Benevolent Intentions Fredric Muir,2025-06-17 Fredric Muir explores a period of American history that is difficult knowledge the country s determination to be a member of the imperial era s club of colonizing nations While the book s characters are Christian religious liberals in particular what is surprising is not that they were in positions to direct and enforce colonial hegemony but that there were so many of them in fact there was a disproportionately large number of religious liberals in positions of authority and leadership Addressing topics that are still current this book describes the intersection of religious liberalism and imperialism and identifies those who were in positions of power while observing what it was about the liberal Christian faith that was informing them and the limited and failed resistance of the anti imperialist and anti immigration movements The results have been lasting and continue as headline news

Mixed Blessing Hazel

McFerson,2001-12-30 Invidious distinctions on the basis of race and overt racism were central features in American colonial policy in the Philippines from 1898 to 1947 as America transported its domestic racial policy to the island colony This collection by young Filipino scholars analyzes American colonialism and its impact on administration and attitudes in the Philippines through the prism of American racial tradition a structural concept which refers to beliefs attitudes images classifications laws and social customs that shape race relations and racial formation in multiracial and colonial societies The dominance of this tradition was manifested in the wanton prerogatives of the U S Congress and others who helped to carry out colonial policy in the region The Spanish flexible racial tradition had resulted in a system based on ethnicity and class as determinants of social and economic structure while the rigid U S racial tradition assigned race the more dominant role The cultural affinity between the early individual American administrators and the Filipino elite however meant that class based distinctions in the islands were not broken up Thus the extreme elitist character of the Philippines economy and society persisted and became impervious to the influences which in other Asian countries led to a progressive weakening of elite structures as the 20th century advanced
