music takes readers into the hearts of ten extraordinary works of classical music in ten different genres showing both the curious novice and the seasoned listener how to recognize appreciate and engage with these masterpieces on a historical and compositional level Far from what is often thought classical music is neither dead nor dying As a genre it is constantly evolving its pieces passing through countless permutations and combinations yet always retaining that essential life force The works collected here composed in the years between 1784 and 1966 are a testament to this fact As Sachs skillfully demonstrates they have endured not because they were exceptionally well made or interesting but because they were created by composers Mozart and Beethoven Schubert Schumann Berlioz Verdi and Brahms Sibelius Prokofiev and Stravinsky who had a particular genius for drawing music out of their deepest wellsprings Through music Sachs writes they universalized the intimate In describing how music actually sounds *Ten Masterpieces of Music* seems to do the impossible animating the process of composing as well as the coming together of disparate scales and melodies trills and harmonies It tells us too how particular compositions came to be often revealing that the pieces we now consider classic were never intended to be so In poignant exquisite prose Sachs shows how Mozart a former child prodigy under constant pressure to produce new music hastily penned Piano Concerto No 17 in G major one of his finest piano concertos for a teenage student and likewise demonstrates how Goethe's *Faust* Part One became a springboard for the musical imagination of the French composer Berlioz As Sachs explains these pieces are not presented as candidates for a new Top Ten They represent neither the most well known nor the most often performed works of each composer Instead they were chosen precisely because he had something profound to say about them about their composers about how each piece fits into its composer's life and about how each of these lives can be contextualized by time and place In fact Sachs encourages readers to form their own favorites and teaches them how to discern special characteristics that will enhance their own listening experiences With *Ten Masterpieces of Music* it becomes evident that Sachs has lived with these pieces for a veritable lifetime His often soaring descriptions of the works and the dramatic lives of the men who composed them bring a heightened dimension to the musical perceptions of all listeners communicating both the sheer improbability of a work becoming a classic and why certain pieces these ten among them survive the perilous test of time

The Marriage of Figaro Tim Carter, 1987 *Le nozze di Figaro* 1786 was Mozart's first mature opera buffa It was also the first of his three major collaborations with the librettist Lorenzo da Ponte Unlike *Don Giovanni* 1787 and *Cos fan tutte* 1790 *Figaro* has few obvious problems and even if it is not without flaws it nevertheless contains a remarkable mixture of all those elements that go to produce a good opera a sound plot a well structured text and fine music This opera handbook examines the work from historical and musical perspectives to set it in the context of Mozart's age
