Looking For Work Searching For Workers American Labor Markets During Industrialization:

Looking for Work, Searching for Workers Joshua L. Rosenbloom, 2002-03-25 The dynamic character of American industrialization produced imbalances between the supply of and demand for labor across cities and regions This book describes how employers and job seekers responded to these imbalances to create networks of labor market communication and assistance capable of mobilizing the massive redistribution of population that was essential to maintain the rapid pace of the nation's economic growth between the Civil War and World War I It combines a detailed description of the emerging labor market institutions with a careful analysis of a variety of quantitative evidence to assess the broader economic implications for geographic wage convergence and for American economic growth Despite an expansion in the geographic scope of labor markets at this time the evidence suggests that labor market institutions reinforced regional divisions within the United States and left a lasting impact on the evolution of many other aspects of the employment relationship

Studies of Labor Market Intermediation David H. Autor, 2009-12-15 From the traditional craft hiring hall to the Web site Monster.com a multitude of institutions exist to facilitate the matching of workers with firms The diversity of such Labor Market Intermediaries LMIs encompasses criminal records providers public employment offices labor unions temporary help agencies and centralized medical residency matches *Studies of Labor Market Intermediation* analyzes how these third party actors intercede where workers and firms meet thereby aiding and in some cases exploiting the matching process By building a conceptual foundation for analyzing the roles that these understudied economic actors serve in the labor market this volume develops both a qualitative and quantitative sense of their significance to market operation and worker welfare Cross national in scope *Studies of Labor Market Intermediation* is distinctive in coalescing research on a set of market institutions that are typically treated as isolated entities thus setting a research agenda for analyzing the changing shape of employment in an era of rapid globalization and technological change

The History of Labour Intermediation Sigrid Wadauer, Thomas Buchner, Alexander Mejschke, 2015-04-01 Searching for a job has been an everyday affair in both modern and past societies and employment a concern for both individuals and institutions The case studies in this volume investigate job search and placement practices in European countries Australia and India in the nineteenth and twentieth centuries The contributors explore how looking for work becomes a means by which participants individuals placement agents trade unions municipalities administrations state authorities and schools articulated specific interests perspectives and agendas Taking an exploratory approach the chapters illustrate different approaches to the history of employment and job searching ranging from organizational and regulatory histories to the analysis of practices and autobiographical accounts In the process they uncover the interrelations of search practices and attempts to arrange placement services

makers The study describes the ways in which federal agencies such as the Army and the Freedmen s Bureau attempted to assist Washington s freed population and shows how officials struggled to address the social problems resulting from large scale African American migration It also sheds new light on the political processes that led to the abandonment of Reconstruction and the onset of black disfranchisement

Moving Millions Jeffrey Kaye,2010-04-01 On the same day that reporter Jeffrey Kaye visited the Tondo hospital in northwest Manila members of an employees association wearing hospital uniforms rallied in the outside courtyard demanding pay raises The nurses at the hospital took home about 261 a month while in the United States nurses earn on average more than fifteen times that rate of pay No wonder so many of them leave the Philippines Between 2000 and 2007 nearly 78 000 qualified nurses left the Philippines to work abroad but there s more to it than the pull of better wages each year the Philippine president hands out Bagong Bayani modern day heroes awards to the country s outstanding and exemplary migrant workers Migrant labor accounts for the Philippines second largest source of export revenue after electronics and they ship out nurses like another country might export textiles In 2008 the Philippines was one of the top ranking destination countries for remittances alongside India 45 billion China 34 5 billion and Mexico 26 2 billion Nurses in the Philippines farmers in Senegal Dominican factory workers in rural Pennsylvania even Indian software engineers working in California all are pieces of a larger system Kaye calls coyote capitalism Coyote capitalism is the idea practiced by many businesses and governments that people like other natural resources are supplies to be shifted around to meet demand Workers are pushed out pulled in and put on the line without consideration of the consequences for economies communities or individuals With a fresh take on a controversial topic Moving Millions Knocks down myth after myth about why immigrants come to America and what role they play in the economy Challenges the view that immigrants themselves motivate immigration rather than the policies of businesses and governments in both rich and poor nations Finds surprising connections between globalization economic growth and the convoluted immigration debates taking place in America and other industrialized countries Jeffrey Kaye is a freelance journalist and special correspondent for the PBS NewsHour for whom he has reported since 1984 covering immigration housing health care urban politics and other issues What does it all

add up to America's approach to importing workers looks from the outside like a patchwork of unnecessary laws and regulations but the machinery of immigration is actually part of a larger global system that satisfies the needs of businesses and governments often at the expense of workers in every nation Drawing on Jeffrey Kaye's travels to places including Mexico the U K the United Arab Emirates the Philippines Poland and Senegal this book a healthy alternative to the obsession with migrants legal status exposes the dark side of globalization and the complicity of businesses and governments to benefit from the migration of millions of workers
