as a satirical look at cutting edge science and it pokes fun at science hype Anyone who is interested in dragons or cutting edge science will enjoy this book It is written in a humorous approachable way making science fun and easy to understand including for young adults The author is well known scientist Paul Knoepfler who is familiar to the public for his science his blog The Niche and his frequent contributions to lay stories on new science concepts such as stem cells and CRISPR He also is known for his TED talk on designer babies with more than 1 3 million views and his two books The co author his daughter Julie Knoepfler is a high school student interested in science and writing She has her own blog on literary and film analysis and enjoys taking a humorous look at culture through writing

Soaring High Like Eagles Stephen Ifekoya,2013-06-03

SOARING HIGH LIKE EAGLES is an instructional material put together to be a blessing to individuals and leaders from the church and business organizations The principles outlined in this book are biblical principles carefully selected out of experience Research has proved that most private and government organizations that have excelled built their structures on biblical principles And most of the inventors like Isaac Newton had religious background Information revealed that Isaac Newton was a deeply religious person who wrote far more words on religion than he did on science No wonder he remained the greatest scientist that ever lived SOARING HIGH LIKE EAGLES identifies that all the things in this world revolve around God because of His superhuman strength Without Him nothing can stand With this understanding the principles taught in this book are based on waiting on the Lord as the only way to soar high like the eagles using Isaiah 40 31 as the background scripture It is therefore believed that any individual or organization that applies all the secrets exposed in this book is on the way to the top It is a book you must read
