Hawkins-Dady, 2012-12-06 Reader's Guide Literature in English provides expert guidance to and critical analysis of the vast number of books available within the subject of English literature from Anglo Saxon times to the current American British and Commonwealth scene It is designed to help students teachers and librarians choose the most appropriate books for research and study      *Virginia Woolf's Common Reader* Katerina Koutsantoni, 2016-02-11 In the first comprehensive study of Virginia Woolf's *Common Reader* Katerina Koutsantoni draws on theorists from the fields of sociology sociolinguistics philosophy and literary criticism to investigate the thematic pattern underpinning these books with respect to the persona of the common reader Though these two volumes are the only ones that Woolf compiled herself they have seldom been considered as a whole As a result what they reveal about Woolf's position with regard to the processes of writing reading and critical analysis has not been fully examined Koutsantoni challenges the critical commonplace that equates Woolf's strategy of self effacement and personal removal from her works as a necessary compromise that allowed her to achieve authorial recognition in a male dominated context Rather Koutsantoni argues that an investigation of impersonality in Woolf's essays reveals the potential of the genre to function both as a vehicle for the subjective and dialogic expression of the author and reader and as a venue for exploring topics with which the ordinary reader can relate As she explores and challenges the meaning of impersonality in Woolf's *Common Reader* Koutsantoni shows how the related issues of subjectivity authority reader response intersubjectivity and dialogism offer useful perspectives from which to examine Woolf's work      **Reader's Guide to the Social Sciences** Jonathan Michie, 2014-02-03 This 2 volume work includes approximately 1 200 entries in A Z order critically reviewing the literature on specific topics from abortion to world systems theory In addition nine major entries cover each of the major disciplines political economy management and business human geography politics sociology

Fjellestad, David Watson, 2018-04-19 It has become a critical commonplace that postmodernism no longer serves as an adequate designation for contemporary literature But what comes after postmodernism What are the tendencies and directions within contemporary American literature that promise to shape its future The contributions to this book are written in the shadows of new media a turn towards the nonhuman in critical thinking and a surge in environmental and apocalyptic thought Engaging with such contemporary debates the authors map the rapidly changing ecosystem of contemporary literary genres and forms and attend to transformations in the production reception and circulation of books This book takes for granted that American literature does have a future although whatever this future holds it is unlikely to be what we expect At this historical juncture the American novel seems to carve its future though an engagement with issues at the forefront of our present thereby ensuring its own ongoing contemporaneity This book was originally published as a special issue of *Studia Neophilologica* **Terry Eagleton** James Smith, 2013-04-25 Terry Eagleton is one of the most

influential contemporary literary theorists and critics His diverse body of work has been crucial to developments in cultural theory and literary critical practice in modern times and for a generation of humanities students his writing has been a source of both provocation and enjoyment This book undertakes a lucid and detailed analysis of Eagleton's oeuvre It gives close attention to the full range of Eagleton's major publications examining their arguments and implications as well as how they have intervened in wider debates in cultural theory It also investigates his less familiar works such as his early writing on the Catholic left as well as other as yet unpublished material showing how these works can be understood alongside the more prominent areas of his thought Through this this book offers a cohesive overview of Eagleton's career to date tracing the development of his theoretical positions and an assessment of Eagleton's wider contributions to fields such as Marxist literary criticism and cultural theory It will be essential reading for students of literary criticism cultural theory and intellectual history Author Fictions Ingo Berensmeyer, 2023-10-04 Fictional novelists and other author characters have

been a staple of novels and stories from the early nineteenth century onwards What is it that attracts authors to representing their own kind in fiction *Author Fictions* addresses this question from a theoretical and historical perspective Narrative representations of literary authorship not only reflect the aesthetic convictions and social conditions of their actual authors or their time they also take an active part in negotiating and shaping these conditions The book unfolds the history of such author fictions in European and North American texts since the early nineteenth century as a literary history of literary authorship ranging from the Victorian bildungsroman to contemporary autofiction It combines rhetorical and sociological approaches to answer the question how literature makes authors Identifying author fictions as narratives that address the

fragile material conditions of literary creation in the actual and symbolic economies of production Ingo Berensmeyer explores how these texts elaborate and manipulate concepts and models of authorship This book will be relevant to English American and comparative literary studies and to anyone interested in the topic of literary authorship     **Winifred Holtby's Social Vision** Lisa Regan,2015-10-06 Winifred Holtby 1898 1935 is best known today for her friendship with fellow feminist and pacifist Vera Brittain and for her last novel *South Riding* This is the first monograph to provide a literary criticism of Holtby's social philosophy and presents in depth readings of all her major works as well as some of her less well known writing     A *Fragile Inheritance* Saloni Mathur,2019-10-22 Saloni Mathur investigates the radical work of two seminal figures New Delhi based critic and curator Geeta Kapur and her husband contemporary multimedia artist Vivan Sundaram to show how their approach to artistic practice and theory may inform subsequent generations and serve as a model for artistic politics in our time
