Reading After Freud Essays On Goethe Holderlin Habermas Nietzsche Brecht Celan And Freud:

Reading After Freud Rainer Nägele, 1987 *Discourse, Desire, and Fantasy in Jurgen Habermas' Critical Theory*

Kenneth MacKendrick, 2008-03-25 This book argues that Jürgen Habermas' critical theory can be productively developed by incorporating a wider understanding of fantasy and imagination as part of its conception of communicative rationality and communicative pathologies. Given that meaning is generated both linguistically and performatively, MacKendrick argues that desire and fantasy must be taken into consideration as constitutive aspects of intersubjective relations. His aim is to show that Habermasian social theory might plausibly renew its increasingly severed ties with the early critical theory of the Frankfurt School by taking account of these features of practice life, thus simultaneously rekindling the relevance of the nearly forgotten emancipatory intent in his earlier work and rejuvenating an emphasis on the contemporary critique of reason. This innovative new study will be of interest to those focusing on the early writings of Habermas, the writings of the Frankfurt School, and the relation between critical theory, hermeneutics, and psychoanalysis. **Holderlin's Philosophy of Nature**

Tobias Rochelle Tobias, 2020-05-28 In our age of climate change, the work of the decidedly philosophical poet Friedrich Hölderlin has gained renewed urgency with its emphasis on the forces of nature that produce life and at the same time threaten to devour it. At the heart of his work lies an understanding of nature and the role that consciousness plays within it. This responds to but also revises the concerns of 18th and 19th century philosophy of nature. This collection of 15 essays by distinguished international scholars reconsiders what his work reveals about the impulses toward form and formlessness in nature and the role that poetry plays in creating Hölderlin's harmonious opposition. The collection shows that Hölderlin anticipates many of the concerns that motivate contemporary environmental thinking. Hölderlin and the Poetry of Tragedy Jeremy Tambling, 2014-01-01 Hölderlin (1770-1843) is the magnificent writer whom Nietzsche called my favourite poet. His writings and poetry have been formative throughout the twentieth century and as influential as those of Hegel, his friend. At the same time, his madness has made his poetry infinitely complex as it engages with tragedy and irreconcilable breakdown, both political and personal, with anger and with mourning. This study gives a detailed approach to Hölderlin's writings on Greek tragedy, especially Sophocles, whom he translated into German, and gives close attention to his poetry, which is never far from an engagement with tragedy. Hölderlin's writings always fascinate, enable a consideration of the various meanings of tragedy, and provide a new reading of Shakespeare, particularly Julius Caesar, Hamlet, and Macbeth. The work proceeds by opening into discussion of Nietzsche, especially *The Birth of Tragedy*. Since Hölderlin was such a decisive figure for Modernism, to say nothing of modern Germany, he matters intensely to such differing theorists and philosophers as Walter Benjamin, Theodor Adorno, Martin Heidegger, Maurice Blanchot, and Jacques Derrida, all of whose views are discussed herein. Drawing upon the insights of Hegelian philosophy and psychoanalysis, this book gives the English-speaking reader ready access to a magnificent body of poetry and to the poet as a theorist of tragedy and of madness. Hölderlin's poetry is

