Making Of The Slavs:

The Making of the Slavs Florin Curta, 2001-07-12 This book offers an alternative approach to the problem of Slavic ethnicity in south eastern Europe between c 500 and c 700 from the perspective of current anthropological theories The conceptual emphasis here is on the relation between material culture and ethnicity The author demonstrates that the history of the Sclavenes and the Antes begins only at around 500 AD He also points to the significance of the archaeological evidence which suggests that specific artefacts may have been used as identity markers This evidence also indicates the role of local leaders in building group boundaries and in leading successful raids across the Danube Because of these military and political developments Byzantine authors began employing names such as Sclavines and Antes in order to make sense of the process of group identification that was taking place north of the Danube frontier Slavic ethnicity is therefore shown to be a Byzantine invention

Slavs in the Making Florin Curta, 2020-09-28 Slavs in the Making takes a fresh look at archaeological evidence from parts of Slavic speaking Europe north of the Lower Danube including the present day territories of the Czech Republic Slovakia Poland Belarus Ukraine and Russia Nothing is known about what the inhabitants of those remote lands called themselves during the sixth century or whether they spoke a Slavic language The book engages critically with the archaeological evidence from these regions and questions its association with the Slavs that has often been taken for granted It also deals with the linguistic evidence primarily names of rivers and other bodies of water that has been used to identify the primordial homeland of the Slavs and from which their migration towards the Lower Danube is believed to have started It is precisely in this area that sociolinguistics can offer a serious alternative to the language tree model currently favoured in linguistic paleontology The question of how best to explain the spread of Slavic remains a controversial issue This book attempts to provide an answer and not just a critique of the method of linguistic paleontology upon which the theory of the Slavic migration and homeland relies The book proposes a model of interpretation that builds upon the idea that Common Slavic cannot possibly be the result of Slavic migration It addresses the question of migration in the archaeology of early medieval Eastern Europe and makes a strong case for a more nuanced interpretation of the archaeological evidence of mobility It will appeal to scholars and students interested in medieval history migration and the history of Eastern and Central Europe

The Making of the Slavs Florin Curta, 2007-04-30 This book offers a new approach to the problem of Slavic ethnicity in southeastern Europe between c 500 and c 700 The author shows how Byzantine authors invented the Slavs in order to make sense of political and military developments taking place in the Balkans Making extensive use of archaeology to show that such developments resulted in the rise of powerful leaders responsible for creating group identities and mobilizing warriors for successful raids across the frontier The author rejects the idea of Slavic migration and shows that the Slavs were the product of the frontier

The Avars Walter Pohl, 2018-12-15 Though the book was first published in German in 1988 this English version includes many revisions and updates and will be the definitive English language study of the Avar empire for years to come It will be invaluable for those interested in medieval history or in the impact of nomadic steppe empires on sedentary civilizations Choice The Avars arrived in Europe from the Central Asian steppes in the mid sixth century CE and dominated much of Central and Eastern Europe for almost 250 years Fierce warriors and canny power brokers the Avars were more influential and durable than Attila's Huns yet have remained hidden in history Walter Pohl's epic narrative translated into English for the first time restores them to their rightful place in the story of early medieval

Europe The Avars offers a comprehensive overview of their history tracing the Avars from the construction of their steppe empire in the center of Europe their wars and alliances with the Byzantines Slavs Lombards and others their apex as the first so called barbarian power to besiege Constantinople in 626 to their fall under the Frankish armies of Charlemagne and subsequent disappearance as a distinct cultural group Pohl uncovers the secrets of their society synthesizing the rich archaeological record recovered from more than 60 000 graves of the period as well as accounts of the Avars by Byzantine and other chroniclers In recovering the story of the fascinating encounter between Eurasian nomads who established an empire in the heart of Europe and the post Roman Christian cultures of Europe this book provides a new perspective on the origins of medieval Europe itself **Becoming Slav, Becoming Croat** Danijel Dzino, 2010-08-03 Late antique identities from the Western Balkans were transformed into new Slavic identities after c 600 AD It was a process that is still having continuous impact on the discursive constructions of ethnic and regional identities in the area Building on the new ways of reading and studying available sources from late antiquity and the early Middle Ages the book explores the appearance of the Croats in early medieval Dalmatia the southern parts of modern day Croatia Bosnia and Herzegovina The appearance of the early medieval Croat identity is seen as a part of the wider process of identity transformations in post Roman Europe the ultimate result of the identity negotiation between the descendants of the late antique population and the immigrant groups

