Nader Ghafoori

Making Knowledge Visible Communicating Knowledge Through Information Products:

Making Knowledge Visible Elizabeth Orna, 2017-03-02 This ground breaking book opens up new territory for knowledge and information management The only way we can make what we know visible to other people is by putting it into Information Products the products in any medium where users meet the information they need and gain access to the knowledge of others Without them little business would get done inside organizations or between them and the outside world They are essential for the flow exchange application and preservation of information and knowledge This is the first book to make the case for the proper recognition of information products by organizations It shows how they should support business objectives and processes and be incorporated into information strategy and information architecture illustrates the value they can both add and subtract identifies the full range of stakeholders in them and argues that a triple alliance of information management information systems IT and information design is critical for successful information products Stories from real life illustrate every step of the argument The final part of the book demonstrates how an actual organization used information auditing as a tool to develop a strategic information product for an important user community

Managing Information and Knowledge in Organizations Alistair Mutch, 2008 [Facets of Knowledge Organization](#) Alan Gilchrist, Judi Vernau, 2012-03-06 The ISKO UK Biennial Conference 4th 5th July 2011 London honoured the life and achievements of Brian C Vickery This book celebrates his influence on the development of the information profession with contributions from over 50 authors to address research and developments in knowledge organization **Smart Contracts** Marcelo Corrales Compagnucci, Mark Fenwick, Stefan Wrbka, 2021-05-06 This book brings together a series of contributions by leading scholars and practitioners to examine the main features of smart contracts as well as the response of key stakeholders in technology business government and the law It explores how this new technology interfaces with the goals and content of contract law introducing and evaluating several mechanisms to improve the observability and reduce the costs of verifying contractual obligations and performance It also outlines various design patterns that ensure that end users are protected from themselves prevent cognitive accidents and translate expectations and values into more user oriented agreements Furthermore the chapters map the new risks associated with smart contracts particularly for consumers and consider how they might be alleviated The book also discusses the challenge of integrating data protection and privacy concerns into the design of these agreements and the broad range of legal knowledge and skills required The case for using smart contracts goes beyond contracts narrowly defined and they are increasingly used to disrupt traditional models of business organisation The book discusses so called decentralised autonomous organisations and decentralised finance as illustrations of this trend This book is designed for those interested in looking to deepen their understanding of this game changing new legal technology [Managing Information Services](#) Jo Bryson, 2024-11-01 This third edition of Jo Bryson's highly regarded *Managing Information Services* has been thoroughly revised with an emphasis on managing for a sustainable

future Libraries and information services face uncertain times and this new edition tackles the challenges of planning and managing change future proofing for tomorrow and leading the transformation to a sustainable future The text also addresses the integration of information services including librarianship records management and ICT Essential reading for information students this text also serves as a comprehensive and detailed reference on the key management topics for information service managers

Knowledge Sharing in Professions Professor Alexander Styhre, 2012-08-28 No professional is an island Despite their capacity to monopolize and erect entry barriers in terms of either formal credentials or membership of certain organizations professionalism is inextricably bound up with collective accomplishments on a day to day basis and the capacity to share all the resources that constitute the professional domain of expertise Knowledge Sharing in Professions looks at professionalism as a form of systematic and institutionalized knowledge sharing It analyses professionalism through the everyday practices in professional communities and the organizations where they work Three empirical studies of pharmaceutical clinical trials researchers management consultants and architects are presented serving to illustrate the relational nature of these and other professions and how members of professional communities are constantly exchanging data information and know how in their everyday work Alexander Styhre seeks to understand the role of professions and other forms of experts in contemporary society on the basis of complementary perspectives that is to say the communal and collegial nature of professional work This book represents a valuable contribution both to the sociological literature on professions and the business orientated literature on knowledge management and should promote further new research on professionalism

Communicating Strategy Mr Phil Jones, 2012-09-28 If you don't communicate your strategy in a way that your people understand and find compelling how can you expect them to help you succeed with it Research suggests only 5% of the people in an organization understand its strategy If that is true for your organization whose strategy are the other 95% implementing Not yours that is for sure Phil Jones Communicating Strategy is designed to help you communicate your strategy in a compelling and effective way and dramatically improve implementation and the resulting outcomes It provides a clear framework for building a communication plan as well as practical information techniques tools tips and exercises that can be applied to explain and deliver a complete and coherent message There is guidance on how to identify likely obstacles to change and how the psychology behind your story and the language you use can help create change champions as well as details of how to use metaphor quotations and imagery to paint a vivid picture The author also explores the reasons why your organization's structure processes and culture may stifle your story and the steps you can take to align each of these to the strategy This is an exceptional book that includes elements of organizational theory human psychology and good straightforward common sense If you believe that people will do a better job if they understand what you are thinking and what you want this book is for you

Challenges, Opportunities and Solutions in Structural Engineering and Construction Nader Ghafoori, 2009-10-29 Challenges Opportunities and Solutions in Structural Engineering and

Construction addresses the latest developments in innovative and integrative technologies and solutions in structural engineering and construction including Concrete masonry steel and composite structures Dynamic impact and earthquake engineering Bridges and Personal Knowledge Management David J.
