Radical Aesthetic:

The Radical Aesthetic Isobel Armstrong, 2000-10-19 This ground breaking new work offers a spirited and severe critique of the turn to an anti aesthetic in theoretical writing and asserts that it has now become an intellectual necessity to rethink the aesthetic and remake aesthetic discourse

Aesthetic Subjects Pamela R. Matthews, David McWhirter, 2003 Recent calls for a return to aesthetics occur precisely at a moment when it is increasingly evident that nothing concerning aesthetics is self evident anymore Determined to recover the value of aesthetic experience for artistic cultural and social analysis the contributors to this volume prominent scholars in literature philosophy art history architecture history and anthropology begin from a shared recognition that ideological readings of the aesthetic have provided invaluable insights in particular that analyses of aesthetics within historical and social contexts tell us a great deal about the experience of aesthetic encounters From multiple and complementary perspectives the contributors address topics as varied as Nabokov and Dickens Caravaggio and Shelley Winters gender and sexuality advertising and AIDS Taken together their essays constitute a sustained and multifarious effort to resituate aesthetic pleasure in the mixed impure conditions characteristic of every social practice and experience however privileged or marginalized and to ask what happens to the aesthetic if we consider it apart from or at least in tension with its historically dominant discursive formulations As such this volume establishes a renewed sense of aesthetic discourse and its usefulness as a tool for understanding culture

Aesthetics of Music Stephen Downes, 2014-06-27 Aesthetics of Music Musicological Approaches is an anthology of fourteen essays each addressing a single key concept or pair of terms in the aesthetics of music collectively serving as an authoritative work on musical aesthetics that remains as close to the music as possible Each essay includes musical examples from works in the 18th 19th and into the 20th century Topics have been selected from amongst widely recognised central issues in musical aesthetics as well as those that have been somewhat neglected to create a collection that covers a distinctive range of ideas All essays cover historical origins sources and developments of the chosen idea survey important musicological approaches and offer new critical angles or musical case studies in interpretation

Beyond the Aesthetic and the Anti-Aesthetic James Elkins, Harper Montgomery, 2013-08-20 Each of the five volumes in the Stone Art Theory Institutes series and the seminars on which they are based brings together a range of scholars who are not always directly familiar with one another's work The outcome of each of these convergences is an extensive and unpredictable conversation on knotty and provocative issues about art This fourth volume in the series Beyond the Aesthetic and the Anti Aesthetic focuses on questions revolving around the concepts of the aesthetic the anti aesthetic and the political The book is about the fact that now almost thirty years after Hal Foster defined the anti aesthetic there is still no viable alternative to the dichotomy between aesthetics and anti or nonaesthetic art The impasse is made more difficult by the proliferation of identity politics and it is made less negotiable by the hegemony of anti aesthetics in academic discourse on art The central question of this book is whether artists and

academicians are free of this choice in practice in pedagogy and in theory The contributors are Stephanie Benzaquen J M Bernstein Karen Busk Jepsen Luis Camnitzer Diarmuid Costello Joana Cunha Leal Angela Dimitrakaki Alexander Dumbadze T Brandon Evans Geng Youzhuang Boris Groys Be ta Hock Gordon Hughes Michael Kelly Grant Kester Meredith Kooi Cary Levine Sunil Manghani William Mazzarella Justin McKeown Andrew McNamara Eve Meltzer Nadja Millner Larsen Maria Filomena Molder Carrie Noland Gary Peters Aaron Richmond Lauren Ross Toni Ross Eva Sch rmann Gregory Sholette Noah Simblist Jon Simons Robert Storr Martin Sundberg Timotheus Vermeulen and Rebecca Zorach **The Cambridge**