quoted freely with translations and commentary provided This book is the first major account of Hölderlin in English to offer the student and general reader a critical account of a vital body of work which matters to any study of poetry and to all who are interested in poetry's relationships to madness It is essential reading in the understanding of how tragedy pervades literature and politics and how tragedy has been regarded and written about from Hegel to Walter Benjamin Readings in the Theory of Religion Scott S. Elliott, Matthew Waggoner, 2016-06-16 Readings in the Theory of Religion brings together classic and contemporary texts to promote new ways of thinking about religion The texts reflect the diverse methods used in the study of religion text and textuality ritual the body gender and sexuality religion and race religion and colonialism and methodological and theoretical issues in the study of religion Readings in the Theory of Religion is an indispensable introduction to theoretical and interdisciplinary approaches in religious studies and provides the student with all the tools needed to understand this fascinating and wide ranging field **Before the Voice of Reason** David Michael Kleinberg-Levin, 2008-09-02 Before the Voice of Reason is a phenomenological critique of reason grounded in our experience of the voices that already address us and summon us prior to the emergence of the voice of reason In part one David Michael Kleinberg Levin explores the voices of nature and draws on Merleau-Ponty's phenomenology to offer a new way of thinking about environmental responsibility In part two he looks at the voice of the moral law and the voices of other human beings advances a more nuanced account of Levinas's distinction between Saying and Said and proposes a new argument for our responsibility to the other **Encyclopedia of Literature and Criticism** Martin Coyle, Peter Garside, Malcolm Kelsall, John Peck, 2002-09-11 Contains essays by approximately ninety scholars and critics in which they investigate various aspects of English literary eras genres and works and includes bibliographies and suggestions for further reading After Oedipus Julia Reinhard Lupton, Kenneth Reinhard, 1993 Exploring the dialogue between psychoanalytic and literary discourses the authors examine the models of plot character and ways of reading which each of these discourses has developed in interpreting Shakespeare Since Freud's writings on Oedipus and Hamlet Shakespearean tragedy has been paradigmatic for psychoanalytic theory and criticism In this ambitious and highly imaginative book the authors trace the dialogue between psychoanalytic and literary discourses by examining the models of plot character and ways of reading which each tradition has developed through its interpretation of Shakespeare Postmodern Brecht Elizabeth Wright, 2016-08-19 In this radical and deliberately controversial re-reading of Brecht first published in 1989 Elizabeth Wright takes a new view of the playwright giving us a more Brechtian reading than so far achieved and making his work historically relevant here and now The author discusses in detail Brecht's principle theories and concepts in the light of poststructuralist theory and reassesses the aesthetics and politics with regard to Marxist critics of his own day Wright includes a re-reading of Brecht's early works which presents them in relation to a postmodern theatre and gives critical analyses of the work of Pina Bausch Robert Wilson and Heiner Müller who use the techniques of performance theatre showing how they deconstruct Brecht's distinction

between illusion and reality and point to a postmodern understanding of their dialectical relation Goethe Yearbook 9 Thomas Saine, 1999-05 The latest volume in the respected series this issue as usual contains cutting edge criticism on topics of interest to scholars of the period 1770 1832 The Goethe Yearbook first published in 1982 is a publication of the Goethe Society of North America and is dedicated to Goethe scholarship in North America It aims above all to encourage and publish original English language contributions to the understanding of Goethe and the Goethezeit while also welcoming contributions from scholars around the world Volume 9 of the Goethe Yearbook provides cutting edge literary criticism on works by Goethe and his contemporaries Editor Thomas Saine has demonstrated in this respected series that he is especially interested in new critical directions and solid research The book review section is important for all scholars of 18th century literature Brecht-Jahrbuch Theodore F. legal system into literature ranging from attempts to save literature from the tidal wave of Schund pulp fiction in the early twentieth century to audiences suing theaters over the improper production of classics in the twenty first The long list of instances where German literature cites law or where German law serves literature as a precedent signal the dream of German culture of a unity of interests and objectives between spheres of activity Yet the very vitality of this dream stems from real historical and social processes that increasingly autonomize and separate these domains from each other Beebee examines the history of this dialectical tension through close readings of numerous cases in the modern era ranging from Grimm to Schmitt

Theaters of Justice Yasco Horsman, 2011 Theaters of Justice is an important and highly readable in depth study of post war legal and literary events that continue to exert their influence on the contemporary understanding of justice and historical truth Ulrich Baer New York University

