Kosovo, A Documentary History Robert Elsie, Bejtullah D. Destani, 2018-01-30 The question of Kosovan sovereignty and independence has a history which stretches far back beyond the outbreak of war in 1998 This volume is a compilation of key documents on Kosovo from the first half of the twentieth century These texts including numerous diplomatic despatches from the British Foreign Office deal initially with the Albanian uprising against Ottoman rule in the spring of 1912 and in particular with the period of the Serbian invasion of Kosovo in late 1912 and the repercussions of the conquest for the Albanian population The documents from 1918 to the early 1920s focus mainly on endeavours by Albanian leaders including those of the so called Kosovo Committee in exile to bring the plight of their people to the attention of the outside world endeavours which largely failed Further documents reflect the situation in Kosovo up to the outbreak of World War II This collection provides new perspectives on the Kosovo question and includes many documents which have been largely unavailable up to now It sheds new light on many of the major and minor episodes that channelled and determined subsequent events including the Kosovo War of 1998 1999 and the declaration of independence in February 2008

Slobodan Milosevic and the Destruction of Yugoslavia Louis Sell, 2003-08-04 Focusing on the life and career of Slobodan Milosevic from the perspective of both a diplomatic insider and a scholar this text provides first hand observations of Milosevic during his rise to power and later in the endgame of the Bosnian war *Majstori mraka* Azem Vllasi, 1990

The Media as a Tool of International Intervention Nidžara Ahmetašević, 2023-09-12 This book explores the role of external powers and international organisations in media assistance in Bosnia and Herzegovina Through analysis of key documents media reports and interviews with key participants it examines the main actors their roles and the way in which they influenced the media and society Bosnia and Herzegovina remains one of the biggest experiments in international intervention in modern history Media assistance as well as international intervention was an enormous project which involved many donors and recipient organisations and large amounts of money but it is just one of many countries where democratisation and state building took place with little to no input from the local community Since the mid 1980s media assistance has been an integral part of international intervention used as a tool of democratisation in post conflict countries and societies The process is often led and created outside these countries and implemented by various international organisations led by technocrats and dictated by the will of donors The author uses the case study of Bosnia and Herzegovina to assess this in a broader context This volume will be of interest to scholars and students of Southeast Europe international organisations peace building and rebuilding society in post war countries as well as journalists and policy makers Eastern Europe in Revolution Ivo Banac, 2019-01-24 In this book twelve outstanding authorities present their thoroughgoing assessments of the East European revolution of 1989 the definite collapse of communism as an ideology a political movement and a system of power in eight countries All but two of the contributors focus on the revolution in an individual region or

country Poland Hungary the German Democratic Republic Czechoslovakia Romania Bulgaria Yugoslavia and Albania and each of them addresses the theme of regime transition In Eastern Europe of course the transition from communism to has been as complex and varied as the political geography of the notorious fracture zone itself and individual authors thus concentrate on different sets of problems they tell different kinds of stories Pointing to the enormous difficulties of systematic transformation they measure the dangers of nationality conflict and the potential for new authoritarianism Ivo Banac has assembled a cast with impressive credentials Without imposing an artificial unity on a chaotic subject their book maps out the events of 1989 90 and sets the background for figuring out where the region may be headed
