Many of the essays in the Reader have previously been difficult to obtain and many have appeared in contexts where their relevance for communications media and cultural studies was not immediately apparent. The Spectralities Reader Maria del Pilar Blanco, Esther Peeren, 2013-08-29
 The Spectralities Reader is the first volume to collect the rich scholarship produced in the wake of the spectral turn of the early 1990s which saw ghosts and haunting conjured as compelling analytical and methodological tools across the humanities and social sciences. Surveying the past twenty years from an interdisciplinary and cross-cultural perspective, the Reader displays the wide range of concerns. Spectrality in its diverse elaborations has been called upon to elucidate the disjunctions produced by globalization, the ungraspable quality of modern media, the convolutions of subject formation in terms of gender, race, and sexuality, the elusiveness of spaces and places, and the lingering presences and absences of memory and history. All have been reconceived by way of the spectral. A primer for the wide readership engaged with cultural interpretations of ghosts and haunting that go beyond the confines of the fictional and supernatural, the Spectralities Reader includes twenty-five groundbreaking texts by prominent contemporary thinkers from Jacques Derrida and Gayatri Spivak to Avery Gordon and Arjun Appadurai, as well as a general introduction and six section introductions by the editors.

Marx and We Sun Zhengyu, 2024-08-01
 Marxist ideology is the only fully scientific ideology, the only one able to guide mankind toward the settlement of fundamental social problems and to point out the royal road for the proletariat to take in its march toward socialism and communism. Without Marxism, modern people cannot establish true social ideals nor can they engage in the rational pursuit of values. Without Marxism, modern people cannot choose the correct path of development nor can they build up new forms of civilizations. Without Marxism, modern people would never base their commitments to schedule the consensus-building effort and support the consensus-building process on any irrefutably and sufficiently sound theoretical foundations.

Dynamics of Social Change, 1970 **The Norman Geras Reader** Ben Cohen, Eve Garrard, 2017-07-21
 This is the first book to gather the key writings of the distinguished political theorist Norman Geras into a single volume, providing a comprehensive overview of the thinking of one of the most important Marxist philosophers in the post-war era. Among the essays included here are 'The Controversy about Marx and Justice', 'The Duty to Bring Aid', Primo Levi and Jean Améry, 'Shame and the Contentious Euston Manifesto', which lays down a set of central principles for the democratic left in the twenty-first century. The reader is rounded out with several posts from Geras's much-loved and widely-read Normblog, as well as companion essays by Alan Johnson and Terry Glavin, which explore how Geras's philosophical concerns led to his more recent trenchant critiques of the direction of left-wing politics.
