Scuba Compendium Simon Pridmore,2021-08-23 Only available in e book form this is the presentation in one volume of four books in Simon Pridmore s Scuba series Scuba Fundamental Scuba Confidential Scuba Exceptional and Scuba Professional In musical terms Scuba Compendium is a re mastering and repackaging of the original albums rather than a greatest hits or a Best of compilation The books were written and published over a period of eight years and each book was designed for divers at a particular point in their diving life Listed in the order they were written the audience for Scuba Confidential was the general population of divers Scuba Professional was for those thinking of making a career out of the sport Scuba Fundamental was for non divers and beginners and Scuba Exceptional was for more experienced divers The idea was not to create a series It just turned out that way A number of topics merited inclusion for multiple groups of readers rebreathers and surface safety for example which meant that there was some unavoidable overlap between the individual books In Scuba Compendium the text and chapters have been cleaned up and streamlined to remove any unnecessary repetition and improve continuity Apart from this nothing is missing from the four original books and the only new material is an introductory chapter on the philosophy behind the Scuba series So if you already own all the books in the Scuba series from a content point of view you have no need to buy this one However from a reference point of view some readers may find it an advantage to have these four books in one volume where every word or phrase in the series is easily searchable on an e reader They are arranged here in the order in which they make sense as a series following the path from beginner to diver to experienced diver to expert Scuba Compendium covers the full gamut of the sport diving experience and is a resource that will accompany a scuba diver throughout their career in the sport wherever it takes them to be dipped back into from time to

time whenever necessary If you only own one or two books in the series then you may find Scuba Compendium well worthwhile for another reason too For instance if you are not a beginner you may think you don't need to read Scuba Fundamental but many experienced divers have found it useful and entertaining Also Scuba Professional introduces a number of topics such as real risk awareness and constructive paranoia which are just as relevant for amateur divers as they are for professionals Although the title makes it sound as if Scuba Professional is only for instructors this is certainly not the case And of course if you have not yet bought any of these four Scuba series books then this is a great option to buy all of them together with just one click Scuba Fundamental is a great book Simon Pridmore is to be congratulated for this insightful interesting and honest introduction to scuba diving He tells it as it is John Lippmann Divers Alert Network If PADI's Open Water manual is the Bible of scuba diving consider this the New Testament David Espinosa Editor in Chief Sport Diver magazines I so wish Scuba Exceptional had existed when I was in the early days of my diving life nearly 30 years ago Phil Short explorer and pioneer There is quite simply nothing like Scuba Professional It is the ultimate backstage pass into the business of scuba Jill Heinerth explorer and filmmaker *The Teen's Ultimate Guide to Making Money When You Can't Get a Job* Julie Fryer, 2012 Making money is not about pinching pennies and cutting back on your cash flow It is about making smart decisions The Teen's Ultimate Guide to Making Money When You Can't Get a Job will put you on the right track to start earning your spending money even if you cannot land one of those traditional first jobs You will learn how to start exploring other options such as pet sitting babysitting and tutoring You will also grasp just how to leverage the Internet to help you make money by taking paid surveys blogging or even teaching your parents and their friends how to use social networks like Twitter and Facebook Most importantly you will discover how to take your hobbies and turn them into your personalized income generator
