Kiyosawa Kiyoshi, 2018-06-05 **A Diary of Darkness** is one of the most important and compelling documents of wartime Japan Between 1942 and 1945 the liberal journalist Kiyosawa Kiyoshi 1890-1945 kept at great personal risk a diary of his often subversive social and political observations and his personal struggles The diary caused a sensation when it was published in Japan in 1948 and is today regarded as a classic This is the first time it has appeared in English Kiyosawa was an American educated commentator on politics and foreign affairs who became increasingly isolated in Japan as militant nationalists rose to power He began the diary as notes for a history of the war but it soon became an inadvertent autobiography and a refuge for the bitter criticism of Japanese authoritarianism that he had to repress publicly It chronicles growing bureaucratic control over everything from the press to people's clothing Kiyosawa pours scorn on such leaders as Premiers Tojo and Koiso He laments the rise of hysterical propaganda and relates his own and his friends struggles to avoid arrest He writes in gripping detail about increasing poverty crime and disorder He records the sentiments of the local barber as faithfully as those of senior politicians And all the while he traces the gradual disintegration of Japan's war effort and the looming certainty of defeat **A Diary of Darkness** is a perceptive and courageous account of wartime Japan and a revealing record of the

devastation wrought by total war **Forthcoming Books** Rose Army,1996-06 **Criminal Investigation - A Practical Handbook for Magistrates, Police Officers, and Lawyers** Hans Gross,2020-04-11 The aim of this book is to be as practical as possible It is not a law book though we confidently hope that it will be of the greatest interest to lawyers It is not a work on medical jurisprudence though we trust that medical men will find it useful and suggestive It is a Manual of Instruction for all engaged in investigating crime The book following the author s arrangement has been divided into four parts Part I is designed in the first place to enunciate those general principles and qualities the lack or neglect of which proclaim an investigator unfitted for the sphere in life in which it is his misfortune to be placed and in the second place to inform him in a general way what assistance science can afford in the investigation of crime and in a more detailed manner to show in just what cases expert knowledge may be effectively brought to bear Advice is also given regarding the examination of witnesses and accused and the inspection of localities Parts II and III deal respectively with various heads of knowledge and certain handicrafts with which every Investigating Officer should be thoroughly well acquainted while Part IV gives information upon the methods of criminals in committing particular offences much of which may be new even to experienced detectives 1906 The Authors Nursing Basic for Clinical Practice Mr. Rohit Manglik,2024-07-30 Designed for students and novice nurses this text presents essential knowledge and practical skills needed for everyday clinical nursing responsibilities and patient interactions *Dignity for Deeply Forgetful People* Stephen G. Post,2022-05-31 For caregivers of deeply forgetful people a book that combines new ethics guidelines with an innovative program on how to communicate and connect with people with Alzheimer s How do we approach a deeply forgetful loved one so as to notice and affirm their continuing self identity For three decades Stephen G Post has worked around the world encouraging caregivers to become more aware of and find renewed hope in surprising expressions of selfhood despite the challenges of cognitive decline In this book Post offers new perspectives on the worth and dignity of people with Alzheimer s and related disorders despite the negative influence of hypercognitive values that place an ethically unacceptable emphasis on human dignity as based on linear rationality and strength of memory This bias Post argues is responsible for the abusive exclusion of this population from our shared humanity With vignettes and narratives he argues for a deeper dignity grounded in consciousness emotional presence creativity interdependence music and a self that is not gone but differently abled Post covers key practical topics such as understanding the experience of dementia noticing subtle expressions of continuing selfhood including paradoxical lucidity perspectives on ethical quandaries from diagnosis to terminal care and everything in between as gleaned from the voices of caregivers how to communicate optimally and use language effectively the value of art poetry symbols personalized music and nature in revealing self identity the value of trained dementia companion dogs At a time when medical advances to cure these conditions are still out of reach and the most recent drugs have shown limited effectiveness Post argues that focusing discussion and resources on the relational dignity of these individuals and the respite needs of their caregivers is

vital Grounding ethics on the equal worth of all conscious human beings he provides a cautionary perspective on preemptive assisted suicide based on cases that he has witnessed He affirms vulnerability and interdependence as the core of the human condition and celebrates caregivers as advocates seeking social and economic justice in an American system where they and their loved ones receive only leftover scraps Racially inclusive and grounded in diversity Dignity for Deeply Forgetful People also includes a workshop appendix focused on communication and connection A Caregiver Resilience Program by Rev Dr Jade C Angelica

Circles Ginny Stroud,2012-12-01 Circles Hidden Lives is the story of a remarkable woman Gertrude Annie Stroud by her granddaughter Ginny Gertrude s life is unique with its personal tragedies and triumphs but familiar to fellow travellers on the road between cradle and grave While Circles describes this journey its main theme is continuity Ginny s grandmother was born at the beginning of the 20th century and she lived into its final decade During that time she encountered arguably one of the most progressive and destructive periods in human history The world she entered in 1905 was still recovering from the death of Queen Victoria The world she left in 1993 even without the effects of her Alzheimers was unrecognisable She witnessed some of the most momentous and horrific events Yet through good times and bad Gertrude and her family did what generations of ordinary folk have always done they carried on I had a notion to rescue this lifetime from oblivion and it became a promise to write this story someday It was years later when I remembered my neglected intentions and went back to resuscitate them I hope that this story will encourage more people to acknowledge the contribution of their own ancestors and perhaps even write about them Too many histories in particular female ones have been lost says Ginny behind her reason to write Circles Circles Hidden Lives will appeal to fans of adult biography especially those with a specific interest in women s lives and accounts of the 20th century **Dementia, Narrative and Performance** Janet Gibson,2020-09-29 Focusing mainly on case studies from Australia and the United States of America this book considers how people with dementia represent themselves and are represented in theatre of the real productions and care home interventions assessing the extent to which the right kind of dementia story is being affirmed or challenged It argues that this type of story one of tragedy loss of personhood biomedical deficit and socio economic crisis produces dementia and the people living with it as much as biology does It proposes two novel ideas One is that the gaze of theatre and performance offers a reframing of some of the behaviours and actions of people with dementia through which deficit views can be changed to ones of possibility The other is that conversely dementia offers productive perspectives on theatre of the real Scanning contemporary critical studies about and practices of theatre of the real performances and applied theatre interventions the book probes what it means when certain theatre of the real practices specifically verbatim and autobiographical interact with storytellers considered culturally to be unreliable narrators It also explores whether autobiographical theatre is useful in reinforcing a sense of self for those deemed no longer to have one With a focus on the relationship between stories and selves the book investigates how selves might be rethought so that they are not contingent on the production of lucid self narratives consistent language and truthful memories
