

A still from the movie Toy Story showing Woody and Buzz Lightyear. Woody is on the left, looking concerned. Buzz is on the right, wearing his green and purple space suit, with his right arm raised and fingers spread in a dramatic gesture. The background is a simple room with a door and some toys on the floor.

of ERP the author introduces Total Enterprise Integration TEI the process of integrating all the information required to fully support a manufacturing company TEI represents a logical extension of complete information integration throughout a manufacturing enterprise and into the supply chain This new concept shows you how the intelligent use of work flow allows responsibility to go to the most appropriate front line decision makers while maintaining proper budgetary and operational controls The power of TEI is in the integration of communication across the entire manufacturing company and out through the supply chain to customers and suppliers Enterprise Resource Planning and Beyond Integrating Your Entire Organization focuses on what a fully integrated system can do for you Features

Introduction to Computational Optimization Models for Production Planning in a Supply Chain Stefan Voß, David L.
