Book Features Presents a literacy model of restorative justice that includes participation from teachers principals administrators and parents Contains engaging narratives from elementary and secondary schools to illustrate concepts and strategies Explores compassionate listening as a conscious process of assuring that all involved are fully heard a skill that requires removing assumptions judgement and bias Identifies practices that take a positive view of learners as opposed to referring students to special education Uses restoration as an alternative to pushout practices that are designed to control students and often prevent them from reaching their capacity Restorative Literacies offers a refreshing perspective on the power of story in cultivating emancipatory restorative and transformative contexts of learning teaching and development During these times of civil and civic unrest this is the book we need in education
