Moving Subjects, Moving Objects Maruska Svasek, 2012 Most theories of material culture transnationalism and globalization have failed to incorporate a focus on emotions even though an increasing number of scholars in recent years have explored emotion dense processes This book fills the gap and examines how emotions can be theorized and serve as a useful analytical tool for understanding the interrelated mobility of humans objects and images Through diverse ethnographically rich and theoretically grounded case studies these chapters offer new perspectives that relate migration material culture and emotions by addressing the ways in which migrants and migrant artists express their emotions through objects and images in transnational contexts the ways in which particular works of art everyday objects and artifacts evoke specific feelings in migrants and members of migrant communities and the ways in which artists academics and policy makers may stimulate positive interaction between migrants and members of local communities Provided by publisher

Eudemus of Rhodes William Fortenbaugh, 2018-01-31 Eudemus of Rhodes was a pupil of Aristotle in the second half of the fourth century BCE When Aristotle died having chosen Theophrastus as his successor Eudemus returned to Rhodes where it appears he founded his own school His contributions to logic were significant he took issue with Aristotle concerning the status of the existential is

and together with Theophrastus he made important contributions to hypothetical syllogistic and modal logic. He wrote at length on physics largely following Aristotle and took an interest in animal behavior. His histories of geometry, arithmetic, and astronomy were of great importance and are responsible for much of what we know of these subjects in earlier times. Volume 11 in the series *Rutgers Studies in Classical Humanities* is different in that it is composed entirely of articles that discuss Eudemus from a variety of viewpoints. Sixteen scholars representing seven nations have contributed essays to the volume. A special essay by Dimitri Gutas brings together for the first time the Arabic material relating to Eudemus. Other contributors and essays are Hans B. Gottschalk, *Eudemus and the Peripatos*; Tiziano Dorandi, *Quale aspetto controverso della biografia di Eudemo di Rodi*; William W. Fortenbaugh, *Eudemus Work On Expression*; Pamela M. Huby, *Did Aristotle Reply to Eudemus and Theophrastus on Some Logical Issues*; Robert Sharples, *Eudemus Physics Change Place and Time*; Han Baltussen, *Wehrli's Edition of Eudemus of Rhodes: The Physical Fragments from Simplicius' Commentary on Aristotle's Physics*; Sylvia Berryman, *Sumphues and Suneches: Continuity and Coherence in Early Peripatetic Texts*; István Bodnár, *Eudemus Unmoved Movers Fragments 121-123b*; Wehrli, Deborah K. W. Modrak, *Phantasia: Thought and Science in Eudemus*; Stephen White, *Eudemus the Naturalist*; J. orgen Mejer, *Eudemus and the History of Science*; Leonid Zhmud, *Eudemus History of Mathematics*; Alan C. Bowen, *Eudemus History of Early Greek Astronomy: Two Hypotheses*; Dmitri Panchenko, *Eudemus Fr. 145*; Wehrli, and the *Ancient Theories of Lunar Light* and Gábor Betegh, *On Eudemus Fr. 150*. Wehrli's *Eudemus of Rhodes* marks a substantial progress in our knowledge of Eudemus. For it enlarges the scope of the information available on this author, highlights the need of and paves the way to a new critical edition of the Greek fragments of his works, and provides a clearer view of his life, thought, sources, and influence. In all these respects it represents a necessary complement to Wehrli's edition of Eudemus' fragments. Amos Bertolacci, *The Classical Bulletin*, István Bodnár is a member of the philosophy department at the Eötvös University in Budapest where he teaches and does research on ancient philosophy. He has been a junior fellow at the Center for Hellenic Studies and most recently has been an Alexander von Humboldt Stipendiat in Berlin at the Max Planck Institut für Wissenschaftsgeschichte and at the Freie Universität. William W. Fortenbaugh is professor of classics at Rutgers University. In addition to editing several books in this series, he has written *Aristotle on Emotion* and *Quellen zur Ethik Theophrastus*. New is his edition of Theophrastus's treatise *On Sweat*. *Thin Air*. Dann Anthony Maurno, Louis Sirico, 2010-04-29.
