Preserving Privilege California Politics Propositions And People Of Color:

Preserving Privilege Jewelle Taylor Gibbs, Teiahsha Bankhead, 2001-03-30 Gibbs and Bankhead examine the history and current situation in California as it struggles to deal with the ethnic and racial change that will make it the first American state to have a non white majority in the first decade of the 21st century From shock and denial to bargaining to change the outcome they analyze the impact in California and what this may mean for the rest of the country They begin by tracing the major historical social economic and political events of the past 50 years that laid the foundation for the impetus of such ethnically and racially divisive initiatives as the efforts to strengthen anti crime measures remove illegal immigrants limit affirmative action measures and eliminate bilingual education Each of these ballot propositions is examined detailing the pro and con arguments of their advocates and opponents their major financial contributors campaign strategies ethnic voting patterns implications of implementation and their impact on people of color Gibbs and Bankhead then look at parallels from a national and international perspective They conclude with a discussion of the values that should guide public policy debates in a multiethnic multicultural society and they propose specific policy alternatives to address the issues of crime prevention and control illegal immigration affirmative action and bilingual education A thoughtful analysis that will be of value to concerned citizens as well as policy makers scholars and students of contemporary American issues Racial Propositions

Daniel Martinez HoSang, 2010-10-28 This book looks beyond the headlines to uncover the controversial history of California's ballot measures over the past fifty years As the rest of the U S watched California voters banned public services for undocumented immigrants repealed public affirmative action programs and outlawed bilingual education among other measures Why did a state with a liberal political culture an increasingly diverse populace and a well organized civil rights leadership roll back civil rights and anti discrimination gains Daniel Martinez HoSang finds that contrary to popular perception this phenomenon does not represent a new wave of color blind policies nor is a triumph of racial conservatism Instead in a book that goes beyond the conservative liberal divide HoSang uncovers surprising connections between the right and left that reveal how racial inequality has endured Arguing that each of these measures was a proposition about the meaning of race and racism his deft convincing analysis ultimately recasts our understanding of the production of racial identity inequality and power in the postwar era The Victims' Rights Movement

Michael Vitiello, 2023-07-18 Outlines the successes and failures of the movement to support survivors of violence The Victims Rights Movement VRM has been one of the most meaningful criminal justice reforms in the United States Every state and the federal government has adopted major VRM laws to enact protections for victims and increase criminal sanctions and the movement has received support from politicians of all backgrounds Despite recognition of its excesses the movement remains an important force in the criminal justice arena The Victims Rights Movement offers a measured overview of the successes and the failures of the VRM Among its widely acknowledged accomplishments are expanded resources to help victims deal with trauma greater sensitivity to

sexual assault victims in many jurisdictions and increased chances of victims receiving restitution from perpetrators of harm. Conversely the movement has led to excessive punishment for many defendants and destruction of defendants families. It has exacerbated racial inequality in the imposition of the death penalty and criminal sentencing generally and falsely promises closure to crime victims and their families. Michael Vitiello considers whether the VRM serves those injured by crime well by focusing on victimhood. He urges a reframing of the movement to fight for universal health care and limits on access to weapons, two policies that would reduce the number of victims and help those who do become victims of crime. *State of Resistance* Manuel Pastor, 2018-04-03. Concise, clear and convincing a vision for the country as a whole. James Fallows, The New York Times Book Review. A leading sociologist's brilliant and revelatory argument that the future of politics, work, immigration and more may be found in California. Once upon a time any mention of California triggered unpleasant reminders of Ronald Reagan and right wing tax revolts, ballot propositions targeting undocumented immigrants and racist policing that sparked two of the nation's most devastating riots. In fact California confronted many of the challenges the rest of the country faces now decades before the rest of us. Today California is leading the way on addressing climate change, low wage work, immigrant integration, overincarceration and more. As white residents became a minority and job loss drove economic uncertainty, California had its own Trump moment twenty five years ago but has become increasingly blue over each of the last seven presidential elections. How did the Golden State manage to emerge from its unsavory past to become a bellwether for the rest of the country? Thirty years after Mike Davis's hellish depiction of California in *City of Quartz*, the award winning sociologist Manuel Pastor guides us through a new and improved California complete with lessons that the nation should heed. Inspiring and expertly researched *State of Resistance* makes the case for honestly engaging racial anxiety in order to address our true economic and generational challenges, a renewed commitment to public investments, the cultivation of social movements and community organizing and more. *The New Nativism* Robin Dale Jacobson, 2008. A very well crafted important book I recommend it highly. Howard Winant, author of *The New Politics of Race*. In 1994 California voters flocked to the polls in record numbers because of a ballot measure, Proposition 187, that was designed to deny social services to undocumented immigrants. A majority of voters favored the proposition and accusations of racism flew in all directions. A U.S. District Court ultimately overturned it but to this day Proposition 187 represents a watershed moment in the immigration debate. Examining the dynamics of that political battle, *The New Nativism* questions racism as the motivating factor for political action both at the time and in the high stakes, hotly contested immigration debates of today. Robin Jacobson's work based on in depth interviews with supporters of Proposition 187 unpacks the role race played in their support of the measure. Jacobson finds that rather than being motivated primarily by racism, proponents connected racial identity ideas of fairness and traditional American values in surprising, often contradictory ways. As individual activists on both sides of the debate struggled to make sense of their political and ideological commitments in light of immigration issues, the meaning and

