Los Duenos De La Argentina Ii Los Secretos Del Verdadero Poder:

Argentinian Telenovelas Gabriela Jonas Aharoni, 2015-07-01 This work explores the way in which telenovelas TV serial dramas give voice to contemporary and historical Argentinian social and political issues Telenovelas have multiple layers of socio cultural message local as well as global and are invariably laden with appealing drama and emotion and sometimes comedy The discussion focuses on how telenovelas reflect society's perception of and adjustment toward issues of globalisation They are a means of portraying how individuals and families rationalize and incorporate rapid social and economic changes The book explores how telenovelas might offer a subversive interpretation of reality or provide a channel of dialogue with the government's political aims The author challenges the assumption that they are merely a reflection of historical political and social circumstance One of the many telenovela examples addressed in this book is whether the serial Padre Coraje constructs a parallel between the current Kirchner government and that of Juan Peron fifty years earlier The serial explores the two leaders relationship with the Church and implicitly presents President Kirchner as Peron's successor Explaining telenovelas as cultural texts they are not soap operas provides the primary basis for this study backed by Argentinian newspaper articles and secondary sources on Latin American history culture and economy as well as TV and cinema studies The result is a more profound and nuanced interpretation than hitherto of Argentinian telenovelas Analysis enables identification of the links between the serials storylines and contemporary political and social events These popular culture texts bring new meaning to the Argentinian historical narrative and for TV viewers puts the processes and effects of economic and social globalisation on a local multi cultural level perspective

Neoliberalism, Accountability, and Reform Failures in Emerging Markets Luigi Manzetti, 2015-10-13 The agenda of neoliberal market reform known as the Washington Consensus which was meant to turn around the economies of developing and postcommunist countries and provide the bedrock of economic success on which stable democracies could be built has largely proved to be a failure with Russia and many Latin American countries like Argentina left in severe economic crisis by the end of the 1990s Some proponents of neoliberal reform such as Anne Krueger have attributed this failure to the piecemeal and incomplete implementation of reform measures while others including Nobel Prize economist and former World Bank vice president Joseph Stiglitz have pointed to technical flaws in the policies While both of these assessments focus narrowly on economic factors Luigi Manzetti highlights the crucial importance of political institutions and processes to a fully adequate explanation His argument is that the ideology of neoliberal reform rooted in the theories of Friedrich von Hayek and Milton Friedman assumed political checks and balances that did not exist in many of these countries undergoing market reform and that only by taking political accountability as an influential variable in the equation for success can we really understand what happened Where accountability was weak patterns of corruption collusion and patronage worked to undermine the intended aims of market reform Manzetti uses both large N statistical analyses and small N case studies of Argentina Chile and Russia

to provide empirical evidence for his argument *The Economic Accomplices to the Argentine Dictatorship* Horacio Verbitsky, Juan Pablo Bohoslavsky, 2016 This book uncovers how banks individuals and companies worked as economic accomplices to the oppressive Argentinian dictatorship **The Space of Culture** Stewart King, Jeff Browitt, 2004 The essays range from colonial domination and international struggles over territorial claims to a meditation on the politics of location to the issue of spatial representation of mature age women and gay men within a dialectic of visibility invisibility in Spanish theatre and cinema Jacket *Nuevos Senderos* Diana Campoamor, William A. Diaz, Henry A. J. Ramos, 1998-09-30 These essays provide historical studies sociological surveys and analyses of policies and practices in the philanthropic community not only in the United States but for comparison s sake in Mexico and Argentina as well While descriptive and analytical this collection also identifies for policymakers and practitioners opportunities for more and better involvement in serving Latinos

Con probado rigor conceptual y el respaldo empírico de una exhaustiva e in dita base de datos sobre estas empresas y sus actividades los autores ponen en primer plano las circunstancias nacionales e internacionales que caracterizan cada período desde el modelo oligárquico agroexportador y la primera valorización financiera hasta las privatizaciones la megadevaluación la posconvertibilidad y la nueva valorización financiera durante el gobierno de Mauricio Macri Así por ejemplo abordan la apuesta histórica de los grupos económicos locales por consolidar una industrialización acotada a las exportaciones También a contrapelo de algunas miradas centradas en la inmediatez del corto plazo subrayan los costos implícitos de la inversión extranjera en el mediano y largo plazo que suelen omitirse al ponderar sus beneficios coyunturales y estudian un aspecto casi totalmente inexplorado hasta ahora como las políticas de especialización o diversificación que siguieron distintas casas matrices al abrir subsidiarias en el país Al entrelazar el análisis de los distintos patrones de acumulación con evidencia sistematizada Basualdo y Manzanelli no solo hacen un aporte fundamental al campo de la economía política nacional Además ofrecen un panorama revelador que puede servir como insumo para pensar propuestas concretas de regulación de los grandes capitales nacionales y extranjeros una cuenta aún pendiente en la Argentina