Oxford Handbook of Medieval Central Europe Nada Zečević, Daniel Ziemann, 2022 A unique comparative presentation of a region that is often considered forgotten this handbook provides a variety of expertly informed perspectives on life and society in medieval Central Europe and its dynamic interactions across the continent Interrogating the 'Germanic' Matthias Friedrich, James M. Harland, 2020-11-23 Any reader of scholarship on the ancient and early medieval world will be familiar with the term Germanic which is frequently used as a linguistic category ethnonym or descriptive identifier for a range of forms of cultural and literary material But is the term meaningful useful or legitimate The term frequently applied to peoples languages and material culture found in non Roman north western and central Europe in classical antiquity and to these phenomena in the western Roman Empire's successor states is often treated as a legitimate all encompassing name for the culture of these regions Its usage is sometimes intended to suggest a shared social identity or ethnic affinity among those who produce these phenomena Yet despite decades of critical commentary that have highlighted substantial problems its dominance of scholarship appears not to have been challenged This edited volume which offers contributions ranging from literary and linguistic studies to archaeology and which span from the first to the sixteenth centuries AD examines why the term remains so pervasive despite its problems offering a range of alternative interpretative perspectives on the late and post Roman worlds *Before the Gregorian Reform* John Howe, 2016-04-01 Historians typically single out the hundred year period from about 1050 to 1150 as the pivotal moment in the history of the Latin Church for it was then that the Gregorian Reform movement established the ecclesiastical structure that would ensure Rome's dominance throughout the Middle Ages

and beyond In *Before the Gregorian Reform* John Howe challenges this familiar narrative by examining earlier pre Gregorian reform efforts within the Church He finds that they were more extensive and widespread than previously thought and that they actually established a foundation for the subsequent Gregorian Reform movement The low point in the history of Christendom came in the late ninth and early tenth centuries a period when much of Europe was overwhelmed by barbarian raids and widespread civil disorder which left the Church in a state of disarray As Howe shows however the destruction gave rise to creativity Aristocrats and churchmen rebuilt churches and constructed new ones competing against each other so that church building like castle building acquired its own momentum Patrons strove to improve ecclesiastical furnishings liturgy and spirituality Schools were constructed to staff the new churches Moreover Howe shows that these reform efforts paralleled broader economic social and cultural trends in Western Europe including the revival of long distance trade the rise of technology and the emergence of feudal lordship The result was that by the mid eleventh century a wealthy unified better organized better educated more spiritually sensitive Latin Church was assuming a leading place in the broader Christian world Before the Gregorian Reform challenges us to rethink the history of the Church and its place in the broader narrative of European history Compellingly written and generously illustrated it is a book for all medievalists as well as general readers interested in the Middle Ages and Church history

The Early Slavs Paul M. Barford, 2001 The final chapter sets the early medieval developments into the perspective of the history and culture of modern Europe A series of specially compiled maps chart the main cultural changes taking place over six centuries in this relatively unknown part of Europe

The Conqueror's Gift Michael Maas, 2025-02-25 The essential role of ethnographic thought in the Roman empire and how it evolved in Late Antiquity Ethnography is indispensable for every empire as important as armies tax collectors or ambassadors It helps rulers articulate cultural differences and it lets the inhabitants of the empire especially those who guide its course understand themselves in the midst of enemies allies and friends In *The Conqueror's Gift* Michael Maas examines the ethnographic infrastructure of the Roman Empire and the transformation of Rome's ethnographic vision during Late Antiquity Drawing on a wide range of texts Maas shows how the Romans' ethnographic thought evolved as they attended to the business of ruling an empire on three continents Ethnography the conqueror's gift gave Romans structured ways of finding a place for foreigners in the imperial worldview and helped justify imperial action affecting them In Late Antiquity Christianity revolutionized the imperial ethnographic infrastructure by altering old concepts and introducing credal models of community The Bible became a source for organizing the Roman world At the same time many previously unseen collective identities emerged across Western Eurasia in reaction to the diminution of Roman power These changes deeply affected the Empire's ethnographic infrastructure and vision of the world Maas argues that a major consequence of these developments was the beginning of a sectarian age as individuals and political communities came to identify themselves primarily in terms of religion as well as ethnicity As they adjusted to changing ethnographic realities Romans understood

their place among the peoples of the world in new ways Willingly or not we continue to be recipients of the conqueror's gift today

The Bulgarian-Byzantine Wars for Early Medieval Balkan Hegemony Dennis P. Hupchick, 2017-07-10 This book provides an interpretive narrative of the wars fought by Bulgaria against the Byzantine Empire for dominant control of the Balkan Peninsula during the early medieval era Over a span of two centuries from the early ninth through the early eleventh and under the leadership of the Bulgarian rulers Krum Simeon I and Samuil those conflicts evolved from simple confrontations for territorial possession into a life or death struggle for imperial precedence within the Orthodox world then emerging in Eastern Europe a struggle that the Bulgarians ultimately lost The primary focus is on Bulgaria rather than Byzantium and an effort is made to provide a historically reliable chronology of the assorted campaigns The various belligerents' military organizations defensive technologies armaments and tactics are surveyed in an introduction to the main narrative A prelude chapter sets the stage for the hegemonic conflict which was divided into three distinct phases by interludes of relative peace between the contending parties during which Bulgaria's domestic foreign and cultural developments shaped the nature and conduct of the fighting in each successive phase

