Loss Change And Bereavement In Palliative Care:

EBOOK: Loss, Change and Bereavement in Palliative Care Pam Firth, Gill Luff, David Oliviere, 2004-12-16 For anyone seeking to develop their understanding of loss and change whether in a palliative care of general or social care setting this book contains much useful material which can be taken selectively or in its entirety Hospice Information Bulletin How do professionals meet the needs of bereaved people How do professionals undertake best practice with individuals groups families and communities What are the implications for employing research to influence practice This book provides a resource for working with a complex range of loss situations and includes chapters on childhood bereavement and individual and family responses to loss and change It contains the most up to date work in the field presented by experienced practitioners and researchers and is relevant not only for those working in specialist palliative care settings but for professionals in general health and social care sectors Strong links are maintained between research and good practice throughout the book These are reinforced by the coherent integration of international research material and the latest thinking about loss and bereavement Experts and clinicians draw upon their knowledge and practice whilst the essential perspective of the service user is central to this book Loss Change and Bereavement in Palliative Care provides essential reading for a range of professional health and social care disciplines practising at postgraduate or post registration qualification level It challenges readers at an advanced level on issues of loss change and bereavement Contributors Lesley Adshead Jenny Altschuler Peter Beresford Grace Christ Suzy Croft Pam Firth Shirley Firth Richard Harding Felicity Hearn Jennie Lester Gill Luff Linda Machin Jan McLaren David Oliviere Ann Quinn Phyllis Silverman Jean Walker Karen Wilman

Loss, Change and Bereavement in Palliative Care Pam Firth, Gill Luff, David Oliviere, 2005 This text brings together contemporary thinking on loss and bereavement It draws on international research practice and individual stories from people struggling to understand the meaning of loss including work with bereaved children parents families and adults

Handbook of Palliative Care Richard Kitchen, Christina Faull, Sarah Russell, Jo Wilson, 2024-05-08 Handbook of palliative care Comprehensive resource utilising up to date evidence and guidelines to support non specialists in palliative care in both hospital and community settings Building on the success of previous editions this new edition of the award winning handbook has a practical focus and provides the user with an approach to clinical challenges while also providing enough information to explain why this approach is suggested The 4th edition of Handbook of Palliative Care supports non specialists in palliative care in both hospital and community settings and focuses on holistic care and therapeutic interventions With several new chapters and content significantly updated to reflect new evidence and practice the 4th edition also presents up to date evidence guidance in a succinct format and utilises flow charts and figures to enhance the accessibility of information Written by four highly accomplished nursing and medical authors with over 100 years experience between them in hospital hospice care home and community settings Handbook of Palliative Care provides Guidance from clinicians who are experts in

their field An acknowledgment of the requirements of healthcare professionals attending to patients with palliative care needs along with a dedicated chapter addressing this topic Contemporary guidance on medicine management symptom control and managing complications of cancer Palliative care in heart failure renal disease and advanced liver neurological and respiratory diseases An in depth look at patient and public involvement in palliative care and inequity Skill development including communication ethical considerations and spiritual care New chapters including frailty dementia and multi morbidity and palliative care for people living with mental illness and people with intellectual disabilities This 4th edition of Handbook of Palliative Care is an ideal supporting resource for doctors nurses and other healthcare professionals caring for patients with palliative care needs in the UK and beyond The 1st edition was the winner of the 1999 BMA Medical Book of the Year Prize

Counselling for Grief and Bereavement Geraldine M Humphrey, David G Zimpfer, 2007-12-18 The authors have done their homework in reading and consulting with the prominent literature especially regarding children All this effort gives the book a solid background foundation and makes it readable and well usable for both lay counsellors and professional providers and for all of us who are engaged in the delicate and rewarding endeavor of Grief Therapy Naji Abi Hashem Clinical Cultural Psychologist Berkeley California Praise for the First Edition The book provides an absorbing and challenging journey through the possible process involved in bereavement work and encourages one to think broadly about how one can approach a bereaved person this was a book I enjoyed reading very much and which I found both theoretically sound and practically helpful Bereavement Care Cruse Counselling for Grief and Bereavement Second Edition is a bestselling introductory guide for professionals who work with people experiencing bereavement through death and other forms of loss Focusing on practical assessment and intervention strategies Geraldine Humphrey and David Zimpfer guide readers through the essential theory and skills needed to work with clients in a way which sensitively facilitates the process of grief initiates healing and promotes a sense of growth Setting out the broad principles for practice the authors go on to show how these can be applied in working with individuals families and groups and in relation to specific issues including chronic and life threatening illnesses palliative care and complicated grief Carefully chosen case examples illustrate the counselling process while specific attention is paid throughout to ethical considerations and the possible need for referral This fully revised and updated Second Edition features a new chapter on working with children and adolescents both from the perspective of young people who are grieving losses and those who are receiving palliative care as patients While focusing on the practical the book provides a firm theoretical base by explaining key concepts such as attachment grief and resilience Geraldine M Humphrey is Counsellor in the Department of Psychology at the North Canton Medical Foundation specializing in death illnesses and non death and grief David G Zimpfer is former Director of the Cancer Center of Ohio

