Mrs Moore In Space:

Mrs Moore in Space Gertrude Lilian Moore, 1974 Text and illustrations guide the reader on an imaginary voyage through the solar system and further out into the universe The Physical and Virtual Space of the Consulting Room Deborah Wright, 2022-06-27 In this thought provoking book Deborah Wright examines the role of both space and objects as they become manifest in the psychoanalytic process and looks at how the role of the consulting room in the therapeutic process is both primitive and transference Wright explores spatialisation as simultaneously being a psychological projection of meaning and as physically acting upon the environment utilised to master the undifferentiated relentless internal pressure of instinct Throughout *The Physical and Virtual Space of the Consulting Room* she considers the spatial aspects of work with patients by foregrounding the importance of the consulting room and its contents including the impact of changes of consulting room travelling and in working virtually Illustrated with clinical material and hand drawn artwork Wright orients the reader in the new territory by going beyond the existing literature that considers the objects and space of the consulting room solely as transference aspects of the analyst The interdisciplinary approach in this book calls on psychoanalytic theory and technique as well as philosophy history archaeology and anthropology which will be of great interest to all psychoanalytically orientated therapists as well as anyone clinical or non clinical who makes use of psychoanalysis *Who Said the Mechanics of Essay Writing Can't Be Fun?* Francis A. Andrew, 2018-10-04 This book is essentially a sequel to Francis A. Andrew's earlier book *Who Said English Grammar Was Boring* The sequel begins by devoting a few chapters to some grammar points and continues with explanations and examples of twenty three essay types As well as example essays each unit provides reading passages which are unrelated to the essay type The reason for this is to encourage students to read widely and thus to see reading and writing as interconnected and inter related skills Equipping Space Cadets Emily Midkiff, 2022-04-19 Winner of the 2023 Science Fiction Research Association SFRA Book Award 2022 Longlist Nominee for the Best Non Fiction Award from the British Science Fiction Association *Equipping Space Cadets* Primary Science Fiction for Young Children argues for the benefits and potential of primary science fiction or science fiction for children under twelve years old Science fiction for children is often disregarded due to common misconceptions of childhood When children are culturally portrayed as natural and simple they seem like a poor audience for the complex scientific questions brought up by the best science fiction The books and the children who read them tell another story Using three empirical studies and over 350 children's books including *If I Had a Robot Dog* *Bugs in Space* and *Commander Toad in Space* *Equipping Space Cadets* presents interdisciplinary evidence that science fiction and children are compatible after all Primary science fiction literature includes many high quality books that cleverly utilize the features of children's literature formats in order to fit large science fiction questions into small packages In the best of these books authors make science fiction questions accessible and relevant to children of various reading levels and from diverse backgrounds and identities *Equipping Space Cadets* does not

stop with literary analysis but also presents the voices of real children and practitioners The book features three studies a survey of teachers and librarians quantitative analysis of lending records from school libraries across the United States and coded read aloud sessions with elementary school students The results reveal how children are interested in and capable of reading science fiction but it is the adults including the most well intentioned librarians and teachers who hinder children s engagement with the genre due to their own preconceptions about the genre and children

Space and the Eighteenth-Century English Novel Simon Varey, 1990-07-27 In this challenging and illustrated study first published in 1990 Simon Varey relates the idea of space in the major novels of Defoe Fielding and Richardson to its use in the theory and practice of eighteenth century architecture Concepts of divine design expressed in the work of philosophers and theologians introduced an ideological element to the notion of space which gave it a heightened significance in contemporary thought Professor Varey s central argument is that space becomes a political instrument used to establish conformity assert power and give form to the aspirations of social classes He draws on a wide range of architectural books both English and European and on the example of Bath focusing in particular on its chief architect in the eighteenth century John Wood The discussion of novels such as Robinson Crusoe Tom Jones and Clarissa examines narrative as a form of spatial design the use of architectural imagery to describe people and the political control of
