Resumen

Este trabajo analiza las características de los países más pobres de América Latina, denominados acá "Club de la pobreza". La tasa de pobreza en esos países permaneció casi invariable o se redujo poco en el período de análisis de 2000 a 2014. Contrario a lo acontecido en la mayoría de países de América Latina, que redujeron en monto significativo la tasa de pobreza durante esos años. Esos países tienen en común su proximidad geográfica, altas tasas de criminalidad y de expulsión de población. Se estimó un modelo econométrico para identificar las variables que explican la tasa de pobreza de los países, que son concentración del ingreso, transparencia y educación. También se ilustra la trampa de pobreza en que están los países con base en el análisis del caso de Guatemala.

Palabras clave

Pobreza, concentración del ingreso, corrupción, criminalidad, expatriación, Guatemala.

Abstract

This work analyzes the characteristics of the poorest countries of Latin America, called here "Poverty club". The poverty rate in those countries remained almost unchanged or decreased little in the analysis period from 2000 to 2014. Contrary to what happened in most Latin American countries, which reduced in a significant amount the poverty rate during those years. These countries have in common their geographical proximity, high crime rates and the expulsion of the population. An econometric model was estimated to identify the variables that explain the poverty rate of the countries, which are income concentration, transparency and education. The poverty trap in which the countries are based on the analysis of the case of Guatemala is also illustrated.

,2004 Dimensiones de la exclusión psicosocial. Pedro Enrique Rodríguez R,2021-07-16 Este libro es un intento por explorar algunas implicaciones teóricas y prácticas de la exclusión psicosocial en psicología. Para ello toma como punto de partida una paradoja en la que siendo reconocida como el principal factor de riesgo en salud mental la atención a la exclusión psicosocial ha sido más bien periférica en la agenda de la disciplina lo que ofrece una oportunidad para explorar no solo su importancia prioritaria en la actualidad de los países de América Latina y el mundo sino también su potencial para repensar algunos importantes problemas teóricos y prácticos. Para ello la primera parte explora diversos elementos de la tradición occidental ante la precariedad revisa aportes históricos y propone un conjunto de elementos para una formulación contemporánea de la exclusión psicosocial destacando sus posibles beneficios para la comprensión de un proceso mucho más dinámico y complejo que la mera noción de pobreza o carencia material. En la segunda parte se presentan hallazgos investigativos en los que se pueden apreciar algunos de sus procesos psicológicos más relevantes tales como el papel decisivo de los vínculos como estructuradores de la experiencia así como las consecuencias subjetivas del sufrimiento y la inequidad. También se analizan ciertas diferencias y similitudes en el funcionamiento y la respuesta a dispositivos de intervención con personas provenientes de contextos de plena inclusión. El libro finaliza con la propuesta de un modelo de intervención que podrá ser de utilidad para el abordaje individual comunitario y social. **América Latina** Miguel Panadero Moya, Francisco Cebrián Abellán,1999 Social Programmes, Poverty Eradication and Labour Inclusion Laís Wendel Abramo, Simone Cecchini, Beatriz Morales,2019 Diverse social programmes including conditional cash transfer programmes labour and production inclusion programmes and social pensions are being implemented in Latin American and Caribbean countries with the aim of ending poverty and reducing inequalities throughout the life cycle. This book offers an up to date analysis of these programmes and the way they relate to labour inclusion and analyses ongoing debates regarding the possible incentives and disincentives they create in terms of the labour supply formalization and child labour among the target population. Considering that poverty is a structural problem of highly unequal societies the thesis that poverty is due to a lack of effort on the part of the poor is argued to be an expression of the strong prejudice against those living in poverty the great majority of whom work or are actively seeking employment but are hampered by the large decent work deficits existing in the region. From an integrated and rights based perspective public policies should simultaneously address the twofold challenge of social and labour inclusion in order to achieve basic thresholds of well being by ensuring income universal access to good quality social services and opportunities for decent work. El capital social y la pobreza en Guatemala ,2005 **Dialogos sobre pobreza y derechos humanos** Marcel Arévalo, Óscar López Rivera,2007 Through the Eyes of Women Cecilia Menjívar,2001 This volume examines the effects of neoliberal reforms on daily life in Latin America and the Caribbean as seen through the eyes of women. The authors situate women in their sociocultural milieus so that women's perceptions and assessments are examined through a lens that includes the lives of other women men and other members of
