In fact the chapters illustrate how eighteenth century writers gesture towards solutions to problems that urban citizens now face in terms of urban terror crime policing and communal conduct

**Modern Print Artefacts** Patrick Collier, 2016-09-20 This study focuses on the close connections between literary value and the materiality of popular print artefacts in Britain from 1890-1930 The book demonstrates that the materiality of print objects paper quality typography spatial layout use of illustrations etc became uniquely visible and significant in these years as a result of a widely perceived crisis in literary valuation In a set of case studies it analyses the relations between literary value meaning and textual materiality in print artefacts such as newspapers magazines and book genres artefacts that gave form to both literary works and the journalistic content critical essays book reviews celebrity profiles and advertising through which conflicting conceptions of literature took shape In the process it corrects two available misperceptions about reading in the period that books were the default mode of reading and that experimental modernism was the sole literary aesthetic that could usefully represent modern life

**Fictional Styles of George Orwell** Arun Joshi, 2004 It is the growing relevance of the political thought and vision of George Orwell in the 21st century when the world is at eternal war with itself in the name of war on terrorism that prompted the idea of getting this book published The title Fictional Styles of George Orwell may well be understood as to how the author wrote in his times in the first half of the twentieth century But it attempts to encompass a greater concept How Orwell used different techniques to demonstrate through his writings that the world was heading toward a planet inhabited by the people deprived of the human values and becoming robots under the complete control of their masters Though his target was the Soviet society and the colonial powers but as the times have shown that even the democracies be that India boasting of being the largest democracy in the world or the United States of America where individual freedoms are sought to be curtailed in the garb of patriotism have come to follow the same totalitarian attitude The distinction between democracies and dictatorships has collapsed In our times the records are being fudged past is being distorted and falsehood is being touted as truth These ideas of suppression of the freedom of the individual thinking and how unrelenting mad race for money and status is corrupting and polluting society have been effectively brought out by George Orwell in his fictional works This book deals with his literary tools to enrich the fiction It reveals that how sometimes small things like paper weight in
