Reaching For Heaven On Earth:

Voices Ron Carter, 2024-10-28 *Voices* is a literary collection of poetry and short stories written by Ronald Carter involving some of the unique experiences and observations of Ronald's life and lives of those around him. In his writings of this book, he has changed the names of his characters and some locations. It must be understood that the events are based on some of the history of his life. There are good times and some bad times expressed in both his poetry and short stories. There are also morals and lessons to be learned from both the stories and poetry. *The Original I Ching Oracle*, 2007 This remarkable work is the final result of 50 years of I Ching research and over 10 years of roundtables and seminars. Based on a revolutionary translation method and inspired by Carl Jung's insights into the psyche, *The Original I Ching Oracle* offers Western readers the closest possible approach to the true content of the ancient Chinese oracle. By cutting through layers of philosophical analysis and recovering the original images of the I Ching, it puts readers in contact with a deep universal dimension of the human psyche as important today as it was for the shamans in China over 3,000 years ago. *The Original I Ching Oracle or The Book of Changes* Rudolf Ritsema, Shantena Augusto Sabbadini, 2018-05-15 Often referred to as the Eranos edition, this revised and updated translation offers the most substantial advance in I Ching since Richard Wilhelm introduced the oracle to the West in the 1920s. The I Ching is one of the oldest Chinese texts and the world's oldest oracle. Accumulated from over 2,500 years of diviners, sages, and shamans and born out of the oral tradition, the I Ching as we know it today is a collection of texts, imagery, and advice, philosophy, and poetry divided into 64 chapters. There are 64 hexagrams created from a collection of six lines, either broken or solid. In order to read from the book, you must cast a hexagram. The traditional method required yarrow sticks, but nowadays is based on tossing three coins six times. *The Original I Ching Oracle or Book of Changes* was inspired by Carl Gustav Jung's insights into the psyche and researched for more than 60 years through the Eranos Foundation of Switzerland. It presents the oracular core of the I Ching as a psychological tool; the symbols interact with our minds in the same way dream images do. **Genesis 1-11** Ronald Hendel, 2024-09-03 The first volume of a groundbreaking two-part commentary on the book of Genesis by leading biblical scholar Ronald Hendel. The first eleven chapters of Genesis narrate the origin of the universe, the creation of the first human beings, the beginnings of moral reasoning, society, and culture, and the cataclysmic global flood. By showing how life and civilization came into being, *Genesis 1-11* offers a richly drawn map for understanding the world as a meaningful cosmos and an ethical guide for human purpose and responsibility within it. The culmination of over thirty years of research, this long-awaited study by leading Genesis scholar Ronald Hendel is the first comprehensive scholarly commentary on *Genesis 1-11* in a generation. Drawing on archaeological discoveries from Israel and the ancient Near East, as well as contemporary methods of scholarship, it presents a multilayered view of the classic text. The extensive introduction, notes, and comments explore ancient textual versions and editions, historical contexts, literary style, and design, compositional history, cosmology, ethics, and the book's interpretive life in

New-Church Messenger, 1909 [A Jesuit Garden in Beijing and Early Modern Chinese Culture](#) Hui Zou, 2011-02-01. In this volume Hui Zou analyzes historical, architectural, visual, literary, and philosophical perspectives on the Western-styled garden that formed part of the great Yuanming Yuan complex in Beijing constructed during the Qing dynasty. Designed and built in the late eighteenth century by Italian and French Jesuits, the garden described in this book was a wonderland of multistoried buildings, fountains, labyrinths, and geometrical hills. It even included an open-air theater. Through detailed examination of historical literature and representations, Zou analyzes the ways in which the Jesuits accommodated their design within the Chinese cultural context. He shows how an especially important element of their approach was the application of a linear perspective, the line method, to create the *jing*, the Chinese concept of the bounded, bright view of a garden scene. Hui Zou's book demonstrates how Jesuit metaphysics fused with Chinese cosmology and broadens our understanding of cultural and religious encounters in early Chinese modernity. It presents an intriguing reflection on the interaction between Western metaphysics and the poetical tradition of Chinese culture. The volume will be of interest to scholars and students in a variety of fields including literature, philosophy, architecture, landscape, and urban studies, and East-West comparative cultural studies.

Between the Moon and Earth Jay Alfred, 2007-01-18 Are heavens and hells parallel realities in a multiverse What has plasma got to do with it Since the dawn of history various cultures have imagined heaven and the abode of gods to be literally located in some part of the sky and hell in the interior of the Earth From a modern scientific perspective these were the earliest concepts of parallel universes and the idea of a multiverse which is a serious area of research in cutting edge physics today This book presents a model supported by scientific evidence which can shed more light on the intuitive traditional view It appears that after the death of the ordinary matter body a plasma counterpart of that body will indeed find itself in an invisible higher energy plasmasphere which interpenetrates and co rotates with the familiar visible form of planet Earth Depending on their composition these plasma bodies will gravitate or levitate into particular shells that host their own communities in the relevant plasmasphere consistent with established scientific laws in plasma dynamics The higher shells coincide with the visible atmosphere and beyond The lower shells coincide mainly with the crust and upper mantle of the ordinary matter Earth This book takes a detailed look at the habitats of these human linked plasma life forms It is a companion volume to the author's book *Our Invisible Bodies* which focuses mainly on the nature of the bodies of these plasma life forms
