China's India War, 1962: Looking Back to See the Future Air Commodore Jasjit Singh, 2013-03-15 A potential competition exists between India and China and there is also no doubt that China started the war Highlighting the mistakes made by India rather than empirically analysing

the available data can be regarded as the primary causes for the confusion that exists today Though complete details and evidence of the developments are available and documented few of us have attempted to draw up a pragmatic and realist analysis The consequences of that war have yet to die down entirely and are frequently raked up with issues on recent developments which are not widely dissimilar to those of 1962 China is a complex country To understand this rapidly progressing nation is even more difficult There are many perceptions on this country and many of them are formed on account of some international events and China s growing assertiveness It may be far fetched to expect for a paradigm change in stance and motive which could give China an uncertain negotiating position This edited volume provides the reader an excellent blend of the historical run up to the aberration the military developments and consequences It is also provides useful material to understand the geographical boundary issues between India and China and developing Chinese strategies both on the political and military front *Looking Back, Moving Forward* Girish Daswani,2015-02-26 How do Ghanaian Pentecostals resolve the contradictions of their own faith while remaining faithful to their religious identity Bringing together the anthropology of Christianity and the anthropology of ethics Girish Daswani s *Looking Back Moving Forward* investigates the compromises with the past that members of Ghana s Church of Pentecost make in order to remain committed Christians Even as church members embrace the break with the past that comes from being born again many are less concerned with the boundaries of Christian practice than with interpersonal questions the continuity of suffering after conversion the causes of unhealthy relationships the changes brought about by migration and how to deal with them By paying ethnographic attention to the embodied practices interpersonal relationships and moments of self reflection in the lives of members of the Church of Pentecost in Ghana and amongst the Ghanaian diaspora in London *Looking Back Moving Forward* explores ethical practice as it emerges out of the questions that church members and other Ghanaian Pentecostals ask themselves **Going Back for Our Future** Jon Pedersen, Kevin D. Finson, Barbara S. Spector, Paul Jablon, 2013-04-01 This book is the first volume of an attempt to capture and record some of the answers to these questions either from the pioneers themselves or from those persons who worked most closely with them We know there are many pioneers and early trailblazers who are not included in this volume but there are other volumes to follow As we have posed questions rummaged through files and oft neglected books and probed the memories of many individuals we have come to realize our list of true pioneers is ever growing There are names on the list that most of us readily recognize and there are names of whom few of us have heard yet who were significant in their roles as mentors or idea development and teaching We quickly discovered that the family tree showing connections between these people is not a neat clean simple branching tree but is more like spaghetti The connections are many are intertwined and all have their significance The stories in this volume demonstrate how vital this network was in supporting the individual pioneers during their journey in difficult times and continues to be for those of us today in our own enterprise Looking Back Taner Murat, 2013-09-20 *Short Stories of Our Time* Tantra Bensko

Motzkin,2012-12-06 This book investigates one aspect of the story of how our religiously oriented culture became a secular one It concentrates on the conflicts enveloping the attitude to the past from the late seventeenth to the early twentieth century The background argument is that the way the process of secularization occurred in one particular religious context the Roman Catholic one was determinative for the possibility of something such as secular culture and hence for both the modern secular attitude to the past and the modern religious one In recent years a spate of scholarship has suggested that the expanded version of Weber s theory according to which modernity is a consequence of Protestantism is not quite accurate Robert Merton modified this theory to argue that modern natural science originated in the context of seventeenth century 1 Protestant England Against this position many scholars have investigated 2 origins for the development of science in Catholic countries The development of natural science however is not the whole story of the development of modern secular culture even if the story of that development is restricted to the development of knowledge Our modern universities are organized around the division between humanities and natural sciences and it can be thought that this process of modernization or secularization affected the humanities no less than the sciences *The Business Environment* Dorron Otter,2011-01-20 Now in a new edition The Business Environment provides a unique and stimulating introduction to the subject Outlining the classic PESTLE structure in Part One it goes on to explore such key issues as globalization sustainability equal opportunities and entrepreneurship in Part Two Employing a highly engaging and accessible writing style the authors integrate coherent themes throughout the text helping students to gain a holistic understanding of the business environment They also introduce students to critical thinking with Stop and Think boxes FEATURES OF THE SECOND EDITION Incorporates a large percentage of updated case and illustrative content including material on the 2008 global financial crisis and its implications for the business environment Includes a new chapter 12 on equal business opportunities and restructures the rest of the chapters for greater consistency and accessibility Adopts an extremely student friendly approach that includes a wide range of pedagogical features an accessible writing style and an attractive layout An extensive Companion Website includes numerous resources for students and instructors click link at upper right Science Fiction and the Historical Novel Ian P. Memorializing Violence Alison Crosby, Heather Evans, 2025-02-11 Memorializing Violence brings together feminist and queer reflections on the transnational lives of memorialization practices asking what it means to grapple with loss mourning grief and desires to collectively remember and commemorate as well as urges to forget in the face of disparate yet entangled experiences of racialized and gendered colonial imperial militarized and state violence The volume uses a transnational feminist approach to ask How do such efforts in seemingly unconnected remembrance landscapes speak to with and through each other in a world order inflected by colonial imperial and neoliberal logics structures and strictures How do these memorializing initiatives not only formulate within but move through complex transnational flows and circuits and what transpires as they do What does it mean to inhabit loss mourning resistance and refusal through memorialization at this moment and what s at stake in doing so What might transnational feminist analyses of gender race sexuality class and nation have to offer in this regard