Teamwork in Palliative Care Peter W. Speck, 2006 Teamwork is a complex but essential component of palliative care The needs of people suffering from a life threatening illness are diverse and it is rare for one professional alone to provide adequate care the skills of others

are needed to ensure a holistic approach This book explores the different aspects of team working in palliative care

Innovations in Cancer and Palliative Care Education Lorna Foyle, Janis Hostad, 2017-10-03 This work includes Foreword by Nigel Sykes Medical Director St Christopher's Hospice London This practical evidence based guide has been specifically designed for teachers in cancer and palliative care It is completely up to date and covers the recent complex changes in cancer and palliative care delivery offering a range of different creative approaches Ideal for training the text includes highlighted key points self help questions for reflection and references where applicable It provides invaluable guidance for all healthcare professionals with palliative care teaching responsibilities including undergraduate and postgraduate healthcare educators and Macmillan lecturers This book gives us a three dimensional view of how to respond to the demands on cancer and palliative care education today set particularly in a British context but of course capable of extrapolation to other settings These three dimensions of innovation can be summarised as What do you teach How do you teach it To whom do you teach it Innovation in all three aspects simultaneously may be difficult to achieve but all who have a responsibility for education are faced with the challenges of making their teaching more effective and demonstrating that they have done so keeping abreast of advancing knowledge and clinical practice and of reaching out to groups of learners who hitherto have been neglected Of significant help to anyone in this field whose concern is the delivery of effective and appropriate education Nigel Sykes in the Foreword

Palliative Medicine E-Book T. Declan Walsh, Augusto T. Caraceni, Robin

outlines decision trees and treatment algorithms Comes with access to the complete contents of the book online for convenient rapid consultation from any computer **Grief and Bereavement in the Adult Palliative Care Setting** E.

Alessandra Strada,2013-06-20 This book in Palliative Care is an evidence based handbook which helps palliative care clinicians identify risk factors and contributing variables to the development of pathological grief reactions implement treatment plans that can adequately minimize the impact of risk factors and provide professional and specific support to patients and families **Death and Dying** John F. Szabo,2009-11-02 While it can be traced to the 1700s the term

thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social workers and anyone with an interest in death dying bereavement or the care of the terminally ill *The SAGE Handbook of Counselling and Psychotherapy* Colin Feltham,Terry Hanley,Laura Anne Winter,2017-09-30 At over 600 pages and with more than 100

contributions this Fourth Edition brings together the essentials of counselling and psychotherapy theory research skills and practice Including new content on assessment theory applications and settings and with new chapter overviews and summaries this continues to be the most comprehensive and accessible guide to the field for trainees or experienced practitioners **Palliative Care, Social Work, and Service Users** Peter Beresford,Lesley Adshead,Suzy Croft,2007 This

unique book provides a rare look at social work and palliative care from the perspective of service users Drawing on new original research the authors examine service users experiences tracking their journeys through it exploring the care they receive and the effects of culture and difference through their first hand comments and ideas **Death'S Dominion:**

Ethics At The End Of Life Woods, Simon,2006-12-01 Drawing on a philosophical framework the author explores end of life issues in order to reflect on the nature of the good death and how this may be achieved The book considers whether it is permissible or desirable to influence the quality of dying of *Oxford Textbook of Palliative Medicine* Geoffrey W. C.

Hanks,2011-07-21 Emphasising the multi disciplinary nature of palliative care the fourth edition of this text also looks at the individual professional roles that contribute to the best quality palliative care *Pathways through Care at the End of Life* Claire Henry,Anita Hayes,Margaret Holloway,Tes Smith,Eleanor Sherwen,Katie Lindsey,2013-11-21 This is a comprehensive guide to providing excellent end of life care It covers the pathway of care at the end of life from initial conversations about end of life care and assessment and planning to care in different settings multi agency care and providing a good death Case studies and reflective questions feature throughout The Oxford Textbook of Palliative Social Work Terry Altilio,Shirley Otis-Green,John G. Cagle,2022 It is so important to advocate for things that may not always seem possible Getting to work with patients families at the end of their life is the ultimate honor Lauren G Markham MSW LCSW APHSW C In this work one witnesses both depths of human suffering and heights of human transcendence that can inspire both awe and fear At those times I have found that surrendering my need to be an expert and instead allow myself to simply be a human is the wisest action Kerry Irish LCSW OSW C FAOSW **EBOOK: Death's Dominion: Ethics at the End of Life** Simon Woods,2006-12-16 I enjoyed reading this book very much It is very readable and well argued using real life cases and thought experiments as well The book provides the reader with a short history of and an overview of the most important issues in modern palliative care Various theoretical discussions are clearly set out such as the relationship between the hospice movement and modern palliative care between palliative care and health care in general between palliative sedation and euthanasia and the question whether euthanasia can be part of palliative care The author starts with exploring the existing debates and then develops his own arguments in a balanced and well structured way Medicine Health Care and Philosophy The text of this book is accessible the philosophical and ethical arguments are clearly articulated and relevant ethical principles are integrated into the critique of the issues making this a very useful book for nurses working in palliative as well as in general care Nursing Ethics It is crucially important for any student or researcher who is seriously considering ethical and policy matters at the end of life to embrace and tackle intellectually the issues that Woods raises in this book I would happily recommend it Journal of Medical Ethics What constitutes a good death Is it possible to arrange a good death Is killing compatible with caring This book looks at death and the issues and ethical dilemmas faced at the end of life It addresses the central issues in the field such as Withholding and withdrawing treatment Euthanasia and assisted suicide Terminal sedation The role of autonomy Palliative care Drawing on a philosophical framework the author explores end of life issues in order to reflect on the nature of the good death and how this may be achieved The book considers whether it is permissible or desirable to influence the quality of dying offering palliative sedation as a possible alternative to terminal sedation the argument is extended to examine why some forms of assisted dying can be shown to be compatible with the ideas of palliative care Consideration is also given to future developments such as life extension techniques and the ethical questions that that these techniques might raise As such the book follows in the ongoing philosophical tradition to

