integration **Educational and Cultural Challenges of the European Sustainability Model** María Dolores Sánchez Galera, 2020-03-11 The book provides a comprehensive overview of the European Sustainability Model which cannot be properly understood without taking into account the global governance trends surrounding the topic The author offers a fresh analysis of both theory and praxis of sustainable development in the open ended process of EU integration by shedding new light on the often overlooked role that law and legal science should have within the educational and cultural domains The monograph explores the necessity of new conceptual and methodological approaches in order to understand the emerging educational and cultural challenges when it comes to their integration and intersection with sustainability in today's society which desperately claims systemic transformations *Parochial Global Europe* Alasdair R. Young, John Peterson, 2014-04-17 Europe's trade policies matter in global politics Despite the recent focus on Brazil India and particularly China the European Union remains the world's largest market and trader Despite its recent economic troubles Europe remains in a powerful position to shape how globalization is governed We know surprisingly little about how its trade policy is actually made because previous works have focused on individual trade policy decisions to the detriment of the big picture of the Union as a trade power *Parochial Global Europe* argues that trade policy is composed of multiple distinct policies Each presents a distinctive constellation of mobilized societal preferences pattern of political institutions and range of government preferences The balance of economic power between the EU and its trade partner's affects the stakes involved Together these four factors define trade policy sub systems which help explain both the EU's objectives and whether it realizes them The authors advance this argument by analysing the EU's role in the demise of the Doha Round its use of anti dumping and pursuit of market access the trade effects of its single market programme and efforts at regulatory diplomacy including the launch of the Transatlantic Trade and Investment Partnership negotiations *Parochial Global Europe* thus focuses centrally on modern 21st century trade policy It also sheds light on the EU as a global actor by analysing its use of trade policy as a tool of foreign policy from promoting development to encouraging human rights and environmental protection to punishing security threats *A Contrastive Grammar of Brazilian Pomeranian* Gertjan Postma, 2019-03-15 Pomeranian is the West Germanic language spoken by European emigrants who went from Farther Pomerania present day Poland to Brazil in the period 1857-1887 This language is no longer spoken in cohesive societies in Europe but the language has survived and is in remarkably good shape on this language island in the tropical state of Espírito Santo This monograph offers the first synchronic grammar of this language After a historical introduction the book offers a systematic description of its phonology morphology and syntax The language is contrasted with its European sisters more particularly High German Dutch and Frisian It highlights various phenomena that will presumably contribute to the ongoing theoretical debate on the Germanic verbal system It provides new data on cluster V2 do support and the two infinitives As to the infinitival syntax the language shows remarkable parallels to the system of Frisian As to the rich Pomeranian system of subtractive morphology the

phonological account that is offered will be important for the ongoing discussion of the abstractness of phonological representations Finally Pomeranian is a welcome addition to the set of languages on which our etymological understanding of West Germanic is based