Eastern Europe in the Middle Ages (500-1300) (2 vols) Florin Curta, 2019-07-08 Winner of the 2020 Verbruggen prize This book provides a comprehensive synthesis of scholarship on Eastern Europe in the Middle Ages The goal is to offer an overview of the current state of research and a basic route map for navigating an abundant historiography available in more than 10 different languages The literature published in English on the medieval history of Eastern Europe books chapters and articles represents a little more than 11 percent of the historiography The companion is therefore meant to provide an orientation into the existing literature that may not be available because of linguistic barriers and in addition an introductory bibliography in English Winner of the 2020 Verbruggen prize awarded annually by the De Re Militari society for the best book on medieval military history The awarding committee commented that the book has an enormous range and yet is exceptionally scholarly with a fine grasp of detail Its title points to a general history of eastern Europe but it is dominated by military episodes which make it of the highest value to anybody writing about war and warring in this very

neglected area of Europe See inside the book *Chrysalis* Jozef Borovský,2019-07-31 This book does not claim absolute truths but it speaks for those who can no longer speak for themselves by the histories they witnessed wrote about and which defined their ancestors and descendants including the most powerful woman that ever lived Countess Elizabeth Bathory She tried to change the world she paradoxically succeeded and failed But what drove her What did she know we do not What is her history To begin to understand all this one must travel back in time to when it began when truth first became obscured and when European society Western culture went horribly wrong It is why her world was the way it was Today historiological truths of European Medieval Dark Ages at best exist as dim flashes of information in ancient manuscripts A very interconnected European medieval history has much more but inconvenient historiological information to inform us of events names places and dates but like a giant complicated jigsaw puzzle Unfortunately many pieces are still missing none more so than that of Carpathia Consequently an incomplete theoretical picture of historical reality remains There s a reason for it Throughout history Europeans struggled for Humility Humanity and Liberty but only Carpathian Ungars maintained and struggled to keep it for more than a millennium from about 600 to 1711 Their history has gone missing supplanted by myths Their greatest leaders are caricatures of Gothic horror literature and their greatest traitors are their heroes Their monuments are everywhere Carpathia s history does not exist in Western consciousness What is it about Carpathia we are not supposed to know Its missing medieval jigsaw puzzle pieces when liberated from obscure archives then reassembled and inserted into the macro context of centuries however allows us to understand why The period covered in this book is roughly seven centuries It s a litany of tragic moral failures It begins with spiritual leaders who consistently failed in their moral duty because they misguidedly assumed a Roman imperial culture from the outset It ends with the creation of a repressed imperial Ungaria and the supposed first kings of Hungary Events within this book s pages cover most of the first great pendulum swing of European Cultural Chrysalis it s Metamorphosis of Odium It explores the complexity of why and how European culture became one of intolerance and hatred which tried to extinct all non conformists within their divine Medieval European World Order It explains why it was perfectly ethical and moral and why society believed in the Resurrection of all things good after the final Apocalypse this order s primary vision Resisting all this of course were all Carpathian cultures the last being the Slavic Turkic Ungars To the Medieval European World Order they like the Caliphates were the greatest heretics and heathens of the Dark Ages These civilisations were the last refuge of Life Liberty and the Pursuit of Happiness in a world which had none It s a story of us **The Age of Liutprand** Christopher Heath,2024-11-14 The Age of Liutprand provides a thematic analysis of Lombard Italy in the pivotal early part of the 8th century It surveys the crucial role and rule of Liutprand 712-44 the powerful and effective Lombard king By restoring this successful exemplar of Lombard kingship to the centre of events and developments in the Italian peninsula this book pulls together all the pertinent evidence for a new kingship in Lombard Italy that used a sophisticated set of strategies to enhance deepen and expand its

effectiveness In presenting an evaluation of Italy on the cusp of dramatic change this book explains how not only the kingship of Liutprand but also his legal reforms and his relationships with the Church and neighbouring peoples all contributed to a model of kingship successfully and subsequently deployed by Charlemagne and his successors later in the 8th century

The Genesis of the Turks Osman Karatay, 2022-01-25 This book suggests a new theory on the origins and Urheimat of the Turks within the context of Central Eurasia and more properly the South Urals by exploring the relations of the Turkic language with the Altaic Uralic and Indo European languages and by referring to historical genetic and archaeological sources The book shows that the elements that started the making of the Turkic ethno linguistic entity were also shared by the regions where the later Hungarians would emerge and that the consolidation of their identity seems to be related to the emergence and rise of the Sintashta culture It argues that the fertile lands and suitable climatic conditions together with the coming of agriculture likely at the end of the 3rd millennium BC allowed them to increase their population **Continuation**
