### Framework for Guided Reading

The framework for a guided-reading lesson can be used as scaffold for teacher's role to ensure that the essential elements are implemented and integrated throughout instruction. Excerpts from a guided-reading lesson (Fountas & Pinnell, 2000) are illustrated within the framework to demonstrate how each component is addressed within the context of the lesson (Table III).

### SUMMARY

According to the National Research Council (NRC) (2002), one in five children is estimated to have difficulty learning to read in school; other researchers estimate that as many as 45% of our children are having difficulty learning to read (National Institute of Child Health and Human Development [NICHD], 1999). The NRC report asserts that reading problems are more likely to occur among children who are poor, are minorities, attend urban schools, or arrive at school not speaking English (Neuro et al., 1999). The National Reading Panel (2000) argued that balanced approaches are preferable when teaching children to read, based on their review of scientific research-based reading instructional practices used by teachers in classrooms across the country. Additionally, guided reading practices as part of a balanced literacy program conform to the recommendations on literacy as suggested in position statements by the International Reading Association/The National Association for the Education of Young Children (1998), and the National Council of Teachers of English (2002).

Guided reading provides the necessary opportunity for teachers to explicitly teach reading strategies at the students' individual levels. Guided reading reinforces problem-solving, comprehension, and decoding. And, it provides opportunities for establishing good reading habits and strategies. The critical element, however, is the skilled teaching that helps young readers learn the effective strategies they need to become independent.
