**Reach of Tide, Ring of History** Sam McKinney,1987-01-01 **Reach of Tide Ring of History** Sam McKinney, 2000 Aboard a handmade boat McKinney set out to rediscover the Columbia River of his youth Combining the river's storied history rich personal memories and observations gleaned from the deck of the 16 foot Gander this record of his voyage offers an intimate view of the great river and of the people who have lived and worked along its shores **Inside Passage** Richard Manning, 2000-11 This book is about an idea that rests at the junction of what we call wilderness and civilization Simply it is a call for rethinking and more importantly reconstructing our relationship with nature from Inside PassageProtecting land in parks safe from human encroachment has been a primary strategy of conservationists for the past century and a half Yet drawing lines around an area and calling it wilderness does little to solve larger environmental problems As author Richard Manning puts it in a knowingly provocative way Wilderness designation is not a victory but acknowledgement of defeat In Inside Passage Manning takes us on a thought provoking tour of the lands along the Pacific Northwest's Inside Passage from southeast Alaska down through Puget Sound and then on to the northern Oregon coast and the Columbia River system as he explores the dichotomy between wilderness and civilization and the often disastrous effects of industrialization Through vivid description and conversations with people in the region Manning brings new insights to the area s most pressing environmental concerns the salmon crisis deforestation hydroelectric dams urban sprawl and examines various innovative ways they are being addressed He details efforts to restore degraded ecosystems and to integrate economic development with environmental protection and looks at powerful new tools such as Geographic Information Systems GIS that are increasingly being used to further conservation efforts Throughout Manning focuses on the hopeful possibility that we can redesign the human enterprise to a scale more appropriate to the nature that holds it that rather than drawing borders around nature we might instead start placing borders on human behavior Perhaps he suggests we can begin to behave in all places as if all places matter to us as much as wilderness and in the process claim all of nature as our own Inside Passage is a wide ranging and thoughtful exploration by a gifted writer and an important work for anyone interested in the Pacific Northwest or concerned about the future of our relationship to the natural world Power and Place in the North American West Richard White, John M. Findlay, 2012-09-01 Western historians continue to seek new ways of understanding the particular mixture of physical territory human actions outside influences and unique expectations that has made the North American West what it is today This collection of twelve essays tackles the subject of power and place from several angles Indians and non Indians race and gender environment and economy to gain insight into major forces at work during two centuries of western history. The essays related to one another by their concern with how power is exercised in over and by western places cover a wide range of times and topics from 18th century Spanish New Mexico to 19th century British Columbia to 20th century Sun Valley and Los Angeles They encompass analyses of the concept and rhetoric of race

theoretical speculations on gender and powerlessness and insights on the causes of current environmental crises Oregon Companion Richard H. Engeman, 2009-09-01 What s the connection between Ken Kesey and Nancy s Yogurt How about the difference between a hoedad and a webfoot What became of the Pixie Kitchen and the vanished Lambert Gardens The Oregon Companion is an A Z handbook of over 1000 people places and things From Abernethy and beaver money to houseboats railroads and the Zigzag River an intrepid public historian separates fact from fiction with his sense of humor intact Entries include towns and cities counties rivers lakes and mountains people who have left a mark on Oregon industries products crops and natural resources Includes more than 160 historical black and white photos This entertaining and delightfully meticulous compendium is an essential reference for anyone curious about Oregon Finding the West James P. Ronda, 2006-02-16 Documents not only the stories that Lewis and Clark offered about their road across the continent but also the large and important stories by and about the Native peoples whose trails they followed and whose lands they described in their journals Nature Writing Don Scheese, 2013-10-28 In this comprehensive study of the genre Don Scheese traces its evolution from the pastoralism evident in the natural history observations of Aristotle and the poetry of Virgil to current American writers He documents the emergence of the modern form of nature writing as a reaction to industrialization Scheese's personal observations of natural settings sharpen the reader's understanding of the dynamics between author and locale His study is further informed by ample use of illustrations and close readings core writers such as Thoreau John Muir and Mary Austin showing how each writer s work exemplifies the pastoral tradition and celebrate a spirit of place in the Great River of the West Professor of History William L Lang, Robert Carriker, 2013-10-10 In the Pacific **United States** Northwest the river of dominance is the Columbia and in ways both profound and mundane its history is the history of the region In Great River of the West historians and anthropologists consider a range of topics about the river from Indian rock art Chinook Jargon and ethnobotany on the Columbia to literary and family history the creation of an engineered river and the inherent mythic power of place Since first contact between Euro Americans and Native peoples during the late 18th century the river's history has been characterized by dramatic demographic social and economic changes. The remarkable set of essays in Great River of the West investigate these changes by highlighting important episodes in the history of the river Readers meet mariners who challenge the Columbia River bar a family torn by insanity Native people who preserve fishing traditions and dam builders who radically change the Columbia Sailing Uphill Sam McKinney, 2000 Sam McKinney has spent many of the best parts of his life on the water sailing a dory along Canada's west coast crewing on the deck of a river steamer shipping out deep sea in freighters across the Atlantic In the middle of his life when he sold the hull of an ocean going sailboat which had absorbed two years of his love and labour he looked at his boat building shed and thought Hmm With all this lumber I could build a boat and go across the continent instead So he did In the Gander he travelled up the Columbia and Snake rivers down the Missouri up the Mississippi and Illinois and on ever eastward to New York City It took