import of race and citizenship were conflated in their minds Investigating a key moment in grassroots political activism The New Nativism sifts through the claims of racism that dominate current immigration debates and humanizes the discussion in important and potentially controversial ways Moving beyond inflammatory headlines and polarizing rhetoric Jacobson reveals that it is not so much prejudice but the very act of defining race that lies at the center of modern American politics Robin Dale Jacobson is assistant professor of political science at Bucknell University

We Just Keep Running the Line LaGuana Gray, 2014-11-05 The poultry processing industry in El Dorado Arkansas was an economic powerhouse in the latter half of the twentieth century It was the largest employer in the interconnected region of South Arkansas and North Louisiana surrounding El Dorado and the fates of many related companies and farms depended on its continued financial success We Just Keep Running the Line is the story of the rise of the poultry processing industry in El Dorado and the labor force composed primarily of black women upon which it came to rely At a time when agricultural jobs

were in decline and Louisiana stood at the forefront of rising anti welfare sentiment much of the work available in the area went to men driving women into less attractive labor intensive jobs LaGuana Gray argues that the justification for placing African American women in the lowest paying and most dangerous of these jobs like poultry processing derives from longstanding mischaracterizations of black women by those in power In evaluating the perception of black women as less than white women less feminine less moral less deserving of social assistance and less invested in their families and communities well being Gray illuminates the often exploitative nature of southern labor the growth of the agribusiness model of food production and the role of women of color in such food industries Using collected oral histories to allow marginalized women of color to tell their own stories and to contest and reshape narratives commonly used against them We Just Keep Running the Line explores the physical and psychological toll this work took on black women analyzing their survival strategies and their fight to retain their humanity in an exploitative industry Arab America Nadine Naber,2012-08-17 Tells the stories of second generation Arab American young adults living in the San Francisco Bay Area most of whom are political activists engaged in two culturalist movements that draw on the conditions of diaspora a Muslim global justice and a Leftist Arab movement Writing from a transnational feminist perspective Naber reveals the complex and at times contradictory cultural and political processes through which Arabness is forged in the contemporary United States and explores the apparently intra communal cultural concepts of religion family gender and sexuality as the battleground on which Arab American young adults and the looming world of America all wrangle **Beyond Resistance! Youth Activism and Community Change** Pedro Noguera,Julio Cammarota,Shawn Ginwright,2013-05-13 The failure of current policy to address important quality of life issues for urban youth remains a substantial barrier to civic participation educational equity and healthy adulthood This volume brings together the work of leading urban youth scholars to highlight the detrimental impact of zero tolerance policies on young people s educational experience and well being Inspired by the conviction that urban youth have the right to more equitable educational and social resources and political representation Beyond Resistance offers new insights into how to increase the effectiveness of youth development and education programs and how to create responsive youth policies at the local state and federal level
