Los Ferrocarriles De Mexico 1837 1987:

Los ferrocarriles y el General Manuel González Manuel González, Georgette Emilia José Valenzuela, 1994 Los ferrocarriles de México, 1837-1987 Beatriz Urías, Jaime del Palacio, Andrés Caso L., 1987 **Historia mínima de la expansión ferroviaria en América Latina** Sandra Kuntz Ficker, 2015 Este volumen estudia desde la perspectiva de la historia económica el proceso de expansión del transporte ferroviario que tuvo lugar en América Latina y el Caribe entre 1870 y 1930 La obra se concentra en el estudio de la era dorada del ferrocarril en la cual la vida económica de estos países se vio significativamente transformada por un medio de transporte que superaba las barreras del tiempo y la distancia ofreciendo un traslado seguro rápido y barato a lugares lejanos del propio territorio Tracks Across Continents, Paths Through History Douglas J. Puffert, 2009-04 A standard track gauge the distance between the two rails enables connecting railway lines to exchange traffic But despite the benefits of standardization early North American railways used six different gauges extensively and even today breaks of gauge at national borders and within such countries as India and Australia are expensive burdens on commerce In Tracks across Continents Paths through History Douglas J Puffert offers a global history of railway track gauge examining early choices and the dynamic process of diversity and standardization that resulted Drawing on the economic theory of path dependence and grounded in economic technical and institutional realities this innovative volume traces how early historical events and even idiosyncratic personalities have affected choices of gauge ever since despite changing technology and understandings of what gauge is optimal Puffert also uses this history to develop new insights in the theory of path dependence Tracks across Continents Paths through History will be essential reading for anyone interested in how history and economics inform each other Latin American Documentary Filmmaking David William Foster, 2013-05-02 Latin American Documentary Filmmaking is the first volume written in English to examine themes in major works of Latin American documentary films Foster looks at the major ideological issues raised and the approaches to Latin American social and political history taken by key documentary films *La economía mexicana y los ferrocarriles (1910-1920)* Víctor Mata Temolztzin, 1999 *A Social History of Mexico's Railroads* Teresa Van Hoy, 2008-02-21 Largely absent from our history books is the social history of railroad development in nineteenth century Mexico which promoted rapid economic growth that greatly benefited elites but also heavily impacted rural and provincial Mexican residents in communities traversed by the rails In this beautifully written and original book Teresa Van Hoy connects foreign investment in Mexico largely in railroad development with its effects on the people living in the isthmus of Tehuantepec Mexico's region of greatest ethnic diversity Students will be drawn to a fascinating cast of characters as muleteers artisans hacienda peons convict laborers dockworkers priests and the rural police force rurales join railroad regulars in this rich social history New empirical evidence some drawn from two private collections elaborates on the huge informal economy that supported railroad development Railroad officials sought to gain access to local resources such as land water construction materials

labor customer patronage and political favors Residents in turn maneuvered to maximize their gains from the wages contracts free passes surplus materials and services including piped water controlled by the railroad Those areas of Mexico suffering poverty and isolation attracted public investment and infrastructure A Social History of Mexico s Railroads is the dynamic story of the people and times that were changed by the railroads and is sure to engage students and general readers alike