critique and analyse current thought on the topic of death encouraging self reflection in the reader and offering suggestions for practice in end of life care Death s Dominion is key reading for students and professionals involved in care of the dying as well as those with an interest in the philosophical issues surrounding end of life care **Contemporary Social Work**

Practice: a Handbook for Students Barbra Teater,2014-04-16 This exciting new book provides an overview of fifteen different contemporary social work practice settings spanning across the statutory voluntary private and third sectors It serves as the perfect introduction to the various roles social workers can have and the numerous places they can work equipping students with the knowledge skills and values required to work in areas ranging from mental health to fostering and adoption and from alcohol and drug treatment services to youth offending Each chapter provides An overview of the setting including the role of the social worker how service users gain access to the service and key issues definitions or terms specific to the setting Legislation and policy guidance related to the specific setting The key theories and methods related to the setting Best practice approaches and the benefits and challenges of working within the setting Case examples illustrating the application of the information to practice Social work students will find this an invaluable handbook that they will refer to time and again throughout their education and into their assessed and supported year of employment Contributors Mark Baldwin Jo Bell Jenny Clifford Jill Chonody Clare Evans Benedict Fell Alinka Gearon Issy Harvey Caroline Hickman Tony Jeffs Debbie Martin Malcolm Payne Justin Rogers Sue Taplin Barbra Teater John Watson Michele Winter It is an excellent student introduction to this diverse profession Full of information that provides a thought provoking read Andrew Ellery Social Care Professional This book really is an excellent resource for social work students at an introductory level and for preparation for placement levels It provides a comprehensive overview of a range of service user groups as well as specific issues such as domestic violence homelessness and substance use Each section is structured around the policy and legislative context and includes comment on theory challenges and anti oppressive practice with case examples to aid learning The focus on the settings within which social work is practiced is particularly welcome and provides an essential companion to introductory books which look more at values professional behaviour and skills The range of different settings covered provides excellent preparation for students about to start a placement The sections on rehabilitation of offenders and self harm highlight topics that are often given less attention but may well be encountered by students on placement I will certainly be including this book as essential reading for students on introductory and practice preparation modules Allan Rose Social Work Lecturer Brunel University UK *Working with Bereaved Children and Young People* Brenda Mallon,2010-11-15 Working with Bereaved Children and Young People offers a fresh insight into working practices with children and young people who are experiencing the death of a family member friend school peer or in their social network Bridging the gap between theory and practice the book s practical skills focus is informed by the latest research findings on children and young people s experience of grief The wide ranging content includes a comprehensive review of theoretical approaches to bereavement the

impact of different types of grief on children working with children who have been bereaved in traumatic circumstances such as through criminal behavior skills development The list of resources case studies and exercises encourage critical engagement with the counselling theory and promote reflexive practice Trainees in counselling psychotherapy and social work as well as teachers and mental health workers will find this an invaluable resource for working with this vulnerable client group

Critical Issues in Social Work With Older People Mo G. Ray, Miriam Bernard, Judith Phillips, 2018-06-26 This timely text highlights the importance of informed and critical practice in social work with older people With an emphasis on reflection throughout it argues for the need to rethink how social workers support some of the most vulnerable people in society The text begins with an exploration of the relationship between gerontology the study of aging and social work and demonstrates that a gerontological approach has long been missing from social work practice The central chapters consider key issues affecting older people and social work practice such as Risk of poverty Memory loss and dementia Palliative and end of life care Loss and bereavement Moving into a care home Bringing together theoretical and research insights this agenda setting text provides a sound base for creative practice with older people All those looking to make a positive and discernible difference to older people will find this text rewarding reading

Death, Dying and Bereavement in a Changing World Alan R. Kemp, 2015-10-16 This title takes a comprehensive approach exploring the physical social psychological and spiritual dimensions of death dying and bereavement Through personal stories from real people Death Dying and Bereavement provides readers with a context for understanding their changing encounters with such difficult concepts