him four summers and three Ganders one of which had to be abandoned in the mud of the upper Missouri but he made it This The Lewis and Clark Trail Fodor's.2004 is a lovely and evocative memoir by a perceptive and thoughtful writer Provides a resource for following Lewis and Clark's voyage across the United States including facts about each state crossed during the expedition and where to find facilities and recreational activities along the route Walking the Beach to Bellingham Harvey Manning, 2002 This memoir by noted writer and environmental activist Harvey Manning recounts a 150 mile walk along Puget Sound from Seattle to Bellingham An exhibitanting tale of low adventure it combines the author's experiences with memories of particular beaches over many decades and reflections on the area's natural history Oregon Northwest Passage William Dietrich, 1995 Native Americans clung to Historical Quarterly Oregon Historical Society, 2002 the Columbia as the root of their culture colonizers came in search of productive land and an efficient trade route and industrialists seeking energy transformed the region s wild beauty The Sandal & the Cave Luther S. Cressman, 2005 Luther Cressman s 1938 discovery of a 9 000 year old sandal in Fort Rock Cave revolutionized accepted theories of western prehistory The recovery of the woven sagebrush bark sandal found buried under a layer of volcanic ash from the eruption of Mount Mazama established a human presence in the Oregon Country much earlier than previously thought Through six decades of scientific investigation Cressman worked to uncover the history of the first Oregonians In The Sandal and the Cave he offers a brief lucid introduction to the prehistory of Oregon Indians Cressman describes their diverse cultures highlighting similarities and differences between the peoples of various regions the Oregon Coast the Klamath Highland the Northern Great Basin and the Columbia Plateau In a new introduction to Cressman's classic work Dennis Jenkins provides a short biographical profile of the father of Oregon archaeology and discusses the importance of Cressman's excavation results and interpretations Jenkins also offers a concise summary of recent archaeological research in the Northern Great Basin bringing readers the most up to date information about the oldest known sites in Oregon **America**, **History and Life** ,1991 Article abstracts and citations of reviews and dissertations covering the United States and Canada The American **Neptune** ,1990 A guarterly journal of maritime history Forthcoming Books Rose Arny,2000 The Unforgiving Coast David Hubert Grover, 2002 Drawing on a wide variety of sources Grover tries to explain not just what happened in each disaster but how and why it happened The stories vary considerably some are mysteries some are adventure thrillers and Beach of Heaven Irene Martin, 1997 Beach of Heaven is a history of the earliest some defy categorization Book jacket settled areas in Washington Birthplace of the state s canned salmon industry and cooperative extension movement Wahkiakum County has a historic significance extending beyond its borders Today it stands at the cusp of change as the rural occupations of fishing farming and logging upon which the county has depended suffer from outside influences and demographic shifts **The Prairie Keepers** Marcy Cottrell Houle, 2007 In the remote northeast corner of Oregon lies the ruggedly beautiful Zumwalt Prairie A wild expanse of untilled ground covering nearly two hundred square miles the Zumwalt

is almost entirely managed by cattle ranchers It also is home to one of the highest concentrations of hawks in North America including red tailed ferruginous and Swainson's hawks Strong and beautiful these buteo hawks usually depend on uncultivated unpeopled prairies Marcy Houle a wildlife biologist and student first went to the Zumwalt in 1979 to discover what attracts and sustains the buteos there in such startling abundance Houle explores the vast prairie on foot and horseback and by truck cataloging its hawks studying its complex ecosystem and meeting its people Fueled by her youth her spirit her humor and in part by hernaivet she bands birds outruns a bull climbs into nests and pullstogether the fac tious community of ranchers towns people andgovernment employees Her findings eloquently reported show that ranchers and grazing and wildlife not only can coexist but in some instances must coexist if we are to save the last of the native prairies In an epilogue to this new edition Houle returns to the Zumwalt to look at how the prairie is faring two decades later The American West is undergoing tremendous change and a historic way of life is fighting for survival But Houle finds reason for hope in the Zumwalt in the hawks and ranchers that are still there and also in creative new partnerships For example the Nature Conservancy bought 42 square miles of the grassland in 2000 with a plan to encourage sustainable cattle grazing and let ranchers play a role in the stewardship of the land This and other strategies are important to explore Houle reminds us if the ranchers and wildlife of the Zumwalt are to persist and the prairie to endure
