Van Hise Marion Mills Miller,1913 *Confirmation Hearings on Federal Appointments* United States. Congress. Senate. Committee on the Judiciary,2013 The Language and Reality of Time Thomas Sattig,2006-05-11 Thomas Sattig s book develops a comprehensive framework for doing philosophy of time He brings together a variety of different perspectives linking our ordinary conception of time with the physicist s conception and linking questions about time addressed in metaphysics with questions addressed in the philosophy of language Within this framework Sattig explores the temporal dimension of the material world in relation to the temporal dimension of our ordinary discourse about the world The discussion is centred around the dispute between three dimensionalists and four dimensionalists about whether the temporal profile of ordinary objects mirrors their spatial profile Are ordinary objects extended in time in the same way in which they are extended in space Do they have temporal as well as spatial parts Four dimensionalists say yes three dimensionalists say no Sattig develops an original three dimensionalist picture of the material world and argues that this picture is preferable to its four dimensionalists rivals if ordinary thought and talk are taken seriously Among the issues that Sattig discusses are the metaphysics of persistence change composition location coincidence and relativity the ontology of past present and future and the semantics of predication tense temporal modifiers and sortal terms **Foreign Assistance and Related Agencies Appropriations** United States.
