Arab Social Life in the Middle Ages Shirley Guthrie, 2013-08-01 This vivid portrait of everyday life in the medieval Arab world draws on thirteenth century miniatures from collections as far afield as St Petersburg and Istanbul The wide range of topics covers every aspect of society in the Abbasid period from life at court to the pomp and ceremony of the military from the dispensing of justice to the bustle of the suq and slave market The routine of village life is contrasted with the pleasures of urban society and we are also introduced to the world of musicians and professional mourners Women are

shown not only as virtuous wives and in childbirth but as spirited and articulate individuals The traditions of Arab hospitality are described with scenes of drinking feasting and etiquette The author has illustrated her study with contemporary miniatures principally those of al Wasiti which accompany the celebrated Maqamat of al Hariri In his text al Hariri made no attempt to conceal his admiration for his unprincipled and thoroughly disreputable protagonist Abu Zayd who represents the voice of the common man and possibly provides a prototype for the popular picaresque heroes of later European literature Al Hariri frequently used the tales as a subtle and indirect way of satirizing the prevailing social order yet he was insistent that his work had an underlying moral purpose Guthrie s work is scholarly and her book is a mine of information on both basic and recondite features of Islamic society Robert Irwin Times Literary Supplement Very lively and informative on a wide range of topics in medieval Islamic history The book is eminently accessible to students and non specialists and is certainly one that merits close attention Medical History An essential read for Arabs and non Arabs alike al Hayat

One Century of Vain Missionary Work among Muslims in China Raphael Israeli, 2018-10-23 Christian missionaries in China have been toiling since the 16th century with little success Only after the Opium War were the Western powers which invaded China able to enforce their gunboat policy under which their missionaries could penetrate all parts of China and extend their activities to a larger part of the population which needed welfare assistance and western protection and therefore resorted to evangelization as a way to obtain both However relative to the huge Chinese population and to the optimistic expectations of the missionaries little was achieved on the ground Therefore at some point since the beginning of the 20th century a decision was made by the missionaries to shift their emphasis to the Muslim population of China realizing that unlike the Godless Chinese who had no knowledge nor approach to the Bible the Muslims would be more amenable due to their Holy Book which knew One God and drew from the Judeo Christian tradition many of their narratives The attempt was valiant and lasted for almost a century with many efforts made to extend educational and medical aid to the Muslim population but it also ended in frustration on the
