Praise for *Strategy Theory and Practice*: Finally, something different in a strategy text. This new volume provides a broad view of strategy covering the conventional as well as less mainstream alternatives like the growing strategy as practice perspective. It also does a great job of providing balanced critiques of the existing orthodoxy and provides explicit connections to some of the more accessible academic articles, providing more depth to the arguments presented. All in all, it is an excellent break from the unfortunate tendency to make strategy a narrow economic enterprise in a world that is far more complex and social than that. *Strategy Theory and Practice* is a welcome addition to the available texts on strategy.

Nelson Phillips, Professor of Strategy and Organizational Behaviour, Co-Editor *Journal of Management Inquiry*. A super and overdue book. It embraces the central importance of organization theory and especially the play of power and politics both inside and outside the organization. This erudite, almost polemical book promises to redraw how we approach the study of strategy and not before time.

Royston Greenwood, Associate Dean School of Business, University of Alberta. It explains where strategy originates from and how contemporary ideas and practices facilitate or constrain decision making and action. In particular, this book illuminates the role of power and politics in strategy, an issue that has been overlooked in most textbooks in this area. Enjoyable and inspiring reading for students, researchers and practitioners.

Eero Vaara, Professor of Management and Organization, Dean of Research, Hanken School of Economics, Helsinki. The authors have managed to produce a unique and admirable combination of critical external engagement with strategy.
