Politics Of Self Sufficiency Oxford Paperbacks

James L. Huston

Politics Of Self Sufficiency Oxford Paperbacks:

The Politics of Self-sufficiency Michael Allaby, Peter Bunyard, 1980 **Rethinking Green Politics** John Barry, 1999-02-22 Winner of the PSA Mackenzie Prize for best politics book of 1999 Rethinking Green Politics offers a wide ranging overview and critical analysis of the theoretical framework that underpins the values principles and concerns of contemporary green politics and the appropriate institutional means for realizing green ends **Against Socialist Illusion - A Radical Argument** David Selbourne, 1984-11-01 *Green Political Thought* Andrew Dobson, 2000 This new edition locates ecologism clearly within the general field of political ideologies discussing the philosophical basis of green politics and the political theoretical problems it raises *A Radical Green Political Theory* Alan Carter, 2013-12-16 This volume is the first systematic comprehensive and cogent environmental political philosophy It exposes the relationships between the ever worsening environmental crises the nature of prevailing economic structures and the role of the modern state and concludes that the combination of these factors is driving humanity towards destruction Innovative provocative and cutting edge A Radical Green Political Theory will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy *The Illusion of Progress* Alexander Gillespie, 2014-10-14 Is sustainable development a charade sold to an increasingly misled public This book presents a wide ranging penetrating critique of sustainability and what it actually means The author argues that despite the rhetoric of socially and environmentally sustainable development and the ever increasing number of legislative environmental policies the real issues such as consumption population growth and equity are either sidestepped or manipulated in international policy and law Analyzing the main areas of concern economic growth market structure trade aid debt security and sovereignty he shows that the entire development structure and the underpinnings of the debate are leading down quite a different path to that intended by sustainability *A Radical Green Political Theory* Alan B. Carter, 1999 This volume is the first systematic comprehensive and cogent environmental political philosophy It will be of enormous value to all those with an interest in the environment political theory and moral and political philosophy **The politics of Jean Genet's late theatre** Carl Lavery, 2017-10-03 Jean Genet and the politics of theatre is the first publication to situate the politics of Genet's theatre within the social spatial and political contexts of France in the 1950s and 1960s The book's innovative approach departs significantly from existing scholarship on Genet Where scholars have tended to bracket Genet as either an absurdist ritualistic or more recently a resistant playwright this study argues that his theory and practice of political theatre have more in common with the affirmative ideas of thinkers such as Henri Lefebvre Jacques Rancière and Alain Badiou By doing so the monograph positions Genet as a revolutionary playwright interested in producing progressive forms of democracy This original and interdisciplinary reading of Genet's late work will be of interest to students and practitioners of Theatre as well as those interested in French and History **Manhood and Politics** Wendy L. Brown, 1998-09-20 Is politics gendered Wendy Brown

things so and argues for this point with elegance imagination and pungent phrases Brown's book is challenging provocative and original it does force us to question the degree to which gender controls our politics

THE REVIEW OF POLITICS **The Politics of Monstrous Figures in Contemporary Cinema** Francesco Sticchi, 2025-10-01 The book addresses the role of particular monstrous figures and apocalyptic scenarios in contemporary cinema and television and evaluates the political potential of horror and sci fi narratives in our age of never ending crises The purpose of the book is to demonstrate how witches zombies and cyborgs among other figures present the spectre of new people to come of new possibilities to inhabit the Earth against the apocalyptic fates of Capitalism Written in an acid communist spirit the book shows how it is possible to politicise contemporary popular culture tropes and figures mapping the anxieties they express and also their undisclosed potential and resources Balancing personal commentary and academic analyses the book expresses Deleuzian trust in the power of moving images as instruments that allow us to inhabit the present and believe in this world notwithstanding alleged ends of all worlds

Hegel's Metaphysics and the Philosophy of Politics Michael J. Thompson, 2018-04-27 The renaissance in Hegel scholarship over the past two decades has largely ignored or marginalized the metaphysical dimension of his thought perhaps most vigorously when considering his social and political philosophy Many scholars have consistently maintained that Hegel's political philosophy must be reconstructed without the metaphysical structure that Hegel saw as his crowning philosophical achievement This book brings together twelve original essays that explore the relation between Hegel's metaphysics and his political social and practical philosophy The essays seek to explore what normative insights and positions can be obtained from examining Hegel's distinctive view of the metaphysical dimensions of political philosophy His ideas about the good the universal freedom rationality objectivity self determination and self development can be seen in a new context and with renewed understanding once their relation to his metaphysical project is considered Hegel's Metaphysics and the Philosophy of Politics will be of great interest to scholars of Hegelian philosophy German Idealism nineteenth century philosophy political philosophy and political theory

The SAGE Handbook of Comparative Politics Todd Landman, Neil Robinson, 2009-06-16 The SAGE Handbook of Comparative Politics presents in one volume an authoritative overview of the theoretical methodological and substantive elements of comparative political science The 28 specially commissioned chapters written by renowned comparative scholars guide the reader through the central issues and debates presenting a state of the art guide to the past present and possible futures of the field