Paul Celan's Encounters with Surrealism Charlotte Ryland, 2017-12-02 Paul Celan 1920 1970 one of the most important and challenging poets in post war Europe was also a prolific and highly idiosyncratic translator His post Holocaust writing is inextricably linked to the specific experiences that have shaped contemporary European and American identity and at the same time has its roots in literary philosophical and scientific traditions that range across continents and centuries surrealism being a key example Celan's early works emerge from a fruitful period for surrealism and they bear the marks of that style not least because of the deep affinity he felt with the need to extend the boundaries of expression In this comparative and intertextual study Charlotte Ryland shows that this interaction continued throughout Celan's lifetime largely through translation of French surrealist poems and that Celan's great oeuvre can thus be understood fully only in the light of its interaction with surrealist texts and artworks which finally gives rise to a wholly new poetics of translation Charlotte Ryland is Lecturer in German at St Hugh's College and The Queen's College Oxford

The Discourse of Nature in the Poetry of Paul Celan Rochelle Tobias, 2006-06-30 Paul Celan has long been regarded as the most important European poet after 1945 but also the most difficult owing to the numerous references in his work to his personal history and to a cultural heritage spanning many disciplines centuries and languages In this insightful study Rochelle Tobias goes a long way to dispelling the obscurity that has surrounded the poet and his work She shows that the enigmatic images in his poetry have a common source They are drawn from the disciplines of geology astrology and physiology or what could be called the sciences of the earth the heavens and the human being Celan's poetry borrows from each of these disciplines to create a poetic universe a universe that attests to what is no longer and projects what is not yet This is the unnatural world of Celan's poetry It is a world in which time itself takes physical form or is made plastic Through a series of close readings and philosophical explorations Tobias reflects on the experience of time encoded and embodied in Celan's work She demonstrates that the physical world in his poetry ultimately serves as a showcase for time which is the most elusive aspect of human experience because it is based nowhere but in the mind Tobias's probing interpretations present a new model for understanding Celan's work from the early elegiac poems to the later cryptic texts

An interdisciplinary project the study combines readings of Celan's poetry with discussions of ancient and modern science mystical cosmology and twentieth century literature and thought Tobias's original approach to Celan illuminates his complex verse and contributes significantly to the theory of metaphor as it applies to modern verse **Rethinking the Frankfurt School** Jeffrey T. Nealon, Caren Irr, 2012-02-01 A reexamination of key Frankfurt School thinkers Benjamin Adorno Horkheimer Marcuse in the light of contemporary theory and cultural studies across the disciplines Rethinking the Frankfurt School asks what consequences such a rethinking might have for study of the Frankfurt School on its own terms Ironically contemporary theorists find themselves turning back toward the Frankfurt School precisely for the reasons it was once scorned for a notion of subjects whose desires are less liberated and multiplied than they are produced and regulated by a far reaching very nearly totalizing global culture industry Indeed as new questions concerning globalization and economic redistribution emerge while analyses of identity politics and subjective transgression become less central to contemporary theory and cultural studies the future of the Frankfurt School looks as promising and productive as its past has proven to be

New Directions in Literature and Medicine Studies Stephanie M. Hilger, 2017-11-11 This book is situated in the field of medical humanities and the articles continue the dialogue between the disciplines of literature and medicine that was initiated in the 1970s and has continued with ebbs and flows since then Recently the need to renew that interdisciplinary dialogue between these two fields which are both concerned with the human condition has resurfaced in the face of institutional challenges such as shrinking resources and the disappearance of many spaces devoted to the exchange of ideas between humanists and scientists This volume presents cutting edge research by scholars keen on not only maintaining but also enlivening that dialogue They come from a variety of cultural academic and disciplinary backgrounds and their essays are organized in four thematic clusters pedagogy the mind body connection alterity and medical practice *God - Beyond Me* Cia Van Woezik, 2010 Drawing on the connection of the I to an absolute ground in the metaphysics of Schelling and the poetry of Holderlin this book offers a contemporary model of God as both unitary and personal ground of self conscious I hood
