Re Drawing Boundaries Work Households And Gend Studies On China:

Re-Drawing Boundaries Barbara Entwisle, Gail Henderson, 2000-11-07 The essays in this volume explore various aspects of work in China including the nature of work gender inequalities in work gender and work in the context of migration and the reciprocal influences of households and work organization , **Transforming the Gendered Organisation of Labour and Leisure** Yuqin Huang, 2020-08-28 This book explores how the labour and leisure lives of people in contemporary rural China have been structured and transformed discussing the changing dynamics of power relations both between and within genders and in local village and family household and remote the state and market contexts It combines perspectives from sociology gender studies social history and demography to investigate the changes and continuities in the lives of women and men in Lianhe a rural village in central China examining the period from 1926 to 2013 through the lens of labour and leisure Employing methods from the field of ethnography the research focuses on the life stories of three generations including 57 women in Lianhe The book develops a double comparison analytical framework to compare the organisation of labour and leisure in the three respective generations proceeding on the one hand diachronically along the historical time that is the pre collective era collective era and reform era and synchronically along the women s life stages on the other In so doing the book links women s shifting role in changing family household forms with broader socio economic political demographic and cultural changes Moreover it employs a holistic perspective to reflect changing patterns in women s labour and leisure by disrupting the remunerated unremunerated home labour within outside household and labour leisure dichotomies and exploring the interrelations between them Based on this the book then identifies the determinants of rural women s labour and leisure and reveals the women s experiences of their changing identities particularly concerning their relationships with their parents in law sisters in law husbands and children Particularly highlighting the interdependence and inequality among women it also reveals their own perception of their identities and relationships and their understanding of husband wife fairness and gender equality Lastly it demonstrates that the prevalent androcentrism in the remote world does not match the increasing husband wife fairness in the local world and argues that this mismatch has caused the complex and paradoxical experiences and subjectivities of these women Given its scope the book is of interest to scholars students and researchers in the fields of sociology anthropology gender and development as well as a general audience looking to explore contemporary rural China Chinese Women - Living and Working Anne McLaren, 2005-08-05 Experts in gender politics media studies and anthropology discuss the impact of economic reform and globalization on Chinese women in family businesses management the professions the prostitution industry and domestic service *The Routledge Companion to Modernity, Space and Gender* Alexandra Staub, 2018-03-09 The Routledge Companion to Modernity Space and Gender reframes the discussion of modernity space and gender by examining how modernity has been defined in various cultural contexts of the twentieth and twenty first centuries how this definition has

been expressed spatially and architecturally and what effect this has had on women in their everyday lives In doing so this volume presents theories and methods for understanding space and gender as they relate to the development of cities urban space and individual building types such as housing work spaces or commercial spaces in both the creation of and resistance to social transformations and modern global capitalism The book contains a diverse range of case studies from the US Europe the UK and Asian countries such as China and India which bring together a multiplicity of approaches to a continuing and common issue and reinforces the need for alternatives to the existing theoretical canon Out to Work Arianne M.
