Beck, 1999 This up to date survey of the finest moments in Western painting from Masaccio through Michelangelo and Titian covers some fifty artists and their work and includes 450 color illustrations Beck divides the period into three generations covering over one hundred years The art is then distinguished between a more lyric or a more monumental vision thereby giving a framework for the study and appreciation of the complex but rewarding material which has formed the basis of painting ever since Attention is given to the lives of the artists in addition to their works set in the historical context The book is accompanied by a bibliography and a glossary as well as an index for easy reference From publisher's description *The Endless Periphery*

Stephen J. Campbell, 2019-11-26 While the masterpieces of the Italian Renaissance are usually associated with Italy's historical seats of power some of the era's most characteristic works are to be found in places other than Florence Rome and Venice They are the product of the diversity of regions and cultures that makes up the country In *Endless Periphery* Stephen J Campbell examines a range of iconic works in order to unlock a rich series of local references in Renaissance art that include regional rulers patron saints and miracles demonstrating for example that the works of Titian spoke to beholders differently in Naples Brescia or Milan than in his native Venice More than a series of regional microhistories *Endless Periphery* tracks the geographic mobility of Italian Renaissance art and artists revealing a series of exchanges between artists and their patrons as well as the power dynamics that fueled these exchanges A counter history of one of the greatest epochs of art production this richly illustrated book will bring new insight to our understanding of classic works of Italian art
