Management Laureates Arthur G. Bedeian, 2018-04-17 First published in 1992 This volume compiles the autobiographies of the management discipline's most distinguished laureates. Prior to this publication, the available management literature provided little insight into the personal and intellectual lives, the frustrations as well as the triumphs of the individuals in the management discipline. Although such understanding could be conveyed in many forms, perhaps the most intimate and fascinating of these for gaining behind the scenes insights is the autobiography. Thus the autobiographies in this volume, as in the five companion volumes, offer the reader not only a glimpse of the subjective determinants and personal experiences of the management discipline's most distinguished laureates but also a deeper understanding of what management is and what it is becoming. The various accounts reflect a diversity of approaches, interests, and experiences. Management Laureates

Management Laureates Arthur G. Bedeian, 1992 **Management Laureates**, 2002 Organizational Behavior 3 John B. Miner, 2006-03-02 This text provides a comprehensive overview of the development of the field of organizational behavior. It covers the foundations of the scientific method, theory development, and the accrual of scientific knowledge in the field. **Organizational Behavior 1** John B. Miner, 2015-03-26 This comprehensive text provides a detailed review and analysis of the building block theories in Organizational Behavior. Expanding on his previous work in the field, John Miner has identified the key theories that every student or scholar needs to understand to be considered literate in the discipline. *Organizational Behavior: Essential Theories of Motivation and Leadership* analyzes the work of leading theorists. Each chapter includes the background of the theorist, represented the context in which the theory arose, the initial and subsequent

theoretical statements research on the theory by the theory's author and others including meta analysis and reviews and practical applications Special features including boxed summaries of each theory at the beginning of each chapter two introductory chapters on the scientific method and the development of knowledge and detailed and comprehensive references help make this text especially useful for graduate courses in Organizational Behavior and Industrial Organizational Psychology

Organizational Behavior 2 John B. Miner, 2015-06-01 This comprehensive text provides a detailed review and analysis of the building block theories in the macro organizational behavior field John Miner has identified the key theories that any student or scholar needs to understand to be considered literate in the discipline Each chapter includes the background of the theorist represented the context in which the theory arose the initial and subsequent theoretical statements research on the theory by the theory's author and others including meta analysis and reviews and practical applications Special features including boxed summaries of each theory at the beginning of each chapter two introductory chapters on the scientific method and the development of knowledge and detailed comprehensive references help make this text especially useful for every student and scholar in the field

Organizational Behavior 4 John B. Miner, 2007-03-05 This unique work bridges the gap between theory and practice in organizational behavior It provides a practical guide to real life applications of the 35 most significant theories in the field The author describes each theory then analyzes its usefulness and importance to the successful practice of management His analysis covers key managerial topics such as goal setting training and development assessment job enrichment influence processes decision making group processes organizational development organizational structuring and effective organizational operation

The SAGE Encyclopedia of Industrial and Organizational Psychology Steven G. Rogelberg, 2016-09-27 The well received first edition of the Encyclopedia of Industrial and Organizational Psychology 2007 2 vols established itself in the academic library market as a landmark reference that presents a thorough overview of this cross disciplinary field for students researchers and professionals in the areas of psychology business management and human resources Nearly ten years later SAGE presents a thorough revision that both updates current entries and expands the overall coverage adding approximately 200 new articles expanding from two volumes to four Examining key themes and topics from within this dynamic and expanding field of psychology this work offers a truly cross cultural and global perspective

Organizational Behavior John B. Miner, 2007 This comprehensive text provides a detailed review and analysis of the building block theories in Organizational Behavior Expanding on his previous work in the field John Miner has identified the key theories that every student or scholar needs to understand to be considered literate in the discipline

Role Motivation Theories John B. Miner, 2008-02-20 Role Motivation Theories is concerned with four types of organisations and what makes them work The four are not exhaustive of all possible organisational types but they do represent the major forms found in the world today If we wish to understand organisational functioning in modern society then we need to have substantial insight into these four types of organisations

Drawing upon many years of research John B Miner argues that the organisational effectiveness required to produce high levels of productivity results from achieving a state of integration between the type of organizational system and the kind of people who fill the key positions in the system Role Motivation Theores is the most comprehensive and up to date treatment of this work available **Academy of Management Learning & Education** ,2007 **The Making of Experimental Economics** Andrej Svorenčik,Harro Maas,2015-11-05 This book is the transcript of a witness seminar on the history of experimental economics in which eleven high profile experimental economists participated including Nobel Laureates Vernon Smith Reinhard Selten and Alvin Roth The witness seminar was constructed along four different topics skills community laboratory and funding The transcript is preceded by an introduction explaining the method of the witness seminar and its specific set up and resuming its results The participants contribution and their lively discussion provide a wealth of insights into the emergence of experimental economics as a field of research This book was awarded with best book prize of the European Society for the History of Economic Thought ESHET in 2018
