Reading Biography:

Reading Biography Carl Rollyson, 2004-11-25 Most book reviewers know very little about the history or the art of biography. Indeed, if there is any art in biography, it is the rare reviewer that acknowledges it or knows how to discuss it. Usually, the reviewer regards biography as an occasion to wax eloquent about what he or she thinks of the subject. Little space, if any, is devoted to the biography's structure or style, to the biographer's peculiar problems, or to how the biography relates to others about the same subject. Carl Rollyson, a professional biographer and weekly columnist on Biography for The New York Sun, explores the ramifications of authorized and unauthorized biographies, investigates the relationship between biography and history, biography and fiction, biography and autobiography, as well as commenting on certain perennial biographical subjects such as Napoleon, on sub-genres such as children's biography, and on the most recent developments in life writing. Rollyson's aim is to reach not merely scholars but that vast general audience addicted to reading biography, enhancing their pleasure by providing insight or, you might say, the inside word on how biographies are put together. Epochs of Greek and Roman Biography Duane Reed Stuart, 2023-04-28 Sather Classical Lectures Volume Four Epochs of Greek and Roman Biography provides an episodic yet insightful exploration of the development of biography as a literary genre in ancient Greece and Rome Rooted in the principle articulated by Polybius the work emphasizes the interconnectedness of history and the evolution of human ideas particularly in the context of biographical writing The author selects topics that address key problems and stages in the growth of biographical purpose drawing connections between ancient and modern biographers from Plutarch's enduring influence on psychoanalytic biographers to the continued relevance of classical ideals in contemporary biographical theory While not attempting a complete history the book offers a rich analysis of how biographical works reflect broader cultural and intellectual movements and how the goals and methods of ancient biographers resonate with modern practices This volume also stands out for its thorough academic approach

bolstered by an extensive array of footnotes and references designed not just for scholars but for readers with a broad interest in biography The book is the result of specialized study offering a detailed bibliography that aims to engage those with a genuine enthusiasm for the genre The author balances academic rigor with the intention to make ancient biography accessible and engaging demonstrating the timeless relevance of ancient practices and offering a critical examination of their enduring influence This makes the volume both a valuable resource for experts and an engaging read for those curious about the evolution of biographical writing This title is part of UC Press's Voices Revived program which commemorates University of California Press's mission to seek out and cultivate the brightest minds and give them voice reach and impact Drawing on a backlist dating to 1893 Voices Revived makes high quality peer reviewed scholarship accessible once again using print on demand technology This title was originally published in 1928 A Companion to Literary Biography Richard

Bradford, 2018-09-18 An authoritative review of literary biography covering the seventeenth century to the twentieth century A Companion to Literary Biography offers a comprehensive account of literary biography spanning the history of the genre across three centuries The editor an esteemed literary biographer and noted expert in the field has encouraged contributors to explore the theoretical and methodological questions raised by the writing of biographies of writers The text examines how biographers have dealt with the lives of classic authors from Chaucer to contemporary figures such as Kingsley Amis The Companion brings a new perspective on how literary biography enables the reader to deal with the relationship between the writer and their work Literary biography is the most popular form of writing about writing yet it has been largely neglected in the academic community This volume bridges the gap between literary biography as a popular genre and its relevance for the academic study of literature This important work Allows the author of a biography to be treated as part of the process of interpretation and investigates biographical reading as an important aspect of criticism Examines the birth of literary biography at the close of the seventeenth century and considers its expansion through the eighteenth nineteenth and twentieth centuries Addresses the status and writing of literary biography from numerous perspectives and with regard to various sources methodologies and theories Reviews the ways in which literary biography has played a role in our perception of writers in the mainstream of the English canon from Chaucer to the present day Written for students at the undergraduate level through postgraduate and doctoral levels as well as academics A Companion to Literary Biography illustrates and accounts for the importance of the literary biography as a vital element of criticism and as an index to our perception of literary history British Biography Carl Rollyson, 2005-07-14 Biography as a literary genre is largely the product of the eighteenth century and of one seminal work James Boswell's *Life of Samuel Johnson* 1791 Boswell's innovations revolutionized the genre and made it the target of suppression and censorship He sought not only to memorialize a great man but also to reveal his flaws Boswell reported long stretches of Johnson's conversation noted his mannerisms and in general gave an intimate picture such as no biography had ever before dared to attempt After Boswell there was a retreat

from his bolder innovations which amounted to self censorship on the biographer's part When Thomas Carlyle's biographer James Anthony Froude braved this trend against truth and allowed his subject's dark side to show he was vilified in the press The tensions between discretion and candor have endured in British biography since Froude a point Carl Rollyson makes in the reviews of contemporary British biographers he includes in *British Biography* which also contains Johnson's full length biography of Richard Savage excerpts from Boswell's *Life of Johnson* as well selections from and commentaries on Southey's biography of Nelson Mrs Gaskell's biography of Charlotte Brontë and the revolutionary work of Froude and Strachey

American Biography Carl Rollyson, 2006-02 This collection of reviews selected from Rollyson's New York Sun column is as much about the romance of biography as it is about the American lives Certain concerns resonate throughout the book the American left's failure to reckon with Communist subversion McCarthyism and Stalinism the problematic nature of authorized biography the history of American biography definitive biographies literary biography the differences between autobiography and biography the importance of interviews in biographies of contemporary figures the differences between history and biography comparative biographies the virtues of short biographies and of biographies for children the tendency of biographers to fictionalize and of novelists to biographize psychology and biography Rollyson's own experience as a biographer and the way biographers treat one another's work Too many biographers he believes evince no interest in the biographical tradition Concerned only with possession of their subjects their proprietorial attitude deforms not only their biographies but also the genre itself If biography is reviewed badly receiving hardly more than a summary of the subject's life with a perfunctory nod to the biographer it is because the biographical tradition has been disregarded or discounted This book in other words has been written on the behalf of biography a genre that still awaits a full vindication

Biography Michael Cooperson,2000-05-25 Pre modern Arabic biography has served as a major source for the history of Islamic civilization In this 2000 study exploring the origins and development of classical Arabic biography Michael Cooperson demonstrates how Muslim scholars used the notions of heirship and transmission to document the activities of political scholarly and religious communities The author also explains how medieval Arab scholars used biography to tell the life stories of important historical figures by examining the careers of the Abbasid Caliph al Ma mun the Shiite Imam Ali al Rida the Sunni scholar Ahmad Ibn Hanbal and the ascetic Bishr al Hafi each of whom represented a tradition of political and spiritual heirship to the Prophet Drawing on anthropology and comparative religion as well as history and literary criticism the book considers how each figure responded to the presence of the others and how these responses were preserved by posterity Literary Intention, Literary Interpretations, and Readers John Maynard,2009-04-17 This accessible personal and provocative study returns to the major subject in literary discussion before and during the relatively recent flourishing of literary theory that of literary intention Does the author s personal intention or historical site determine a correct interpretation of a literary work Probing the entire range of issues connected with this many faceted and knotty concept this book engages with interpretation on both theoretical and practical levels It argues that the hard questions about interpretation connected to issues of intention cannot be sidestepped or ignored It does not argue for conservative concepts of literature itself nor against the major historical engagements of critics in our time But in addressing those who continue to read or teach literature it does insist on a level of sophistication in issues of literary interpretation that cannot be assured by historical research and knowledge of the social and cultural connections to literary works The overall aim of the work is to recall readers to the great complexity pleasure and interest of literary interpretation *How to Read a Book* Mortimer J.
