The Church Guide for Making Decisions Together Terence Corkin, Julia Kuhn Wallace, 2017-05-02 Recent political events in the USA indicate that ordinary people are weary of traditional politics and ways of doing business in the halls of power A similar mood is present in churches around the world Ordinary church members are tired of the fighting and politicking that seem to privilege the same people all the time They want a new way of making decisions in their churches and in their representative meetings This book shows them how such a hope can be realized Robert s Rules of Order or the traditional parliamentary

style of decision making used in many churches can work for simple decisions that are aggregated and passed by consent. For complex and divisive issues, churches need a decision process that does not result in a combative winner-take-all approach to church life. A healthy church also tries to involve commitment from a wide range of stakeholders rather than privilege a few well-informed and capable speakers. A vital and healthy congregation yearns for a more collaborative, respectful, encouraging, engaging, and empowering process. This book on discernment in the church provides a step-by-step guide on how to create a new way of working together. Drawing on tried and tested processes, it advocates for a consensus-building approach and showing people how it can work in their setting: local church or judicatory meetings. Readers will learn how to design a consensus-building business process for their church meeting while still respecting the denominational and legal requirements under which they must operate. This book is for leaders, members of church boards and committees, and church members who know that there is something wrong with the present system but don't know what to do about it. This guidebook is hopeful, inspiring, and practical.
