Reading Strategies: Making Connections

Making Connections

Good readers relate what they read to other experiences and knowledge.

There are three types of connections:

- Text-to-Self -- connections between the text and the reader's life and experiences
- Text-to-Text -- connections between the text and other books, movies, songs, articles
- Text-to-World -- connections between the text and events in the real world and history

Directions: Record the connection you made while reading. Be sure to include the page or paragraph number.

Types of Connections	Connections I made
<p>Text-to-Self </p> <p>This reminds me of when I ...</p> <p>I can connect to the book because ...</p> <p>I connected to this when ...</p>	
<p>Text-to-Text </p> <p>This reminds me of another book I read because ...</p> <p>This part makes me think of ...</p> <p>This is similar to ...</p>	
<p>Text-to-World </p> <p>This makes me think about ...</p> <p>This part makes me remember ...</p> <p>This is like ...</p>

Handbook of Research on Reconceptualizing Preservice Teacher Preparation in Literacy Education Araujo, Juan J.,Araujo, Dawn L.,2021-12-17 As it stands there is currently a void in education literature in how to best prepare preservice teachers to meet the needs of individualized learners across multiple learning platforms social economical contexts language variety and special education needs The subject is in dire need of support for the ongoing improvement of administrative clinical diagnostic and instructional practices related to the learning process The Handbook of Research on Reconceptualizing Preservice Teacher Preparation in Literacy Education stimulates the professional development of preservice and inservice literacy educators and researchers This book also promotes the excellence in preservice and inservice literacy both nationally and internationally Discussing topics such as virtual classrooms critical literacy and teacher preparation this book serves as an ideal resource for tenure track faculty in literacy education clinical faculty field supervisors who work with preservice teacher educators community college faculty university faculty who are in the midst of reconceptualizing undergraduate teacher education curriculum mentor teachers working with preservice teachers district personnel researchers students and curricula developers who wish to understand the needs of preservice teacher education **Leveled Reading, Leveled Lives** Timothy Shanahan,2025-07-28 An engaging and evidence based examination of how reading instruction has been misinterpreted and misapplied for decades and how to right the course to improve reading skills for all students In Leveled Reading Leveled Lives leading literacy expert Timothy Shanahan curates a lively tour of the history of reading instruction in the United States arguing that the most popular reading instruction method is failing students and suppressing their literacy achievement He breaks down the reasons why teachers and researchers alike have favored this accepted wisdom known as instructional level theory in US schools over the past five decades and presents a compelling case for a new way forward that will bolster students reading skills Today it s not uncommon to find students in a fourth grade classroom reading books suitable for third second or even first graders Teachers suggest books to students at their deemed instructional levels but how these instructional levels are determined is suspect With a comprehensive critical analysis of instructional level pedagogy Shanahan exposes its shaky foundations and shows how faulty research findings have become so entrenched He gathers an extensive body of research studies that overwhelmingly contradict the instructional level theory and offers an

evidence based consideration of how educators must instead use grade level reading to bring about maximum learning gains This seminal book concludes with practical advice for implementing grade level reading instruction including detailed descriptions of the types of instruction and scaffolding needed to increase students reading achievement from teaching decoding and challenging texts to scaffolding reading to maintaining motivation Shanahan asserts that a better approach can ensure that all students have an opportunity to leave high school with reading abilities commensurate with their personal social civic and economic goals *RTI: The Classroom Connection for Literacy* Karen A. Kemp, Mary Ann Eaton, 2008 To assist teachers in implementing Response To Intervention RTI this book will link instructional techniques to assessment ensuring that data truly informs instruction This comprehensive resource will provide research based interventions for each of the five components of reading identified by the National Reading Panel as well as the important issue of motivation Thought provoking questions about student learning will guide the teacher to the appropriate intervention while step by step procedures for implementation of each technique along with measures to monitor students progress are what makes this book a must have for every classroom Reproducible forms allow for easy management and data collection **Connecting Brain Research with Effective Teaching** Mariale Melanson Hardiman, 2003 Offers educators practical use of recent brain research through the Brain Targeted Teaching model an instructional framework that guides teachers in the planning implementation and assessment of a program of instruction Teaching for Deep Comprehension Linda J.
