Looking At Cars:

Cars We Love Brian Earnest,2011-06-23 From the foreword these cars aren't rare or unique but they have other things going for them Sometimes they were the subject of amazing restorations or rescue efforts Sometimes against all odds they remained in one family for generations or were babied to extremes and today have ridiculously low totals on their odometers These are the cars that have stories They might not have been amazing when they were new but they are unique now because of the lives they've lived and the owners who have sat in their driver's seats They've got history and if they could talk what amazing tales they could tell us Cars George Bowering,Ryan Knighton,2002 It's not where you're going but how you get there Everyone's got a good story to tell about cars a funny fender bender a bad cab ride awkward amorous acrobatics But the stories we tell about cars tell even more about ourselves You'll see what we mean in Cars George Bowering one of Canada's Grand Prix writers and Ryan Knighton a young writer just entering the race realized that they could tell the stories of their lives and friendship through the automobiles that have driven them Now these aren't your ordinary boys and cars stories There's no drag racing or cruising for chicks In fact George likes to drive pretty slowly and Ryan who is now blind doesn't drive at all But they take turns in the literary driver's seat bantering and fender nudging so their stories curve and tangle like a BC highway until what emerges is a poignant hilarious conversation Boiling fish in the radiator jousting with a forklift cabbing with Doris Lessing in one hundred panels that's fifty each George and Ryan tell the tales of their friendship families friends and loves all illuminated by the dashboard light Cars is an auto biography that'll chauffeur you through the intersection of the lives of two of Canada's most exciting writers *Wild About Muscle Cars* J. Dichter, Ernest Dichter is famous as one of the founding fathers of motivational research In applying the social sciences to a variety of problems Dichter emphasized new approaches to problem solving advertising politics and selling and issues of social significance such as urban renewal productivity and drug addiction As an author and corporate adviser he used psychoanalytic theory and depth interviewing to uncover unconsciously held attitudes and beliefs His goal was to help explain why people act the way they do and how positive behavioral change might be achieved In *The Strategy of Desire* Dichter both counters the argument that motivational research amounts to manipulation and shows how the understanding and modification of human behavior is necessary for progress Dichter's survey and analysis of behavior ranges widely He examines everyday matters of product choice as well as such broad civic issues as voter participation religious toleration and racial understanding He shows that in order to achieve socially constructive goals it is necessary to move beyond theological exhortation which takes an unrealistic view of human morality as well as beyond the limits of empirically oriented social science research which only deals in appearances Dichter sees human action as rooted in irrational and often unconscious motivation which can usually be uncovered if the correct approach is used In his consumer research he analyzes the nonutilitarian importance of objects in everyday life as well as how products and materials become bound with emotional resonance or acquire different meanings from different contexts or points of view Dichter shows that success depends on the satisfaction of desires and a movement beyond the ethic of work and saving Arguing that in an increasingly technological world progress and social harmony are materially based he advocates a morality of the good life in which prosperity and leisure lead to greater human self assurance in the face of change First published in 1960 *The Strategy of Desire* is especially timely in the age of the Internet and ever increasing effect of sophisticated computer technology on consumer culture Ernest Dichter 1907 1991 was consulting psychologist for the Columbia Broadcasting System from 1943 to 1946 president of the Institute for Motivational Research and founder of Ernest Dichter Associates International His books include *The Psychology of Everyday Life* *Handbook of Consumer Motivation* *Motivating Human Behavior* and *The Naked Manager* Arthur Asa Berger is professor of broadcast and electronic communication arts at San Francisco State University [The Godfather of New England Stock Car Racing](#) Adrienne J Venditti, 2019-05-18 This book is dedicated to the man whose life inspired me to tell his story His name is D Anthony Venditti widely known as the Godfather of Stock Car Racing in New England It is also dedicated to my mother with her eternal love and devoted support of her beloved Anthony her family and racing She and the Godfather enabled and empowered our family to persevere in the sport This is to all those with unending convictions in the Godfather and to the Seekonk Fraternity of racing This book is a pictorial and a closer look at the life of the Godfather He was the youngest promoter in motor sports in the United States in the 1940s And as a twenty five year old he planned engineered and built his speedway He was young and full of ambition It was his dream an American dream to build open and operate his speedway at the end of World War II in 1946 Yet when in his advanced years he then became known as the oldest living
