Raven Seek Thy Brother:

Raven Seek Thy Brother Gavin Maxwell, 1968 **Otter** Daniel Allen, 2020-05-11 Although rarely seen in the wild the otter is admired for its playful character and graceful aquatic agility fixed in the popular imagination through books and films such as Tarka the Otter and Ring of Bright Water This is just a small part of its story however throughout history the otter has been hunted for its fur and to prevent it from killing fish Featuring numerous images from nature and culture as well as examples from folklore sports and literature this wide ranging book also explores the movement against otter hunting and the ongoing efforts promoting otter conservation A fittingly lively study of its subject Otter offers a new way of thinking about this much loved but endangered animal The Nature of Spring Jim Crumley, 2023-02-28 Third in the Wainwright Prize listed Seasons Tetralogy Spring marks the genesis of nature's year As Earth's northern hemisphere tilts ever more towards the life giving sun the icy dark days of winter gradually yield to the new season's intensifying light and warmth Nature responds For our flora and fauna for the very land itself this is the time of rebirth and rejuvenation although as Jim Crumley attests spring in the Northlands is no Wordsworthian idyll Climate chaos and its attendant unpredictable weather brings high drama to the lives of the animals he observes the badgers seals and foxes the seabirds and the raptors But there is also a wild elemental beauty to the highlands and islands a sense of nature in animation during this the most transformative of seasons Jim chronicles it all the wonder the tumult the spectacle of spring **Nature Prose** Dominic Head, 2022-08-15 Nature Prose seeks to explain the popularity and appeal of contemporary writing about nature This book intervenes in key areas of contemporary debate about literature and the environment and explores the enduring appeal of writing about nature during an ecological crisis Using a range of international examples with a focus on late twentieth and early twenty first century writing from Britain and the US Dominic Head argues that nature writing contains formal effects which encapsulate our current ecological dilemma and offer a fresh resource for critical thinking The environmental crisis has injected a fresh urgency into nature writing along with a new piquancy for those readers seeking solace in the nonhuman or for those looking to change their habits in the face of ecological catastrophe However behind this apparently strong match between the aims of nature writers and the desires of their readers there is also a shared mood of radical uncertainty and insecurity The treatment and construction of nature in contemporary imaginative prose reveals some significant paradoxes beneath its dominant moods moods which are usually earnest sometimes celebratory sometimes prophetic or cautionary It is in these paradoxical moments that the contemporary ecological crisis is formally encoded in a progressive development of ecological consciousness from the late 1950s onwards Nature prose fiction and nonfiction is now contemporaneous with a defining time of crisis while also being formally fashioned by that context This is a mode of writing that emerges in a world in crisis but which is also in some ways in crisis itself With chapters on remoteness exclusivity abundance and rarity this book marks a turning point in how literary criticism engages with nature writing Gaither's Dictionary of Scientific Quotations Carl C.