Plato's Gorgias: Speech, Soul and Politics , 2024-06-11 In the Gorgias Plato offers a synthesis of what he thinks about the bitter conflict between philosophical and non philosophical approaches to one's responsibilities in private and public life This book contributes to a deeper understanding of this historically and conceptually rich canvas by shedding light on its main topics speech in its philosophical and non philosophical forms psychology in relation to virtuous life and politics which charges the two former topics with high stakes that call for personal choices

Revolution and World Politics Fred Halliday, 1999-08-23 The

relation of revolutions to international relations is central to modern history. Revolutions have as much as war or nationalism shaped the development of world politics. Equally, revolutions have been in cause, ideology, and consequence international events. By putting the international politics of revolution centre stage, Fred Halliday's book makes a major contribution to the understanding of both revolution and world politics.

Calculating the Value of the Union James L. Huston, 2003. While slavery is often at the heart of debates over the causes of the Civil War, historians are not agreed on precisely what aspect of slavery with its various social, economic, political, cultural, and moral ramifications gave rise to the sectional rift.

Aristotle on Emotions in Law and Politics Liesbeth Huppes-Cluysenaer, Nuno M.M.S. Coelho, 2018-02-13. In this book, experts from the fields of law and philosophy explore the works of Aristotle to illuminate the much debated and fascinating relationship between emotions and justice. Emotions matter in connection with democracy and equity; they are relevant to the judicial enforcement of rights, legal argumentation, and decision-making processes in legislative bodies and courts. The decisive role that emotions, feelings, and passions play in these processes cannot be ignored, not even by those who believe that emotions have no legitimate place in the public sphere. A growing body of literature on these topics recognizes the seminal insights contributed by Aristotle. This book offers a comprehensive analysis of his thinking in this context, as well as proposals for inspiring dialogues between his works and those written by a selection of modern and contemporary thinkers. As such, the book offers a valuable resource for students of law, philosophy, rhetoric, politics, ethics, and history, but also for readers interested in the ongoing debate about legal positivism and the relevance of emotions for legal and political life in today's world.

The Complex Interplay between Power, Politics, and African Agency Serges Djoyou Kamga, 2024-11-15. The Complex Interplay between Power, Politics, and African Agency: The Philosophy of Toyin Falola by Serges Djoyou Kamga examines the impact of colonialism by using Toyin Falola's philosophy as a framework. It delves into the evolution of African political culture under colonial rule. This book offers a unique perspective on the intricate dynamics of African society, providing a deeper understanding of how power and politics have shaped African culture. Kamga emphasizes the complex interplay between these elements and highlights the significance of African voices in determining their own destiny. Using Falola's works, this book analyzes and critiques the influence of Europe and establishes the ongoing unequal relationship between ex-colonized African countries and their imperialist colonizers. This book is highly recommended for scholars of African studies, political science, and anyone interested in African history and culture.

The Australian Study of Politics R. Rhodes, 2009-11-11. The Australian Study of Politics provides the first comprehensive reference book on the history of the study of politics in Australia, whether described as political studies or political science. It focuses on Australia and on developments since WWII, also exploring the historical roots of each major subfield.

The Politics of Socratic Humor John Lombardini, 2018-08-24. Was Socrates an ironist? Did he mock his interlocutors, and in doing so show disdain for both them and the institutions of Athenian democracy? These questions were debated with great seriousness by generations of

ancient Greek writers and helped to define a primary strand of the western tradition of political thought By reconstructing these debates *The Politics of Socratic Humor* compares the very different interpretations of Socrates developed by his followers including such diverse thinkers as Plato Aristotle Xenophon Aristophanes and the Hellenistic philosophers to explore the deep ethical and political dimensions of Socratic humor and its implications for civic identity democratic speech and political cooperation Irony has long been seen as one of Socrates most characteristic features but as Lombardini shows irony is only one part of a much larger toolkit of Socratic humor the broader intellectual context of which must be better understood if we are to appropriate Socratic thought for our own modern ends

Travel, Tourism, and Identity Gabriel R. Ricci, 2017-09-29 *Travel Tourism and Identity* addresses the psychological and social adjustments that occur when people make contact with others outside their social cultural or linguistic groups Whether such contact is the result of tourism seeking exile or relocating abroad the volume s contributors demonstrate how one s identity cultural assumptions and worldview can be brought into question In some cases the traveller finds that bridging the social and cultural gap between himself and the new society is fairly easy In other cases the traveller discovers that reorienting himself requires absorbing a new cultural history and traditions The contributors argue that making these adjustments will surely enhance the traveller s or tourist s experience otherwise the traveller or tourist will be at risk of becoming a marginalized figure one disconnected from the society that surrounds him This latest volume in the *Culture Civilization* series features a collection of essays on travel and tourism The essays cover a range of topics from historical travels to modern social identities They discuss ancient travels contemporary travels in Europe Africa and sustainable eco tourism and the politics of tourism Essays also address experiences of Grenada s Spice Island identity and the effects of globalization and migrations on personal identity

Reviewing **Politics Of Self Sufficiency Oxford Paperbacks**: Unlocking the Spellbinding Force of Linguistics
