Makers And Milestones Of The Middle Ages:

Men and Milestones of the Middle Ages Peter G. Stillman, 1970 **The Making of Polities** John Watts, 2009-05-07

This major survey of political life in late medieval Europe provides a framework for understanding the developments that shaped this turbulent period. Rather than emphasising crisis, decline, disorder or the birth of the modern state, this account centres on the mixed results of political and governmental growth across the continent. The age of the Hundred Years War, schism and revolt was also a time of rapid growth in jurisdiction, taxation and representation of spreading literacy and evolving political technique. This mixture of state formation and political convulsion lay at the heart of the making of polities. Offering a full introduction to political events and processes from the fourteenth century to the sixteenth, this book combines a broad comparative account with discussion of individual regions and states including eastern and northern Europe alongside the more familiar west and south.

Making Money in the Early Middle Ages Rory Naismith, 2026-02-24. An examination of coined money and its significance to rulers, aristocrats and peasants in early medieval Europe. Between the end of the Roman Empire in the fifth century and the economic transformations of the twelfth, coined money in western Europe was scarce and high in value, difficult for the majority of the population to make use of. And yet, as Rory Naismith shows in this illuminating study, coined money was made and used throughout early medieval Europe. It was, he argues, a powerful tool for articulating people's place in economic and social structures and an important gauge for levels of economic complexity. Working from the premise that using coined money carried special significance when there was less of it around, Naismith uses detailed case studies from the Mediterranean and northern Europe to propose a new reading of early medieval money as a point of contact between economic, social and institutional history. Naismith examines structural issues including the mining and circulation of metal and the use of bullion and other commodities as money, and then offers a chronological account of monetary development, discussing the post-Roman period of gold coinage, the rise of the silver penny in the seventh century and the reconfiguration of elite power in relation to coinage in the tenth and eleventh centuries. In the process, he counters the conventional view of early medieval currency as the domain only of elite gift-givers and intrepid long-distance traders. Even when there were few coins in circulation, Naismith argues, the ways they were used to give gifts, to pay rents, to spend at markets, have much to tell us.

The Making of the Middle Ages Richard William Southern, 1953

The Making of Medieval History G. A. Loud, Martial Staub, 2017. Essays on the discipline of medieval history and its practitioners from the late eighteenth century onwards. A hugely interesting set of essays reflecting on a variety of ways in which medieval history has developed to the present time. Scholarship of the highest standard, deeply thought-provoking and deeply engaged with the inheritances and future tasks of medieval academic history. The collection will be essential reading for all medievalists. John Arnold, Professor of Medieval History, University of Cambridge. Medieval history is present in many forms in our world. Monuments from the Middle Ages or inspired by them are a familiar feature of landscapes across

Europe and beyond the period between the end of the Roman Empire in Western Europe and the Reformation and European expansion is an essential part of our imagination be it conveyed through literature the arts science fiction or even video games it is also commonly invoked in political debates Specialists in the field have played a major role in shaping modern perceptions of the era But little is known about the factors that have influenced them and their work The essays in this volume provide original insights into the fabric and dissemination of medieval history as a scholarly discipline from the late eighteenth century onwards The case studies range from the creation of specific images of the Middle Ages to the ways in which medievalists have dealt with European identity contributed to making and deconstructing myths and more specifically addressed questions relating to land and frontiers as well as to religion GRAHAM A LOUD is Professor of Medieval History at the University of Leeds MARTIAL STAUB is Professor of Medieval History at the University of Sheffield Contributors Christine Caldwell Ames Peter Biller Michael Borgolte Patrick Geary Richard Hitchcock Bernhard Jussen Joep Leerssen G A Loud Christian L bke Jinty Nelson Bastian Schl ter Martial Staub Ian Wood **The Making of Medieval Antifraternalism** G. Geltner, 2012-04-05 A case study in opposition to religious authority in the pre modern period Geltner treats a phenomenon known as antifraternalism from a fresh methodological and documentary perspective He challenges many assumptions made about the early history of the mendicant orders and the origins scale and scope of resistance to them

Savings and Investment Information for Teens, Fourth Edition James Chambers, 2022-08-01 Provides consumer finance information for teens about economic principles wealth development bank accounts stocks bonds mutual funds and other financial tools **Boomers 3.0** Lawrence R. Samuel, 2017-07-14 Capitalizing on what is arguably the most important social phenomenon of our time and place the aging of America this book shows organizations how to market specifically to baby boomers in their third act of life The graying of America is undeniable with an estimated 10 000 boomers turning 65 every day But to dismiss the baby boomer generation as a group no longer worth marketing to would be foolish According to the Census Bureau in 2029 the year when the last boomer will have turned 65 there will still be more than 61 million boomers roughly 17 percent of the projected population of the United States Boomers will still be the wealthiest generation in the United States until at least 2030 according to the Deloitte Center for Financial Services with their share of net household wealth to peak at 50.2 percent by 2020 Boomers 3.0 Marketing to Baby Boomers in Their Third Act of Life describes how to market to baby boomers from a cultural perspective specifically addressing the demographic group of baby boomers in their later adulthood a period that will continue for the next two to three decades The author uses the term 3.0 to indicate the baby boomers third phase of life and explains how this third act of life will differ from earlier periods accordingly organizations should take a different approach to marketing to them than in the past This book offers a way to contextualize business objectives within a culturally based forward thinking framework that fully leverages the opportunities presented by what is perhaps the biggest and most affluent customer base in history Readers will be able to use the strategies described to

map territories to stake and mine in targeting boomers create meaningful relationships with individuals in this group and communicate effectively with boomers to offer them products and services

Making Sense of Old Testament Genocide Christian Hofreiter,2018-02-23 The divine commands to annihilate the seven nations living in Canaan to devote them to destruction herem in Biblical Hebrew are perhaps the most morally troubling texts of the Hebrew and Christian bibles Making Sense of Old Testament Genocide Christian Interpretations of Herem Passages addresses the challenges these texts pose It presents the various ways in which interpreters from the first century to the twenty first have attempted to make sense of them The most troubling approach was no doubt to read them as divine sanction and inspiration for violence and war the analysis of the use of herem texts in the crusades the inquisition and various colonial conquests illustrates this violent way of reading the texts which has such alarming contemporary relevance

Three additional approaches can also be traced to antiquity viz pre critical non literal and divine command theory readings Finally critics of Christianity from antiquity via the Enlightenment to today have referenced herem texts their critical voices are included as well Christian Hofreiter combines a presentation of a wide range of historical sources with careful analysis that scrutinizes the arguments made and locates the texts in their wider contexts Influential contributions of such well known figures as Augustine Origen Gregory the Great Thomas Aquinas and John Calvin are included as well as those of critics such as Marcion Celsus and Matthew Tindal and less widely known texts such as crusading histories songs and sermons colonial conquest accounts and inquisition manuals The book thus sheds new light on the ways in which these texts have shaped the thoughts and actions of their readers through the centuries and offers pertinent insights into how readers might be able to make sense of them today
