Making Of Citizens:

The Making of Citizens Joseph Grégoire de Roulhac Hamilton, Edgar Wallace Knight, 1922 *The Making of Citizens (Classic Reprint)* Joseph Grégoire De Roulhac Hamilton, 2017-12-23 Excerpt from The Making of Citizens A man who has been improved by the demagogue had to be exhibited to a constituency trained to think and to follow individual judgment and if the fallacies of the dreamer and the fanatic were subjected to the simple analysis of common sense I But it is not alone in the narrow field of politics that is in the election of officials and representatives that the need of equipped citizens is imperative We are beginning to realize today that there are economic social and intellectual implications of citizenship as well As a matter of government is so intimately connected and concerned with the business of a country with the social problems of the people that no one really can understand politics who has not also a background of knowledge concerning at least the fundamentals of the economic and social life of the time especially in his own country and particular community Mr Root strongly emphasizes this in his Yale Address About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works
