilience approach to topics wherein facts are intricately linked to the theories across relevant disciplines The METRICES framework as a heuristic tool to unravel the apparent and subtle moral elements

Fried,2016-06-17 First published in 1992 this book represents the first major attempt to compile a bibliography of Derrida s work and scholarship about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of Derrida s Master s thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly useful reference tool for those studying his philosophy