century than it has managed to do since it began to modernize and become more affluent from the 1960s onwards. Has Irish modernism ceded place to a prevailing naturalism that seems gritty and tough minded but that is aesthetically conservative and politically self thwarted? Does the fixation with de Valera's Ireland in recent narrative represent a necessary settling of accounts with a dark abusive history or is it indicative of a worrying inability on the part of Irish artists and intellectuals to respond to the very different predicaments of the post Cold War world? These are some of the questions addressed in *Outrageous Fortune*. Scanning literature, theatre, film and music, Joe Cleary probes the connections between capital culture and criticism in modern Ireland. He includes readings of James Joyce and the Irish modernists, the naturalists Patrick Kavanagh, John McGahern and Edna O'Brien and comments too on what he terms the neo naturalism of Marina Carr, Patrick McCabe and Martin McDonagh. He concludes with a provocative analysis of the cultural achievement of the Pogues. **A Companion to Adorno** Peter E. Gordon, Espen Hammer, Max Pensky, 2020-01-31 A definitive contribution to scholarship on Adorno bringing together the foremost experts in the field. As one of the leading continental philosophers of the last century and one of the pioneering members of the Frankfurt School, Theodor W. Adorno is the author of numerous influential and at times quite radical works on diverse topics in aesthetics, social theory, moral philosophy and the history of modern philosophy, all of which concern the contradictions of modern society and its relation to human suffering and the human condition. Having authored substantial contributions to critical theory which contain searching critiques of the culture industry and the identity thinking of modern Western society, Adorno helped establish an interdisciplinary but philosophically rigorous study of culture and provided some of the most startling and revolutionary critiques of Western society to date. The Blackwell Companion to Adorno is the largest collection of essays by Adorno specialists ever gathered in a single volume. Part of the acclaimed Blackwell Companions to Philosophy series, this important contribution to the field explores Adorno's lasting impact on many sub-fields of philosophy. Seven sections encompassing a diverse range of topics and perspectives explore Adorno's intellectual foundations, his critiques of culture, his views on ethics and politics and his analyses of history and domination. Provides new research and fresh perspectives on Adorno's views and writings. Offers an authoritative single volume resource for Adorno scholarship. Addresses renewed interest in Adorno's significance to contemporary questions in philosophy. Presents over 40 essays written by internationally recognized experts in the field. A singular advancement in Adorno scholarship, the Companion to Adorno is an indispensable resource for Adorno specialists and anyone working in modern European philosophy, contemporary cultural criticism, social theory, German history and aesthetics. *Non-Design* Anthony Fontenot, 2021-07-09 Anthony Fontenot's staggeringly ambitious book uncovers the surprisingly libertarian heart of the most influential British and American architectural and urbanist discourses of the postwar period, expressed as a critique of central design and a support of spontaneous order. *Non-Design* illuminates the unexpected philosophical common ground between enemies of state support, most prominently the economist Friedrich Hayek and numerous notable postwar architects and

urbanists like Robert Venturi Denise Scott Brown Reyner Banham and Jane Jacobs These thinkers espoused a distinctive concept of non design characterized by a rejection of conscious design and an embrace of various phenomenon that emerge without intention or deliberate human guidance This diffuse and complex body of theories discarded many of the cultural presuppositions of the time shunning the traditions of modern design in favor of the wisdom freedom and self organizing capacity of the market Fontenot reveals the little known commonalities between the aesthetic deregulation sought by ostensibly liberal thinkers and Hayek s more controversial conception of state power detailing what this unexplored affinity means for our conceptions of political liberalism Non Design thoroughly recasts conventional views of postwar architecture and urbanism as well as liberal and libertarian philosophies *The Visual Culture of East German Picturebooks 1945-1990*

Jörg Meibauer,2025-06-02 This is the first study to explore picturebooks of the Soviet Occupation Zone and the German Democratic Republic analyzing them in the context of contemporary history social and cultural developments and through a precise analysis of selected images and their context By focusing on areas such as architecture and housing consumer culture traffic and transportation including the iconic role of the Trabant and the design of childhood as seen in pioneer uniforms and institutions the study identifies the unique blend of information about reality and socialist ideology typical of children s visual culture during this period This specific combination was aimed at shaping children to become socialist personalities The study thus demonstrates that pictorial representation and its textual integration are crucial for understanding childhood in the immediate post war period and the German Democratic Republic

Imagination and the Contemporary Novel John J. Su,2011-05-26 *Imagination and the Contemporary Novel* examines the global preoccupation with the imagination among literary authors with ties to former colonies of the British Empire since the 1960s John Su draws on a wide range of authors including Peter Ackroyd Monica Ali Julian Barnes Andr Brink J M Coetzee John Fowles Amitav Ghosh Nadine Gordimer Hanif Kureishi Salman Rushdie and Zadie Smith This study rehabilitates the category of imagination in order to understand a broad range of

contemporary Anglophone literature The responses of such literature to shifts in global capitalism have often been misunderstood by the dominant categories of literary studies the postmodern and the postcolonial As both an insightful critique into the themes that drive a range of today s best novelists and a bold restatement of what the imagination is and what it means for contemporary culture this book breaks new ground in the study of twenty first century literature
