Raymond Williams's Sociology Of Culture A Critical Reconstruction:

Raymond Williams's Sociology of Culture P. Jones, 2003-12-19 This detailed study of Williams unlocks his late sociology of culture. It covers previously overlooked aspects such as his critique of Birmingham cultural studies, his use of an Adorno-like approach to cultural production, his social formalist alternative to structuralism and post-structuralism, and his approach to the media.

Raymond Williams at 100 Paul Stasi, 2021-04-07 Raymond Williams was by common consent one of the two most commanding intellectual figures in the New Left that emerged in Britain at the turn of the sixties, the other being Edward Thompson. Williams published in 1961 a text entitled *The Future of Marxism*. In that essay Williams has some remarkable things to say about imperialism, the successes of actually existing socialism balanced against its failures, and the continued relevance of socialism as the horizon of human liberation. He also makes a characteristic methodological point: the relation between systems of thought and actual history is both complex and surprising. The future of Marxism, that is to say, will not depend on dogma but will instead rest on historical developments on how well we are able to actualize Marx's ideals in our own unique conjuncture. This volume takes up the challenge of reading and extending Williams's thought in light of the actual history that has occurred since his passing but with the same ideal of socialism as its guiding horizon. If there is one thread visible throughout all of Williams's work, it is the felt presence of a living, thinking individual, of a person continually testing ideas in experience in order to see whether they fit the world they are meant to describe. The aim of this volume, timed to coincide with what would have been Williams's 100th birthday, is to test his ideas in our own experience and to engage Williams's work in ways that move past the familiar terrain that has grown around it. We now know that experience is a dangerous category that community can be hijacked by the right as much as the left, and that tradition contains as much conflict as commonality. Those committed to Williams's work can easily find textual arguments or developments across his career to answer these charges, and they have. What our volume offers is a set of arguments by younger scholars influenced by Williams's writings that moves past some of these debates, extending Williams's work into the 21st century, testing and weighing his ideas in light of recent developments and contemporary intellectual culture. In doing so, we treat Williams's thought as one of those resources of hope which he famously suggested would sustain us. At a time of deepening inequality and austerity, and growing rightward reaction, and yet simultaneously and with seeming dialectical necessity, a renewed investment in socialism: Williams might be exactly the kind of figure we need.

Into the Melée Francis Mulhern,2024-06-04 Into the Mle probes the mercurial relationship between culture and politics through versatile critical writing on Conrad Orwell Sartre Raymond Williams and Roberto Schwarz among others The mle that Romain Rolland wrote to deplore was the

Great War of 1914 The phrase gained general currency as a call to cultural service beyond the pressures of everyday political and social strife a vocation above the fray Francis Mulhern writes in the contrary belief that there is no social location corresponding to this desire strong and appealing though it may be Into the Mle opens with questions of nationality from F R Leavis s efforts to assert an English literary subject to Tom Nairn s political vision of England and Scotland after Britain Other essays concern intellectuals and in one way or another the politics of revolution and counterrevolution from Burke to the present The book closes with a portrait of the New York magazine n 1 as heir to the militant traditions of Partisan Review In its embrace of provisionality and its magpie curiosity the essay is a mode especially well suited to the purposes of a Marxist criticism morally committed to the value of being surprised These are key texts for cultural and literary studies from the author of the critically acclaimed The Moment of Scrutiny

Critical theory and demagogic populism Paul K. Jones,2020-11-03 Populism is a powerful force today but its full scope has eluded the analytical tools of both orthodox and heterodox populism studies This book provides a valuable alternative perspective It reconstructs in detail for the first time the sociological analyses of US demagogues by members of the Frankfurt School and compares these with contemporary approaches Modern demagoguery emerges as a key under researched feature of populism since populist movements whether left or right are highly susceptible to demagogic capture The book also details the culture industry s populist contradictions including its role as an incubator of modern demagogues from the 1930s through to today s social media and Trumpian psychotechnics Featuring a previously unpublished text by Adorno on modern demagoguery as an appendix it will be of interest to researchers and students in critical theory sociology politics German studies philosophy and history of ideas as well as all those concerned about the rise of demagogic populism today

value beyond economic measures Intellectuals and Cultural Policy Jeremy Ahearne, Oliver Bennett, 2007-06-14

Intellectuals and policy analysts might appear to inhabit two different worlds Intellectuals aspire to articulate issues of universal concern policy analysts attend to the detail of specific measures and programmes How far do these common assumptions match up to reality What happens when intellectuals engage with cultural institutions and the machinery of government And how far is cultural policy connected to a history of ideas The essays brought together here attempt to answer these questions From the English Romantics to Lenin's wife from Plato to Herbert Schiller this book offers new insights into how intellectuals from Europe Canada and North America have sought over time to assert their cultural values in public life *For Humanity's Sake* Lina Steiner, 2011-11-19

For Humanity's Sake is the first study in English to trace the genealogy of the classic Russian novel from Pushkin to Tolstoy to Dostoevsky Lina Steiner demonstrates how these writers shared concern for individual and national education played a major role in forging a Russian cultural identity *For Humanity's Sake* highlights the role of the critic Apollon Grigoriev who was first to formulate the difference between Western European and Russian conceptions of national education or *Bildung* which he attributed to Russia's special sociopolitical conditions geographic breadth and cultural heterogeneity Steiner also shows how Grigoriev's cultural vision served as the catalyst for the creative explosion that produced Russia's most famous novels of the 1860s and 1870s Positing the classic Russian novel as an inheritor of the Enlightenment's key values including humanity self perfection and cross cultural communication *For Humanity's Sake* offers a unique view of Russian intellectual history and literature **Modern Criticism and Theory** Nigel

Wood, David Lodge, 2014-06-11 This third edition of *Modern Criticism and Theory* represents a major expansion on its previous incarnations with some twenty five new pieces or essays included This expansion has two principal purposes Firstly in keeping with the collection's aim to reflect contemporary preoccupations the reader has expanded forward to include such newly emergent considerations as ecocriticism and post theory Secondly with the aim of presenting as broad an account of modern theory as possible the reader expands backwards to take in exemplary pieces by formative writers and thinkers of the late nineteenth and early twentieth centuries such as Marx Freud and Virginia Woolf This radical expansion of content is prefaced by a wide ranging introduction which provides a rationale for the collection and demonstrates how connections can be made between competing theories and critical schools The purpose of the collection remains that of introducing the reader to the guiding concepts of contemporary literary and cultural debate It does so by presenting substantial extracts from seminal thinkers and surrounding them with the contextual materials necessary to a full understanding Each selection has a headnote which gives biographical details of the author and provides suggestions for further reading and footnotes that help explain difficult references The collection is ordered both historically and thematically and readers are encouraged to draw for themselves connections between essays and theories *Modern Criticism and Theory* has long been regarded as a necessary collection Now revised for the twenty first century it goes further and provides students and the general reader

with a wide ranging survey of the complex landscape of modern theory and a critical assessment of the way we think and live in the world today Modernism Beyond the Avant-Garde Jason M. Baskin, 2019 Uses the idea of embodiment to reconceptualize postwar literary history and recognize the political significance of literary modernism after 1945 **Media, Culture and Society in Malaysia** Yeoh Seng Guan, 2010-02-25 This book presents a comprehensive full length analysis of the uses of media and communication technologies by different social actors in Malaysia Drawing upon recent case studies from films to political advertising it provides valuable insights into the ways in which different media forms have negotiated with the dominant cultural representations of Malaysian society
