Making Of New Labours European Policy:

The Making of New Labour's European Policy Russell Holden, 2001-12-17 Russell Holden considers the policy reversal on Europe made by the Labour Party between 1983 and 1999. It charts and analyzes how the Party became pro-European with particular emphasis on how this change was conceived and implemented. In so doing it concentrates on how the European issue became a political priority and dynamic tool for promoting economic reform and Party unity, two essential requirements in making the Party New Labour a credible alternative government in the eyes of the general public.

Harold Wilson, Denmark and the Making of Labour European Policy, 1958-72 Matthew Broad, 2017 Explores how the European policies of the British Labour Party and Danish Social Democrats evolved between 1958 and enlargement of the European Economic Community (EEC) in 1973, comparing how they each responded to the integration process at key moments and more innovatively highlights the impact of informal contacts between them. *New Labour and the European Union* Stefano Fella, 2018-05-08 This title was first published in 2002. This book makes a valuable contribution to the literature on the UK-EU relationship and on the development of the Labour party since Tony Blair became leader in 1994, providing a detailed examination of the process of policy making undertaken by Labour in relation to the 1996-97 intergovernmental conference (IGC) of the EU. It tracks policy development from opposition to government, culminating in the conclusion of treaty negotiations at Amsterdam in June 1997. The book moves beyond the existing literature in providing an original account of policy making based on internal party and government sources. It highlights a New Labour approach to the EU set in place by the time of the Amsterdam summit and characteristic of the Blair government's European policy thereafter and suggests that this approach represents both continuity and change with previous UK governments and a break from the European social democratic perspective that had been central to Labour's previous pro-European conversion. **Britain and Europe** N.J. Crowson, 2010-10-18 This textbook provides a comprehensive account of Britain's uneasy relationship with continental Europe from 1918 to the present day. Unlike other books on the subject, the author considers Europe in its broadest sense and examines a wider history than just Britain's relations with the European Union (EU). This includes pre-war history and the role of key political institutions outside the EU, such as the Council of Europe and the Western European Union. Subjects covered include how the experience of the inter-war years and the Second World War helped shape attitudes towards the EU; European perspectives on Britain; as well as the other way round; key theories on European integration; the changing nature of Britain's global role; issues of sovereignty and legitimacy; the role of political parties and the Europeanisation of national government; the rise of Euroscepticism in British politics; and how Europe has become entwined in the ideological battles of the main political parties. Exploring the political, diplomatic and military relationship between Britain and Europe, this accessible and wide-ranging textbook is essential core reading for students of British and European history and politics.

New Labour and the European Union Oliver Daddow, 2013-01-18 This book explores Tony Blair and Gordon Brown's

attempt to sell the European ideal to the British people New Labour came to power in 1997 promising to modernize the country and make it fit for the twenty first century In foreign policy Blair and Brown set about rethinking core components of the British national identity especially the country s relationship to its past and its role in the world Rebranding Britain they argued meant helping the British people feel comfortably at home in the European Union What did New Labour achieve and did its European policy succeed How did Blair and Brown try and persuade the British to accept a European future What were the obstacles they faced and the strategies they used to overcome them This timely study of New Labour s effort to build a pro European consensus in Britain argues that the government failed to live up to its early promises Based on evidence from well over one hundred of Blair and Brown s foreign policy speeches supplemented by interviews with policy makers advisers and speech writers from the time the book is sympathetic to the challenge New Labour set itself but also critical of the rhetorical techniques it used to advance the Europeanist cause Trapped between a broadly hostile media and an apathetic public Blair and Brown failed to provide the necessary leadership to see Britain to a European future Theoretically informed empirically robust and methodologically innovative this novel book will appeal to anyone interested in contemporary British foreign policy the New Labour project and Euroscepticism in Britain **Governing as New Labour**

What kind of agreements and institutions are needed to produce regional integration? Is pooling and delegation of sovereignty necessary to overcome collective action problems? How important is regional leadership? This work is a major new contribution to the literature on regional integration and will appeal to theorists, policymakers, students and other readers concerned about world developments. It will also be of value to courses covering international political economy, international relations and regional integration at both undergraduate and graduate level. *New Labour and the European Union* Stefano Fella, 2018-05-08.
