 Celia Rabinovitch, 2020-02-25 Shortlisted for the 2021 Vine Awards Art chess and an 87 000 pipe frame an inside look at the
 relationship between Dadaist artist Marcel Duchamp and chess Grandmaster George Koltanowski Spanning three decades
 two continents two world wars and the international art and chess scenes of the mid twentieth century Duchamp s Pipe
 explores the remarkable friendship between art world enfant terrible Marcel Duchamp and blindfold chess champion George
 Koltanowski Artist and cultural historian Celia Rabinovitch describes each man s rise to prominence the chess matches that
 sparked their relationship and the recently discovered pipe that Duchamp gave to Koltanowski This tale of genius and
 resilience offers fresh insights into the essence of the gift in the bohemian underground Rabinovitch invites us to discover the
 chess wizard and a Duchamp slightly off pedestal and ultimately more human **Architecture's Historical Turn** Jorge
 Otero-Pailos, 2013-11-30 Architecture s Historical Turn traces the hidden history of architectural phenomenology a movement
 that reflected a key turning point in the early phases of postmodernism and a legitimating source for those architects who
 first dared to confront history as an intellectual problem and not merely as a stylistic question Jorge Otero Pailos shows how
 architectural phenomenology radically transformed how architects engaged theorized and produced history In the first
 critical intellectual account of the movement Otero Pailos discusses the contributions of leading members including Jean
 Labatut Charles Moore Christian Norberg Schulz and Kenneth Frampton For architects maturing after World War II Otero
 Pailos contends architectural history was a problem rather than a given Paradoxically their awareness of modernism s
 historicity led some of them to search for an ahistorical experiential constant that might underpin all architectural expression
 They drew from phenomenology exploring the work of Bachelard Merleau Ponty Heidegger and Ricoeur which they
 translated for architectural audiences Initially the concept that experience could be a timeless architectural language
 provided a unifying intellectual basis for the stylistic pluralism that characterized postmodernism It helped give theory
 especially the theory of architectural history a new importance over practice However as Otero Pailos makes clear
 architectural phenomenologists could not accept the idea of theory as an end in itself In the mid 1980s they were caught in
 the contradictory and untenable position of having to formulate their own demotion of theory Otero Pailos reveals how

ultimately the rise of architectural phenomenology played a crucial double role in the rise of postmodernism creating the antimodern specter of a historical consciousness and offering the modern notion of essential experience as the means to defeat it Virgil Thomson Virgil Thomson,2016-10-04 Virgil Thomson was a gifted composer and one of the nation's foremost cultural critics The best selling autobiography Virgil Thomson 1966 is his gossipy telling of his own extraordinary progress from unteachable smart aleck to revered elder statesman It recounts his artistically precocious Kansas City boyhood demanding Harvard education apprenticeship in Paris between the wars and hard won musical and literary maturity in New York As narrator and protagonist Thomson fascinates not only with his own story but also with those of his associates collaborators friends and rivals among them Gertrude Stein Alice B Toklas Ezra Pound James Joyce Nadia Boulanger George Antheil Pablo Picasso Jean Cocteau Max Jacob Pare Lorentz John Houseman and Orson Welles Virgil Thomson is an authentic work of Americana and a first rate first person history of the rise of modernism Complete with 32 pages of photographs
