

The background of the entire image is a landscape photograph. The top half shows a sky with dark, textured clouds. A single dark bird is captured in flight, positioned between the letters 'i' and 't' of the word 'Spiritual'. Below the clouds is a thin, bright horizontal band of light, likely the setting or rising sun. The bottom half of the image shows a dark, silhouetted horizon line with some faint structures, possibly a city skyline or industrial area, under a hazy, orange-tinted sky.

Readiness for Religion Ronald Goldman,1967 Routledge Library Editions: Education and Religion Various,2021-07-14
The 10 volumes in this set originally published between 1965 and 1994 draw together research by leading academics in the area of religious education and provides a rigorous examination of related key issues The volumes examine the teaching of world faiths in schools religious education in both primary and secondary schools and the teaching of morality This set will be of particular interest to students of Education and Religious Studies **What is the Bible?** Ronald J. Goldman,Constance M. Parker,Eric C. Rolls,1970 **Good Practice In Primary Religious Education 4-11** Derek Bastide,2017-12-22 Intended for the use of primary head teachers class teachers and teachers in training this book examines the requirements of the 1988 Education Reform Act in respect of religious education in schools It offers guidance on ways in which religious education can be developed successfully Youth in Europe: An international empirical study about the impact of religion on life orientation Hans-Georg Ziebertz,William K. Kay,2005 This book draws upon empirical data collected from 10 000 adolescent young people in 10 European countries The first volume of this project was about young people s life perspectives and the second about their religious attitudes and practices The current and final volume of this cross cultural study connects both research dimensions The analyses make clear that the influence of religion on values life orientation and politics differs strongly between different groups within Christianity and between Christians Jews and Muslims Many findings contain obvious surprises because they refute mainstream opinion on many topics The book gives detailed and new insights in the public relevance of the religiosity of young people across Europe All three volumes together are indispensable for scholars who work in public religious and educational contexts **Learning to Give** Ken Russell,Joan Tooke,2016-05-04
Learning to Give as Part of Religious Education attempts to answer the question what is actually to go on in a lesson about life or reality It takes as its starting point a sure ground of adolescent concern the compassion for human suffering which is normally awakened and keenly felt in the middle teens It then proceeds to inform this compassion it explores the depth and shape of the need it amasses the facts of the situation it illustrates the human meaning of it with quotation from biography and poetry and personal documents it describes the efforts made in active compassion to relieve the need and it makes suggestions of ways in which the young can share in the work of relief Finally it marches on to biblical and other statements about the human situation that set these specific agonizing points of suffering against the vast problem of evil viewed in the light of a belief in a God who cares thus lifting the human adventure from its sublunar situation on to a cosmic level

Orthodox Revivalism in Russia Milena Benovska, 2020-10-12 Orthodoxy has achieved a large scale revival in Russia following the collapse of Communism However paradoxically although there is a high level of identification with Orthodoxy there is in fact a low level of church attendance This book based on in depth ethnographic fieldwork explores the social background and moral attitudes of the little flock of believers who actively participate in religious life It reveals that the complex moral beliefs of the faithful have a disproportionately high impact on Russian society overall that among the faithful there is a strong emphasis on striving for personal perfection but that also there are strong collective ideas concerning religious nationalism and the synergy between the secular and the religious

Education about Religions and Worldviews Anna Halafoff, Elisabeth Arweck, Donald Boisvert, 2018-02-02 This volume presents the findings of a number of empirical and theoretical studies on education about religions and worldviews ERW conducted in the Western societies of Britain Ireland Canada Norway Finland New Zealand Australia and Canada Educational programmes about diverse religions and worldviews began to be investigated and implemented as strategies to encourage interreligious understanding and social cohesion particularly following the 2005 London bombings when a fear of youth radicalisation and home grown terrorism became prevalent In addition as a growing number of people in Western societies and young people especially declare themselves to have no religious affiliation state actors are currently grappling with the reality that we are living in increasingly multifaith and non religious societies and government education systems have become places of contestation as a result of these changes This volume examines ERW research and policies in a number of diverse places in the hope of identifying common themes overlapping insights and best practices that can inform research and policy for religious literacy and interreligious understanding in other contexts This book was originally published as a special issue of the Journal of Intercultural Studies

The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is a brilliant and gripping novel that will keep you guessing until the very end. The novel is a warning tale about the dangers of obsession and the power of evil.
