Composing Knowledge Rolf Norgaard, 2006-12-20 Higher education has its own rules rules about who is heard what counts as knowledge what works as persuasion They are conventions that must be learned and taught So it is no wonder that for new students college can be a confusing place Composing Knowledge asks students to examine their assumptions about learning It provides them with a training ground for the sometimes disquieting experience of higher education giving them the tools with which to understand their experience For instructors it offers provocative academic readings they themselves find

engaging allowing them to connect their scholarly interests to student experience The readings explore the role of language in learning the conventions of the classroom the nature of persuasion the importance of collaboration the force of gender the impact of technology and the power of the image When students contend with these issues they see the ways that scholars view them and enter the academic conversations that shape their college years and their future professional and civic lives

A World of Ideas Lee A. Jacobus,1986 Intertexts Marguerite Helmers,2003-01-30 What do we mean when we talk about reading What does it mean to teach reading What place does reading have in the college writing classroom Intertexts Reading Pedagogy in College Writing Classrooms theoretically and practically situates the teaching of reading as a common pedagogical practice in the college writing classroom As a whole the book argues for rethinking the separation of reading and writing within the first year writing classroom for an expanded notion of reading that is based on finding and creating meaning from a variety of symbolic forms not just print based texts but also other forms such as Web sites and visual images The chapter authors represent a range of cultural personal and rhetorical perspectives including cultural studies classical rhetoric visual rhetoric electronic literacy reader response theory creative writing and critical theories of literature and literary criticism This volume an important contribution to composition studies is essential reading for researchers instructors writing program administrators and students involved in college writing instruction and literature Reading for College Writers Laurence Behrens,Leonard J. Rosen,1987 **Read, Write, Connect** Kathleen Green,Amy Lawlor,2014-02-14 Read Write Connect provides integrated instruction in reading and writing paragraphs and essays complete coverage of research and grammar and a thematic reader full of high interest selections students will want to both read and write about The text begins with a walk through of the reading and writing processes and then moves on to a series of reading and writing workshop chapters providing in depth coverage of key topics like finding main ideas and drafting and organizing an essay Throughout the text demonstrates that academic processes are recursive for example drafting is not a phase or stage a writer finishes or completes drafting continues as the writer revises based on reading and reflection The structure of the text reflects this recursivity as students move from the early chapters to later chapters they reinforce and expand upon earlier learning digging deeper into the material and their own ideas and building confidence along the way
