Mozart Mitridate Re Di Ponto 1986:

Mithridates VI and the Pontic Kingdom Jakob Munk Hojte, 2009-06-22 Mithridates VI Eupator the last king of Pontos was undoubtedly one of the most prominent figures in the late Hellenistic period Throughout his long reign 120 63 BC the political and cultural landscape of Asia Minor and the Black Sea area was reshaped along new lines The authors present new archaeological research and new interpretations of various aspects of Pontic society and its contacts with the Greek world and its eastern neighbours and investigate the background for the expansion of the Pontic Kingdom that eventually led to the confrontation with Rome *Opera Discography: Performers*, 1990 *An Opera Videography*, 1997

Crist, Roberta Montemorra Marvin, 2004 How do we know what notes a composer intended in a given piece how those notes should be played and sung the nature of musical life in Bach's Leipzig Schubert's Vienna how music related to literature and other arts and social currents in different times and places what attitudes musicians and music lovers had toward the music that they heard and made We know all this from musical manuscripts and prints opera libretti composers letters reviews in newspapers and magazines archival data contemporary pedagogical writings essays on aesthetics and

much else Some of these categories of sources are the bedrock of music history and musicology Others have begun to be examined only in recent years Furthermore musicologists including biographers of famous composers now explore these various kinds of sources in a variety of ways some of them richly traditional and others exciting and novel These seventeen essays all newly written use a wide array of source materials to probe issues pertaining to a cross section of musical works and musical life from the sixteenth through the twentieth centuries The resulting pluralistic profile of current musicology will prove welcome to anyone fascinated by the problems of reconstructing reimagining sometimes the evanescent musical art of the past and pondering its implications for musical life today and in the future Roberta Montemorra Marvin is Director of Research and Development for International Programs University of Iowa Stephen A Crist is Associate Professor and Chair of the Music Department at Emory University

W.A. Mozart, Idomeneo Julian Rushton, 1993 Idomeneo by common consent Mozart's greatest serious opera is a rich synthesis of the dramatic potentialities of Italian opera seria French tragedie lyrique and recent German opera It was composed for the finest orchestra in Germany and some excellent singers Mozart's relish of the challenge and his problems with some performers and the bureaucracy are uniquely documented in his letters home and these form the basis here of a vivid account of the genesis of the opera A detailed synopsis relates the musical and dramatic action of the opera while further chapters trace the historical development of its subject matter from myth to libretto and chart the opera's performance history including a description of Richard Strauss's 1931 reworking Later chapters consider the opera's general structure and musical forms and analyze passages of particular interest

Sudden Death in Opera Michael Trimble, Robert Ignatius Letellier, Dale Hesdorffer, 2021-09-28 An aspect of dying in opera rarely observed or commented on is Sudden Unexpected Death There are many deaths in this melodramatic genre most follow expected causes like murder suicide or old age This book explores those deaths which occur without obvious natural causes These are often central to the overall drama of the opera representing denouements forming the epiphany of the story and the apotheosis for the audience The book identifies 50 operas where such events occur exploring the role of the dramatis personae the circumstances of their dying and specific themes that emerge These include a preponderance of females especially in the 19th century who die mainly at the end of the operas often in the context of tragedy It charts the growing awareness in the medical sciences of the unconscious forces driving human behaviour including liminal mental states and trances which influenced these operas and continue to affect human behaviour to the present day In addition the changing philosophies that are intertwined with operatic narratives in particular stemming from Kant Hegel Schopenhauer and Nietzsche are important in the book's exegesis as is the special role of Wagner's compositions This leads to the exploration of recurrent concepts such as the Liebestod the ewig Weibliche and redemption itself
